concerns his involvement with theism and his commitment to land nationalization and other sociopolitical reforms such as women's rights. As Fichman shows, Wallace worked throughout his life to integrate these humanistic and scientific interests. His goal: the development of an evolutionary cosmology, a unified vision of humanity's place in nature and society that he hoped would ensure the dignity of all individuals. To reveal the many aspects of this compelling figure, Fichman not only reexamines Wallace's published works but also probes the contents of his lesser-known writings, unpublished correspondence, and copious annotations in books from his personal library. Rather than consider Wallace's science as distinct from his sociopolitical commitments, *An Elusive Victorian* assumes a mutually beneficial relationship between the two, one which shaped Wallace into one of the most memorable characters of his time. Fully situating Wallace's wide-ranging work in its historical and cultural context, Fichman's innovative and insightful account will interest historians of science, religion, and Victorian culture as well as biologists. **Library Journal**, 2001 Industrial Arts in Education Dean Merrill

Schweickhard, 1929 **Television at Large in South Asia** Aswin Punathambekar, Shanti Kumar, 2015-09-25 This book explores the empirical and theoretical significance of understanding television as a dynamic technology, a creative industry, and a vibrant cultural form that is at large in South Asia. Bringing together prominent scholars who have shaped television studies in South Asia as well as emerging scholars who address new topics, this book decisively positions television as a key site in the study of South Asian History and Culture. In doing so, it also positions the study of television in South Asia and the South Asian diaspora as crucial in the rethinking of global television history and opens up new directions for the future of television studies. This volume will be essential reading for scholars and teachers of media and communication studies, media history, anthropology, and sociology, besides being of great interest to policymakers and media professionals. This book was originally published as a special issue of *South Asian History and Culture*. **Cooperative School Bulletin**, 1928 *The Training System adopted in the Model Schools of the Glasgow Educational Society, etc* David STOW, 1846 **Turizm** Anne

E. Gorsuch, Diane P. Koenker, 2018-09-05 In the Soviet Union and the eastern bloc, the idea of vacation was never as uncomplicated as throwing some suitcases in the car and heading for the beach. The emphasis was on individual self-improvement within the framework of the collective, an approach manifest in everything from the scheduling of physical exercise to the group tours organized for factory workers, Party cadres, and other segments of society. Like other Soviet-style utopian projects, socialist tourism, which was often heavily laden with rules and prescriptions, was a consciousness-raising project, part of the vast effort to forge new socialist men and women. *Turizm* is the first book to examine the history of tourism in Russia and eastern Europe from the tsarist period to the age of Soviet and east European mass tourism in the 1960s and 1970s. The contributors to this volume address topics including the roots of socialist tourism, the role of tourism in the making of nations and maintenance of empire, and ways in which the men and women of the margins of Europe understood themselves in relation to Europe. Especially interesting are chapters that show how individuals pursued their own

consumerist goals within the framework of collective tourism obliging the regimes to adapt Illustrated with period photographs and promotional materials Turizm will appeal not only to historians of the region but also to anyone with an interest in consumer culture travel leisure and nation building
