**Patriotic Games** S. W. Pope, 1997-02-27 In Patriotic Games historian Stephen Pope explores the ways sport was transformed from a mere amusement into a metaphor for American life Between the 1890s and the 1920s sport became the most pervasive popular cultural activity in American society During these years basketball was invented football became a mass spectator event and

baseball soared to its status as the national pasttime Pope demonstrates how America s sporting tradition emerged from a society fractured along class race ethnic and gender lines Institutionalized sport became a trans class mechanism for packaging power and society in preferred ways it popularized an interlocking set of cultural ideas about America s quest for national greatness Nowhere was this more evident than the intimate connection established between sport and national holiday celebrations As Pope reveals Thanksgiving sports influenced the holiday s evolution from a religious occasion to a secular one On the Fourth of July sporting events infused patriotic rituals with sentiments that emphasized class conciliation and ethnic assimilation In a time of social tensions economic downturns and unprecedented immigration the rituals and enthusiasms of sport Pope argues became a central component in the shaping of America s national identity
