Hostile Takeovers Defense Attack And Corporate Strategy:

Defense Strategies Against Hostile Takeovers Jan Steinbächer, 2007-09 Bachelor Thesis from the year 2007 in the subject Business economics Miscellaneous grade 94 0 % International University of Monaco 65 entries in the bibliography language English abstract Objective of this thesis was to identify the trends and developments of country specific defense strategies against hostile takeovers and their determinants Thus it was necessary to analyze which possibilities of corporate defense would actually be feasible in certain countries Defense strategies were subdivided into preventive and ad hoc strategies National characteristics and differentiators were shown and analyzed regarding their suitability as a defense measure Especially in France and Germany the big influential players have been in a process of change banks and governments are pursuing different investment strategies and companies loose their systematic protection The example of Germany illustrates that companies are looking for protective alternatives as old structures like the Rhenish capitalism are breaking up The growth of M France has lifted barriers regarding takeovers both friendly and hostile regarding 11 specific industries at the time being This example illustrates the increasingly protectionist behavior in Europe on a governmental level Corporate Governance generally takes shareholders more and more into consideration regarding the vote on the adoption of defense measures and golden parachutes In the US companies started to diminish golden parachutes as a result of the proposal of activist shareholders In many European countries however there are still enough loopholes to avoid foregone shareholder voting A contrary trend is to be seen in the US where poison pills are diminished on a fast pace In addition shareholders vote increasingly in favor of declassified boards Golden parachutes are still prevalent but not

Hostile Takeovers - the Use of Attack and Defence Strategies Panagiotis Papadopoulos, 2011-11 Doctoral Thesis Dissertation from the year 2011 in the subject Business economics Accounting and Taxes grade 70 University of Westminster Westminster Business School course MSc Finance and Accounting Master Dissertation language English abstract The attack and defence strategies are of critical importance for the situation of a takeover bid from the view of the target company or the investor raider They can be crucial factor whether the acquisition is successful or not Several strategies are discussed and are evidenced on the basis of practical examples Of special importance is the development of the bid premia during the takeover process and the impact to the shareholders wealth It can be observed that through decades and several takeover waves in the 20th century specific defence strategies pointed out as favourites in use for target managers This project reviews the motivations for hostile takeovers structures the random literature in this field discusses the effects and impacts of popular attacks and defences and showcases several high profile takeover bids *The Art of Hostile Takeover Defence* Jeannette Gorzala, 2010-03 The market for corporate control had been the playfield of bust up artists and speculators seeking short time profits during the 1980s This had also encouraged many innovations in the art of hostile takeover defence Until today anti takeover defence has reached a very sophisticated level and most companies have erected formidable defences to

counter aggressive corporate raiders With her book Jeanette Gorzala provides a global perspective on hostile take over defence during the latest merger wave The focus lies on firstly determining the most common anti takeover defence strategies and then in a second step evaluating their effectiveness to ward off corporate raiders For this purpose the underlying concepts of the formal theory are presented in order to serve as a fundamental basis for an empirical study In order to underline the theory with empirical evidence a sample of 335 hostile takeover bids launched in the timeframe from January 1 2003 to December 31 2008 has been analyzed The key findings of the study are presented along two vital research questions reflecting the purpose of this book Corporate Governance Around the World Ahmed Naciri,2008-02-14 This book including contributions from world recognized experts in the sphere of corporate governance presents a number of international corporate governance systems comparing and contrasting the experiences of several countries across the world
