Martínez Gutiérrez, IMO International Maritime Law Institute, 2014 This three volume Manual on International Maritime Law presents a systematic analysis of the history and contemporary development of international maritime law by leading contributors from across the world Prepared in cooperation with the International Maritime Law Institute the International Maritime Organization's research and training institute this a uniquely comprehensive study of this fundamental area of international law Volume I The Law of the Sea addresses the major issues which arise in the law of the sea It provides a detailed understanding of the historical development of the law of the sea the role of the International Maritime Organization the law surrounding maritime zones the legal regime of islands the international sea bed area the legal regime governing marine scientific research the rights and obligations of land locked and geographically disadvantaged states the legal regime of Arctic and Antarctic and the settlements of disputes This volume also considers the ways in which human rights and the law of the sea interact

Bondage of Boundaries and Identity Politics in Postcolonial Africa J. Ndlovu-Gatsheni, Brilliant Mhlanga, 2013 What has confounded African efforts to create cohesive prosperous and just states in postcolonial Africa What has been the long term impact of the Berlin Conference of 1884 5 on African unity and African statehood Why is postcolonial Africa haunted by various ethno national conflicts Is secession and irredentism the solution Can we talk of ethno futures for Africa These are the kinds of fundamental questions that this important book addresses Sabelo J Ndlovu Gatsheni and Brilliant Mhlanga's book introduces the metaphor of the northern problem to dramatise the fact that there is no major African postcolonial state that does not enclose within its borders a disgruntled minority that is complaining of marginalization domination and suppression The irony is that in 1963 at the formation of the OAU postcolonial African leaders embraced the boundaries arbitrarily drawn by European colonialists and institutionalised the principle of inviolability of bondage of boundaries thereby contributing to the problem of ethno national conflicts The successful struggle for independence of the Eritrean people and the secession of South Sudan in 2011 have encouraged other dominated and marginalised groups throughout Africa to view secession as an option Ndlovu Gatsheni and Mhlanga successfully assembled competent African scholars to deal exhaustively with various empirical cases of ethno national conflicts throughout the African continent as well as engaging with such pertinent issues as Pan Africanism as a panacea to these problems This important book delves deeper into complex issues of space languages conflict security nation building war on terror secession migration citizenship militias liberation violence and Pan Africanism

Criminal Justice Procedure Stacy Moak, Ronald L. Carlson, 2012-12-31 Criminal Justice Procedure gives clear guidance on the most common questions faced by today's law enforcement offering fresh look at 21st century pre trial protocol Unlike other case books this newly revised edition eschews legal theory in favor of the practical know how needed to not to parse

but apply criminal law Emphasis has been placed on just exactly how practitioners should conduct hot button procedures such as airport and border searches Moreover the book also addresses the often dire implications of deviating from proper practice how a false step can translate into a violation of individual rights or the inability to successfully prosecute the guilty This edition has been specifically designed for CJ undergraduate programs rather than higher level law schools and completely reorganized for a more logical flow of topics Moreover it is newly focused on the most crucial practical applications of the law in the CJ context There is also added emphasis on the Fourth Fifth and Sixth Amendments Renewed emphasis on information needed by CJ undergraduates and practitioners rather than law students Includes a completely reorganized more logical table of contents that supports the development of those reasoning and critical thinking skills needed to put the law in action Added pedagogy and a much richer set of accompanying online resources help students apply case law to other sets of facts International Law in Historical Perspective J.P.S. Offerhaus,W.P. Heere,J.H.W.

Verzijl,2023-11-27 This volume completes the monumental eleven volume series International Law in Historical Perspective which was published over a period of 24 years by Professor J H W Verzijl and continued after his death in 1987 by W P Heere and J P S Offerhaus This index volume provides insight into the series both for the uninitiated and initiated enabling the user to access all 11 volumes spanning a total of 6500 printed pages quickly and easily It contains a subject index an index of personal names of geographical names of ships names a list of treaties a list of international judgements and a list of international arbitrations A list of Professor Verzijl s commentaries on the more recent jurisprudence of the International Court of Justice completes the volume The Life of Isaac Ingalls Stevens Hazard Stevens,1900 **Sovereignty and**

Jurisdiction in Airspace and Outer Space Gbenga Oduntan,2011-09-12 Sovereignty and jurisdiction are legal doctrines of a complex nature which have been subject to differing interpretations by scholars in legal literature The tridimensionality of state territory recognised under customary international law subsists until the present but there are other territories that do not or cannot belong to any state or political entity which also must be accounted for in legal theory The issues surrounding sovereignty and jurisdiction are likely to become ever more pressing as globalisation growing pressure on resources and the need for energy and national security become acute and the resolution of special delimitation disputes seems likely to become a vital question in the twenty first century As a result of the fast pace of technological developments in air and space activities and the massive increases in air transportation satellite communications and space exploration the need for scholars and practitioners to sharpen their appreciation of the legal and political issues becomes crucial This book will focus primarily on the issues of sovereignty jurisdiction and control in airspace and outer space and their effects on public and private activities but it will also look at related issues pertaining to the Seas and Antarctica Commercial exploitation resource control and the international regime regulating contractual obligations in relation to transportation of goods and services over all forms of territory will be examined to the extent that they are necessary to explain jurisdictional rights and duties

over territory Older problems of international law such as crimes in the air and airspace trespass are treated along with newer developments such as space tourism as well as growing demand for private ownership and involvement in outer space exploitation The book goes on to consider the distinction between airspace and outer space and puts forward legal criteria which would allow for the resolution of the spatial delimitation dispute These criteria would determine where in spatial terms the exclusive sovereignty of airspace ends and where outer space the province of all mankind begins and contribute to the jurisprudence of territorial sovereignty and jurisdiction *Stranger in Camelot* Deborah Smith,2011-11-16 Cautious Agnes Hamilton owner of a horse breeding farm tries in vain to resist the advances of the wickedly handsome John Bartholomew a mystery man who rides into her life and tries to sweep her off her feet **The Joint Chiefs of Staff and the War in Vietnam, 1960-1068, Part 2** ,2012 *The Joint Chiefs of Staff and the War in Vietnam, 1960-1968: 1964-1966* Jack Shulimson,2011 *The Joint Chiefs of Staff and the War in Vietnam, 1960-1968: 1960-1968 (pt. 2)* Graham A.
