reality of American society today The text breaks new ground by focusing on the intersections of national debates and education policymaking It situates the case studies within historical and contemporary cultural contexts with particular attention to questions of power and knowledge control and how influence is exercised By juxtaposing the contrasting cases of California and New York the authors illustrate commonalities and differences in education policymaking goals and processes By sharing stories of participants at and behind the scenes policymaking comes alive rather than appearing to result from impersonal forces or factors [Social Studies, Grades 5 and 6 ...](#) Oakland (Calif.).
