*Hounds in Leash* Matthew Craske, 2000      *Picturing Animals in Britain, 1750-1850* Diana Donald, 2007-01-01 From fine art paintings by such artists as Stubbs and Landseer to zoological illustrations and popular prints a vast array of animal images was created in Britain during the century from 1750 to 1850 This highly original book investigates the rich meanings of these visual representations as well as the ways in which animals were actually used and abused What Diana Donald discovers in this fascinating study is a deep and unresolved ambivalence that lies at the heart of human attitudes toward animals The author brings to light dichotomies in human thinking about animals throughout this key period awestruck with the beauty and spirit of wild animals people nevertheless desired to capture and tame them the belief that other species are inferior was firmly held yet at the same time animals in stories and fables were given human attributes though laws against animal cruelty were introduced the overworking of horses and the allure of sport hunting persisted Animals are central in cultural history Donald concludes and compelling questions about them then and now remain unanswered      **Kindred**

**Brutes: Animals in Romantic-Period Writing** Christine Kenyon-Jones, 2017-03-02 Exploring the significance of animals in Romantic period writing this new study shows how in this period they were seen as both newly different from humankind subjects in their own right rather than simply humanity's tools or adjuncts and also as newly similar with the ability to feel and perhaps to think like human beings Approaches to animals are reviewed in a wide range of the period's literary work in particular that of Byron Wordsworth Coleridge Keats Southey Clare and Blake Poetry and other literary work are discussed in relation to discourses about animals in various contemporary cultural contexts including children's books parliamentary debates vegetarian theses encyclopaedias and early theories about evolution The study introduces animals to the discussions about ecocriticism and environmentalism in Romantic period writing by complicating the concept of Nature and it also contributes to the debates about politics and the body in this period It demonstrates the rich variety of thinking about animals in the late eighteenth and early nineteenth centuries and it challenges the exclusion of literary writing from some recent multi disciplinary debates about animals by exploring the literary roots of many metaphors about and attitudes to animals in our current thinking **Kindred Brutes** constitutes a genuinely original and substantial contribution both to Romantic period writing and to general debates about animals and the body      [The Life of Anne Damer](#) Jonathan David

Gross, 2013-11-18 The first biography of Anne Damer since 1908 *The Life of Anne Damer Portrait of a Regency Artist* by Jonathan Gross draws on Damer's notebooks and previously unpublished letters to explore the life and legacy of England's first significant female sculptor Best known for her portraits of dogs and other animals Damer also created busts of England's most important political heroes sometimes within days or hours of their historical accomplishments This in depth biography traces her life during the American Revolution the French Revolution the Peace of Amiens and the Hundred Days Damer was convinced that art could have significant political influence sending her bust of Nelson to the King of Tanjore to encourage

trade with India Her art stands at the transition between neoclassicism and romanticism and provides a wealth of insight into 19th century British sculpture In the last twenty years there has been a strong revival of interest in Damer s life particularly in gay and lesbian studies due to her famous relationship with author Mary Berry This text serves as a deeper investigation of this fascinating and important figure of British art history The emotional m nage a trois of Anne Damer Mary Berry and Horace Walpole forms the heart of this new biography Gross contends that all three individuals had they led more conventional lives would never have given the world the literary and artistic gifts they bestowed in the form of Strawberry Hill Belmour and Fashionable Friends The struggles they faced will encourage modern readers to appreciate anew the fluidity of sexual identity and passionate friendship as well as the restraints put in place by society to control them Anne Damer s life has much to teach a new generation concerned with the complex relationship between love art and politics The Life of Anne Damer will interest historians of Georgian England and readers in the fine arts literature and history

**The Passions of Jean-Baptiste Carpeaux** Draper, James David, Papet, Edouard, 2014 Jean Baptiste Carpeaux 1827 1875 was an extraordinarily gifted sculptor the greatest in 19th century France before Rodin and embodied the emotionally charged artistic climate of his era Carpeaux s wrenching representations of human forms shown in beautiful color details and illustrations echo his turbulent personal life fraught with episodes of violence and fatal illness The book covers the entire span of Carpeaux s career and includes the masterpiece Ugolino and His Sons newly discovered drawings and a number of rarely seen or studied works Previously unpublished letters between Carpeaux and his family and friends a wealth of archival material and the most detailed chronology of the artist s life ever published Yale University Press website

*Victorian Animal Dreams* Deborah Denenholz Morse, Martin A. Danahay, 2017-05-15 The Victorian period witnessed the beginning of a debate on the status of animals that continues today This volume explicitly acknowledges the way twenty first century deliberations about animal rights and the fact of past and prospective animal extinction haunt the discussion of the Victorians obsession with animals Combining close attention to historical detail with a sophisticated analytical framework the contributors examine the various forms of human dominion over animals including imaginative possession of animals in the realms of fiction performance and the visual arts as well as physical control as manifest in hunting killing vivisection and zookeeping The diverse range of topics analyzed from a contemporary perspective makes the volume a significant contribution to Victorian studies The conclusion by Harriet Ritvo the pre eminent authority in the field of Victorian animal studies provides valuable insight into the burgeoning field of animal studies and points toward future studies of animals in the Victorian period

**Russian Society and Culture and the Long Eighteenth Century** Roger P. Bartlett, Lindsey Hughes, 2004 This collection which honors Anthony G Cross and his work on Imperial Russia s eighteenth century culture and connections with Britain brings together contributions from sixteen leading scholar in the field of eighteenth century Russian studies The essays address a wide range of topics in the diplomatic social cultural literary and linguistic history of the period

*Dog* Susan McHugh, 2004-08-04 Dogs are perhaps our most popular pets and certainly one of the best loved of all animals. They are not only humanity's best friend; they are also its oldest. Burial sites dating back 12,000 years indicate that dogs moved alongside prehistoric peoples before, during, and after both species settled the world. The story of the canine has been fundamentally entwined with that of humanity since the earliest times, and this ancient and fascinating story is told in Susan McHugh's *Dog*. This book unravels the debate about whether dogs are descended from wolves and moves on to deal with canines in mythology, religion, and health; dog cults in ancient and medieval civilizations as disparate as Alaska, Greece, Peru, and Persia; and traces correspondences between the histories of dogs in the Far East, Europe, Africa, and the Americas. *Dog* also examines the relatively recent phenomenon of dog breeding and the invention of species, as well as the canine's role in science, fact, and fiction, from Laika, the first astronaut, and Pavlov's famous conditioned dogs through to science fiction novels and cult films such as *A Boy and his Dog*. Susan McHugh shows how dogs today contribute to human lives in a huge number of ways, not only as pets and guide dogs but also as sources of food, in Asia, entertainment workers, and scientific and religious objects. *Dog* reveals how we have shaped these animals over the millennia and, in turn, how dogs have shaped us.

*Animal Companions* Ingrid H. Tague, 2015-06-17 *Animal Companions* explores how eighteenth-century British society perceived pets and the ways in which conversation about them reflected and shaped broader cultural debates. While Europeans kept pets long before the eighteenth century, many believed that doing so was at best frivolous and at worst downright dangerous. Ingrid Tague argues that for Britons of the eighteenth century, pets offered a unique way to articulate what it meant to be human and what society ought to look like. With the dawn of the Enlightenment and the end of the Malthusian cycle of dearth and famine that marked previous eras, England became the wealthiest nation in Europe with a new understanding of religion, science, and non-European cultures and unprecedented access to consumer goods of all kinds. These transformations generated excitement and anxiety that were reflected in debates over the rights and wrongs of human-animal relationships. Drawing on a broad array of sources, including natural histories, periodicals, visual and material culture, and the testimony of pet owners themselves, *Animal Companions* shows how pets became both increasingly visible indicators of spreading prosperity and catalysts for debates about the morality of the radically different society emerging in eighteenth-century Britain.
