Hothouse Earth The Greenhouse Effect And Gaia:

Hothouse Earth John R. Gribbin,1990 **Hothouse Earth** John Gribbin,1990 **Hothouse Earth** John Gribbin,1992-01-28 Examines global warming as a result of human activities against a broader background of natural climatic processes British science writer Gribbin explains why the world is getting warmer what the change in temperature and rainfall patterns will mean for human society and what can and must be done to slow the pace of these changes Annotation copyrighted by Book News Inc Portland OR *Hothouse Earth* John Gribbin,1990-10 *Life in the Hothouse* Melanie Lenart,2010-05-15 In this insightful compelling and highly readable work Melanie Lenart an award winning journalist and science writer who holds a PhD in Natural Resources and Global Change examines global warming with the trained eye of a professional scientist And she presents the science in a clear straightforward manner Why does the planet s warming produce stronger hurricanes rising seas and larger floods Simple says Lenart The Earth is just doing what comes naturally Just as humans produce sweat to cool off on a hot day the planet produces hurricanes floods wetlands and forests to cool itself off Life in the Hothouse incorporates Lenart s extensive knowledge of climate science including the latest research in climate change and the most current scientific theories including Gaia theory which holds that the Earth has some degree of climate control built in As Lenart points out scientists have been documenting stronger hurricanes and larger floods for many years There is a good reason for this she notes Hurricanes help cool the ocean surface and clear the air of carbon dioxide the main greenhouse gas responsible for global warming From the perspective of Gaia theory these responses are helping to slow the ongoing global warming and Lenart expounds upon this in a clear and understandable fashion There is hope Lenart writes If we help sustain Earth s natural defense systems including wetlands and forests perhaps Mother Earth will no longer need to rely as much on the cooling effects of what we call natural disasters many of which carry a human fingerprint At a minimum she argues these systems can help us survive the heat *A Feminist Companion to the Apocalypse of John* Amy-Jill Levine,Maria Mayo Robbins,2010-07-05 An examination of New Testament Apocalyptic literature through the categories of post colonial thought deconstruction ethics Roman social discourse masculinisation virginity and violence

How the Weather Affects Your Health (Volume 2 of 2) (EasyRead Super Large 24pt Edition) , *How the Weather Affects Your Health (EasyRead Large Bold Edition)* , *The Social Construction of Climate Change* Mary E. Pettenger, 2016-02-24 Individuals international organizations and states are calling for the world to confront climate change Efforts such as the Kyoto Protocol have produced intractable disputes and are deemed inadequate This volume adopts two constructivist perspectives norm centred and discourse to explore the social construction of climate change from a broad theoretical level to particular cases The contributors contend that climate change must be understood from the context of social settings and that we ignore at our peril how power and knowledge structures are generated They offer a greater understanding of why current efforts to mitigate climate change have failed and provide academics and policy makers with a new understanding of this important topic

Risk John Adams, 2002-09-11 Risk compensation postulates that everyone has a risk thermostat and that safety measures that do not affect the setting of the thermostat will be circumvented by behaviour that re establishes the level of risk with which people were originally comfortable It explains why for example motorists drive faster after a bend in the road is straightened Cultural theory explains risk taking behaviour by the operation of cultural filters It postulates that behaviour is governed by the probable costs and benefits of alternative courses of action which are perceived through filters formed from all the previous incidents and associations in the risk taker s life Risk should be of interest to many readers throughout the social sciences and in the world of industry business engineering finance and public administration since it deals with a fundamental part of human behaviour that has enormous financial and economic

implications *Postmodern Climate Change* Leigh Glover, 2007-01-24 A much needed analysis of international climate change politics as a key issue of modernity and in the context of environmentalism Leigh Glover presents a new way to understand the climate change problem and is concerned with problems of modernity and postmodernity in the context of contemporary environmental thought Focusing on the international politics surrounding the UN agreement of climate change the Framework Convention on Climate Change and its Kyoto Protocol Glover examines the issue using the key aspects of climate change science global environmental politics and global environmental management *Developing The Environment* C Barrow, 2014-09-19 This book presents a comprehensive overview of global environmental problems past present and future examining their roots and implications and suggesting where possible ways in which they might be mitigated or avoided by careful management *Faith at the Frontiers of Knowledge* R. Ross, 2018-05-20 Unity of knowledge is not easily achieved in today's Africa where often there is little conscious interaction between traditional beliefs Christian faith and modern secularity The challenge is taken up in this book as scholars from a variety of disciplines wrestle with the relation of faith and science at the frontiers of knowledge The results are important alike for the integrity of faith for scientific advance and for the attainment of creative cultural unity in society Readers with such concerns at heart will find much food for thought as they traverse the broad frontiers explored in these wide ranging essays **Environment** Glenn Adelson, James Engell, Kevin P. Van Anglen, Brent Ranalli, 2008-01-01 This major anthology is the first to apply a fully interdisciplinary approach to environmental studies A comprehensive guide to environmental literacy the book demonstrates how the sciences social sciences and humanities all contribute to understanding our interrelationships with the natural world Though not specialized *Environment* is a book that even specialists can learn from Ten innovative case studies climate shock species endangerment nuclear power biotechnology sustainable development deforestation environmental security globalization wilderness and the urban environment are followed by readings from specific disciplines These can be integrated with the case studies to shape individual interests and teaching strategies The volume presents an imaginative array of texts from scientific papers to poetry legal decisions to historical accounts personal essays to economic analysis Taken together these selections provide a balanced authoritative and up to date treatment of key issues in environmental studies

Environmental Politics and Policy James P. Lester, 1995 Completely revised throughout and including five new chapters this second edition of *Environmental Politics and Policy* provides an updated review and synthesis of the political science literature on the subject of environmental politics and policy Various chapters by leading scholars in the field analyze and describe the role of public opinion interest groups political parties Congress the Executive Branch the Courts and elites as they have influenced the formation of U S environmental policies over the past twenty five years The book also provides ideas for future research and will stimulate thinking about the subject in the 1990s and beyond From reviews of the First Edition All the authors in this collection of essays are well known in the field of environmental policy Their breadth of

knowledge and diversity of perspectives permit a rich and comprehensive coverage of the scholarly work in this field Daniel McCool *Journal of Politics* An excellent collection of readings with a strong emphasis on institutional analysis as an approach to environmental policy in the United States Robert Paehlke *Natural Resources and Environmental Administration* No better review of the political science of environmental policy making has yet been published Christopher J Bailey *Environmental Politics* Contributors David Colnic Douglas Costain John S Dryzek Riley E Dunlap Helen M Ingram Sheldon Kamieniecki Michael E Kraft James P Lester Dean E Mann Evan J Ringquist Walter A Rosenbaum Mark E Rushefsky Gerald B Thomas Lettie M Wenner Eco-Impacts and the Greening of Postmodernity Tom Jagtenberg, David McKie, 1996-11-07 Addressing a growing need to examine environmental issues from a cultural perspective this innovative book adopts a cultural studies approach to reach a deeper understanding of the significance of ecological issues in our lives *Eco Impacts and the Greening of Postmodernity* explores such vital questions as Can nature survive How do academic disciplines engage with environmental crises And how do we map sustainable futures The authors Tom Jagtenberg and David McKie bring a body of relevant literature into the debate that stems from both cultural and environmental issues as well as their own multidisciplinary perspectives on the subject 清华大学出版社 2005
