**A House Divided** Steve Bruce, 2019-03-19 The main concern of this study first published in 1990 is the part played by Protestantism in the complex of social processes of secularization The book deals with the way in which Protestant schism and dissent paved the way for the rise of religious pluralism and toleration and it also looks at the fragility of the two major responses to religious pluralism the accommodation of liberal Protestantism and the sectarian rejection of the conservative alternative It examines the part played by social economic and political changes in undermining the plausibility of religion in western Europe and puts forward the argument that core Reformation ideas must not be overlooked particularly the repercussions of different beliefs about authority in competing Christian traditions

**A House Divided** Steve Bruce, 2019 [Conservative Protestant Politics](#) Steve Bruce, 1998-08-27 This timely new study examines the place and nature of religion in industrial societies through a comparative analysis of conservative Protestant politics in a variety of first world societies Rejecting the popular but misleading grouping of diverse movements under the heading of fundamentalism Bruce presents a series of detailed case studies of the Christian Right in the United States Protestant unionism in Northern Ireland anti Catholicism in Scotland Afrikaner politics in South Africa and Empire Loyalty in Australia Canada and New Zealand He proceeds to examine the constraints that culturally diverse societies place on those who wish to promote political agendas based on religious ideas or on religiously informed ethnic identities

**Secularization** Steve Bruce, 2013-01-11 The decline in power popularity and prestige of religion across the modern world is not a short term or localized trend nor is it an accident It is a consequence of subtle but powerful features of modernization Renowned sociologist Steve Bruce elaborates the secularization paradigm and defends it against a wide variety of recent attempts at rebuttal and refutation Using the best available statistical and qualitative evidence Bruce considers the implications for the [Encyclopedia of Protestantism](#) Hans J. Hillerbrand, 2004-08-02 This Encyclopedia is the definitive reference to the history and beliefs that continue to exert a profound influence on Western thought

*Theology in Japan* J. Nelson Jennings, 2005 Japanese Christian leader Takakura Tokutaro 1885 1934 is the focus of this exhaustive historical and theological study Takakura s life spanned a critical period in developing Japan a new member of the modern family of nations At the age of 21 through the preaching of the immensely

influential church leader Uemura Masahisa Takakura converted to the Christian faith. He later spent over two years in the West reading extensively in British and German theology. Takakura thus faced the challenge of absorbing numerous lines of influence and re-articulating the Christian faith within his own generation's distinctly Japanese linguistic and religious-cultural context. His personal religious experience was a microcosm of the universalization of Christian theology during the nineteenth and twentieth centuries. Despite having played important leadership roles within the Protestant Church in Japan during the 1920s and early 1930s, Takakura's name is scarcely known outside limited Japanese theological circles. This study lends recognition to his influential role in the Christian Church. It also utilizes Takakura's example to provide further insight into the universalizing trend in Christian thought that continues even today.

**God and Passion in Kierkegaard's Climacus** Johannes Corrodi Katzenstein, 2007

Johannes Corrodi Katzenstein offers a contribution to the current debate on Kierkegaard mostly concerning the rationality of religious belief and the presumed religious neutrality/autonomy of philosophical and scientific thought. More specifically, his book is an attempt to relate Kierkegaard's theory of the stages of life (aesthetic, ethical, religious) to issues that have been of utmost concern to Anglo-American analytical philosophy, such as the nature of truth, rational knowledge, objectivity, etc. From this angle, Kierkegaard turns out to be not the irrationalist he has often been made into, but rather the outspoken witness of a passion that guides all thinking, i.e. the passion to think what cannot be thought. An attempt is made to show that for Kierkegaard, anticipating some of the arguments of contemporary postsecular philosophy, the ideal of pure or autonomous reason inevitably has its basis in a pre-rational, often tacit, commitment to an origin whose primary home is in religious faith. Rather than precluding dialogue, awareness of these deeper forces and starting points of our various philosophical and scientific outlooks is a critical requirement for mutual understanding between secularist and religious perspectives and traditions competing for cultural and political dominance.

Religions of Modernity Stef Aupers, Dick Houtman, 2010-07-07

Religions of Modernity challenges the social-scientific orthodoxy that once unleashed the modern forces of individualism, science, and technology inevitably erode the sacred and evoke the profane. The book's chapters, some by established scholars, others by junior researchers, document in rich empirical detail how modernity relocates the sacred to the deeper layers of the self and the domain of digital technology. Rather than destroying the sacred tout court, then, the cultural logic of modernization spawns its own religious meanings, unacknowledged spiritualities, and magical enchantments. The classical theoretical accounts of modernity by Max Weber, Emile Durkheim, and others, it is argued in the introductory chapter, already hinted that there's a future for such religions of modernity.

**Bishops, Wives and Children** Douglas J. Davies, Mathew Guest, 2016-04-15

Christianity as a cultural force, whether rising or falling, has seldom been analysed through the actual processes by which tradition is

transmitted modified embraced or rejected This book achieves that end through a study of bishops of the Church of England their wives and their children to show how values fostered in the vicarage and palace shape family work and civic life in a supposedly secular age Davies and Guest integrate for the first time sociological concepts of spiritual capital with anthropological ideas of gift theory and alongside theological themes use these to illuminate how the religious professional functions in mediating tradition and fostering change Motifs of distant prelates managerially minded fathers in God and rebellious clergy children are reconsidered in a critical light as new empirical evidence offers unique insights into how the clergy family functions as an axis of social power in an age incredulous to ecclesiastical hierarchy Bishops Wives and Children marks an important advance in the analysis of the spirituality of Catholic Evangelical and Liberal leaders and their social significance within a distinctive Christian tradition and all it represents in wider British society *Baptists and Business* Paul R. Wilson,2025-05-08 This study of Baptist businessmen from Jarvis Street Baptist Church in Toronto breaks new ground The challenges to faith exerted by the arrival of a new materialistic social ethic and a business dominated culture in the last half of the nineteenth and early twentieth centuries has received little attention from Canadian historians Instead historians have primarily focused on religious leaders and intellectual challenges to faith This study examines the sociocultural challenges that confronted one group of central Canadian Baptist businessmen from 1848 to 1921 Essentially the findings offered here are used to sustain the argument that the rise of business and consumerism helped to secularize the beliefs values and practices of Baptist businessmen Furthermore the effects of secularization were profound on both the personal and church community levels **Catholic Literature and Secularisation in France and England, 1880-1914** Brian Sudlow,2013-07-19 This book is the first comparative study of its kind to explore at length the French and English Catholic literary revivals of the late nineteenth and early twentieth centuries It compares individual and societal secularisation in France and England and examines how French and English Catholic writers understood and contested secular mores ideologies and praxis in the individual societal and religious domains It also addresses the extent to which some Catholic writers succumbed to the seduction of secular instincts even paradoxically in themes which are considered to be emblematic of Catholic literature The breadth of this book will make it a useful guide for students wishing to become familiar with a wide range of such writings in France and England during this period It will also appeal to researchers interested in Catholic literary and intellectual history in France and England theologians philosophers and students of the sociology of religion *Applied Business Ethics, Volume 1* Brian Keen,2012-06 The Truth can be known with Theanthropic Ethics which is one of the few scientific ethical categories Dr Brian Keen has researched numerous ethical categories and has found only Theanthropic Ethics understands that there is one universally applicable Truth The Truth has practical application in every enterprise business or profession Any business enterprise or profession operating in an ethical manner will have the necessary POWER to succeed Accounting is featured since accountants as professionals must utilize scientific methodologies

Businesses and enterprises require POWER Living People to employ since ethical employees are an asset in Truth Many entrepreneurs are POWER Living People Dr Keen proves through conclusions from objective data that the Truth has relevance for today Ethical dilemmas can be resolved through adherence to the Truth For example would you allow a cashier to accept two 5 bills for a product costing 45 and give a 10 bill for change Would adherence to a philosophy that 5 5 55 be sufficient Dr Keen knows the Truth that 5 5 10 when the same types are added Living the Truth is ethical when utilizing this scientifically verifiable ethical category which is confirmed in Theanthropic Ethics "Mek Some Noise" Timothy Rommen,2007 Publisher description **Routledge Library Editions: Sociology of Religion** Various,2021-07-14 This set collects together in 19 volumes a wealth of texts on Sociology of Religion An invaluable reference resource it contains classic books on a wide range of topics including religion and violence religion and family life religion and society culture and class Secularization Revisited - Teaching of Religion and the State of Denmark Niels Reeh,2016-08-03 Since 2001 history has proven the classic and once dominant theories of secularization wrong Instead of abandoning the subject of secularization Niels Reeh s Secularization Revisited demonstrates how the collapse of formerly dominant secularization theories indicates fundamental conceptual challenges within sociology Through a historical sociological case study of the political decision making concerning the teaching of religion in Denmark from 1721 to 2006 Reeh explains why sociology of religion and sociology more generally should pay more attention to interstate relations state form and state agency The Danish state s interest in its inhabitants religion over the last three centuries responded not only to religious motives but to concerns about foreign relations and the survival of the state **Christianity Reborn** Donald M. Lewis,2004 Christianity Reborn provides the first transnational in depth analysis of the global expansion of evangelical Protestantism during the past century While the growth of evangelical Christianity in the non Western world has already been documented the significance of this book lies in its scholarly treatment of that phenomenon Written by prominent historians of religion these chapters explore the expansion of evangelical including charismatic Christianity in non English speaking lands with special reference to dynamic indigenous responses The range of locations covered includes western and southern Africa eastern and southern Asia Latin America and Oceania The concluding essay provides a sociological account of evangelicalism s success highlighting its ability to create a multiplicity of faith communities suited to very different ethnic racial and geographical regions At a time of great interest in the growth of Christianity in the non Western world this volume makes an important contribution to our understanding of what may be another turning point in the historical development of evangelical faith Contributors Marthinus L Daneel Allan K Davidson Paul Freston Robert Eric Frykenberg Jehu J Hanciles Philip Yuen sang Leung Donald M Lewis David Martin Mark A Noll Brian Stanley W R Ward **An American Bible** Paul C. Gutjahr,1999 An American Bible is an extremely compelling piece of cultural history that succeeds in making rich rather than schematic sense of the major dramas that lay behind the production of over 1 700 different American editions of the Bible in the century after the

American Revolution Gutjahr's book is especially powerful in demonstrating how nineteenth century efforts to purge the Bible of textual and translational impurities in search of an authentic text led ironically to the emergence of entirely new gospels like the Book of Mormon and the massive fictionalized literature dealing with the life of Christ Jay Fliegelman Stanford University During the first three quarters of the nineteenth century American publishing experienced unprecedented exponential growth An emerging market economy widespread religious revival educational reforms and innovations in print technology worked together to create a culture increasingly formed and framed by the power of print At the center of this new culture was the Bible the book that has been called the best seller in American publishing history Yet it is important to realize that the Bible in America was not a simple uniform entity First printed in the United States during the American Revolution the Bible underwent many revisions translations and changes in format as different editors and publishers appropriated it to meet a wide range of changing ideological and economic demands This book examines how many different constituencies both secular and religious fought to keep the Bible the preeminent text in the United States as the country's print marketplace experienced explosive growth The author shows how these heated battles had profound consequences for many American cultural practices and forms of printed material By exploring how publishers clergymen politicians educators and lay persons met the threat that new printed material posed to the dominance of the Bible by changing both its form and its contents the author reveals the causes and consequences of mutating God's supposedly immutable Word

*Fundamentalism and Evangelicals* Harriet A. Harris, 1998-06-11 This study examines the contentious claim that much evangelicalism is fundamentalist in character Within Protestantism the term fundamentalism denotes not only a movement but also a mentality which has greatly affected evangelicals and which involves preserving as factual a reading of scripture as possible Here the development and dismantling of the fundamentalist mentality is examined in light of philosophical influences upon evangelicalism over the last three centuries notably Common Sense Realism neo Calvinism and modern hermeneutical philosophy Particular attention is paid to James Barr's critique of fundamentalism and to evangelical rejoinders Harriet A Harris proposes that the fundamentalist mentality does not do justice to evangelical experience since it is more concerned with the Bible's factual truthfulness than with its life giving effects An appendix on Global Fundamentalism brings together two rarely united fields of study Protestant fundamentalism's relation to evangelicalism and its relation to resurgent movements in other religions
