Spurlock, Cynthia Magistro, 1998-08-01 As the Victorian era drew to a close American culture experienced a vast transformation In many ways the culture changed even more rapidly and profoundly for women The new woman the new freedom and the sexual revolution all referred to women moving out of the Victorian home and into the public realm that men had long claimed as their own Modern middle class women made a distinction between emotional styles that they considered Victorian and those they considered modern They expected fulfillment in marriage companionship and career and actively sought up to date versions of love and happiness relieved that they lived in an age free from taboo and prudery Drawing on the diaries letters and memoirs of women from a wide range of backgrounds and geographic regions this volume offers insights into middle class women's experiences of American culture in this age of transition It documents the ways in which that culture including new technologies advertising and movies shaped women's emotional lives and how these women appropriated the new messages and ideals In addition the authors describe the difficulties that women encountered when emotional experiences failed to match cultural expectations **In Their Own Words** Fred Erisman, 2021-01-15 Amelia Earhart's prominence in American aviation during the 1930s obscures a crucial point she was but one of a closely knit community of women pilots Although the women were well known in the profession and widely publicized in the press at the time they are largely overlooked today Like Earhart they wrote extensively about aviation and women's causes producing an absorbing record of the life of women fliers during the emergence and peak of the

Golden Age of Aviation 1925 1940 Earhart and her contemporaries however were only the most recent in a long line of women pilots whose activities reached back to the earliest days of aviation These women too wrote about aviation speaking out for new and progressive technology and its potential for the advancement of the status of women With those of their more recent counterparts their writings form a long sustained text that documents the maturation of the airplane aviation and women s growing desire for equality in American society In *Their Own Words* takes up the writings of eight women pilots as evidence of the ties between the growth of American aviation and the changing role of women Harriet Quimby 1875 1912 Ruth Law 1887 1970 and the sisters Katherine and Marjorie Stinson 1893 1977 1896 1975 came to prominence in the years between the Wright brothers and World War I Earhart 1897 1937 Louise Thaden 1905 1979 and Ruth Nichols 1901 1960 were the voices of women in aviation during the Golden Age of Aviation Anne Morrow Lindbergh 1906 2001 the only one of the eight who legitimately can be called an artist bridges the time from her husband s 1927 flight through the World War II years and the coming of the Space Age Each of them confronts issues relating to the developing technology and possibilities of aviation Each speaks to the importance of assimilating aviation into daily life Each details the part that women might and should play in advancing aviation Each talks about how aviation may enhance women s participation in contemporary American society making their works significant documents in the history of American culture

Cartographic Fictions Karen Lynnea Piper, 2002 Maps are stories as much about us as about the landscape They reveal changing perceptions of the natural world as well as conflicts over the acquisition of territories Cartographic Fictions looks at maps in relation to journals correspondence advertisements and novels by authors such as Joseph Conrad and Michael Ondaatje In her innovative study Karen Piper follows the history of cartography through three stages the establishment of the prime meridian the development of aerial photography and the emergence of satellite and computer mapping Piper follows the cartographer s impulse to leave the ground as the desire to escape the racialized or gendered subject With the distance that the aerial view provided maps could then be produced objectively that is devoid of problematic native interference Piper attempts to bring back the dialogue of the native informant demonstrating how maps have historically constructed or betrayed anxieties about race The book also attempts to bring back key areas of contact to the map between explorer native and masculine feminine definitions of space

Charles A. Lindbergh and the American Dilemma Susan M. Gray, 1988 Throughout his life Lindbergh s value structure interests and activities shifted and moved yielding a conflict between instinct and intellect Both its presence in his life and his readjustment of values in accordance with it are representative of his time and culture He moved with the twentieth century itself from a faith in technology to a disenchantment with it and finally to a balanced resolution that synthesized the seeming oppositions of technology and the human spirit This emphasis on a balance between technology and humanity and Lindbergh s belief that maintained the complementarity rather than the opposition of the two forces finally

culminated in a post technological mysticism a teleological worldview of science and nature as aspects of the same physical and spiritual environment

The Snatch Racket Carolyn Cox,2021-03 Although the 1932 kidnapping of aviator Charles Lindbergh's baby was a worldwide sensation it was only one of an estimated three thousand ransom kidnappings that occurred in the United States that year The epidemic hit America during the Great Depression and the last days of Prohibition as criminal gangs turned kidnapping into the highly lucrative snatch racket Wealthy families and celebrities purchased kidnap insurance hired armed chauffeurs and bodyguards and carried loaded handguns Some sent their children to school or summer camp in Europe to get them out of harm's way Recent Kidnappings in America was a regular feature in the New York Times while Time magazine included kidnappings in its weekly list of notable births deaths and other milestones The Snatch Racket is the story of a crime epidemic that so frightened families that it undermined confidence in law enforcement and government in general In response President Franklin D Roosevelt waged a three year War against Kidnappers with J Edgar Hoover and his G men newly empowered to carry weapons and make arrests on the front lines This first U S war against terrorism revolutionized and modernized law enforcement in the United States dramatically expanding the powers of the federal government in the fight against not only kidnapping but many new types of interstate crime At the heart of the narrative are some of the most iconic names of the twentieth century Rockefeller Ford Lindbergh Roosevelt Hoover Capone Schwarzkopf and Hearst all caught up in the kidnapping frenzy The Snatch Racket is a spellbinding account of terrifying abductions of prominent citizens gangsters invading homes with machine guns the struggles of law enforcement and the courage of families doing whatever it took to bring home the ransomed

The Flight of the Century Thomas Kessner,2010-07-20 In late May 1927 an inexperienced and unassuming 25 year old Air Mail pilot from rural Minnesota stunned the world by making the first non stop transatlantic flight A spectacular feat of individual daring and collective technological accomplishment Charles Lindbergh's flight from New York to Paris ushered in the modern age of commercial aviation In The Flight of the Century Thomas Kessner takes a fresh look at one of America's greatest moments explaining how what was essentially a publicity stunt became a turning point in history Kessner vividly recreates the flight itself and the euphoric reaction to it on both sides of the Atlantic and argues that Lindbergh's amazing feat occurred just when the world still struggling with the disillusionment of WWI desperately needed a hero to restore a sense of optimism and innocence Kessner also shows how new forms of mass media made Lindbergh into the most famous international celebrity of his time casting him in the role of a humble yet dashing American hero of rural origins and traditional values Much has been made of Lindbergh's personal integrity and his refusal to cash in on his fame but Kessner reveals that Lindbergh was closely allied with and managed by a group of powerful businessmen Harry Guggenheim Dwight Morrow and Henry Breckenridge chief among them who sought to exploit aviation for mass transport and massive profits Their efforts paid off as commercial air traffic soared from 6 000 passengers in 1926 to 173 000 passengers in 1929 Kessner's book is the first to fully explore

Lindbergh's central role in promoting the airline industry the rise of which has influenced everything from where we live to how we wage war and do business **Planting Clues** David J.
