MacDonald,2023-03-31 What makes Dave Barry funny Stephen King scary Tami Hoag heartbreaking All readily admit that where they live greatly influences what they write Indeed for both writers and readers geography may well be destiny when it comes to fiction Novelists often borrow from their surroundings consciously or subconsciously to create their imaginative worlds just as we readers are drawn to those works that transport us to more exciting and inspiring locales be it Hemingway's Havana Faulkner's Yoknapatawpha County or McMurtry's Lonesome Dove **The Conqueror (Constantine's Empire Book #1)** Bryan Litfin,2020-10-13 It is AD 312 Rome teeters on the brink of war Constantine's army is on the move On the Rhine frontier Brandulf Rex a pagan Germanic barbarian joins the Roman army as a spy and special forces operative Down in Rome Junia Flavia the lovely and pious daughter of a nominally Christian senator finds herself embroiled in anti Christian politics as she works on behalf of the church As armies converge and forces beyond Rex's and Flavia's controls threaten to destroy everything they have worked for these two people from different worlds will have to work together to bring down the evil Emperor Maxentius But his villainous plans and devious henchmen are not easily overcome Will the barbarian warrior and the senator's daughter live to see the Empire bow the knee to Christ Or will their part in the story of Constantine's rise meet an untimely and brutal end Travel back to one of the most pivotal eras in history a time when devotion to the pagan gods was fading and the Roman Empire was being conquered by the sign of the cross **Men Seeking Women** Po Bronson,Richard

The Oxford History of the Novel in English Cyrus R. K. Patell,Deborah Lindsay Williams,2024-03-05 The Oxford History of the Novel in English is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction written by a large international team of scholars The series is concerned with novels as a whole not

just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements and tendencies This book offers an account of US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a failure both at home and abroad For so many of the writers whose work this volume explores the idea of nation became suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved During this period the novel has had significant competition for the US public s attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States

Latinx Literature Unbound Ralph E. Rodriguez,2018-05-08 Since the 1990s there has been unparalleled growth in the literary output from an ever more diverse group of Latinx writers Extant criticism however has yet to catch up with the diversity of writers we label Latinx and the range of themes about which they write Little sustained scholarly attention has been paid moreover to the very category under which we group this literature Latinx Literature Unbound thus begins with a fundamental question What does it mean to label a work of literature or an entire corpus of literature Latinx From this question others emerge What does Latinx allow or predispose us to see and what does it preclude us from seeing If the grouping which brings together a heterogeneous collection of people under a seemingly homogeneous label tells us something meaningful is there a poetics we can develop that would facilitate our analysis of this literature In answering these questions Latinx Literature Unbound frees Latinx literature from taken for granted critical assumptions about identity and theme It argues that there may be more salubrious taxonomies than Latinx for organizing and analyzing this literature Privileging the act of reading as a temporal meaning making event Ralph E Rodriguez argues that genre may be a more durable category for analyzing this literature and suggests new ways we might proceed with future studies of the writing we have come to identify as Latinx
