Houses from Books Daniel D. Reiff, 2010-11-01 Many homes across America have designs based on plans taken from pattern books or mail order catalogs In *Houses from Books* Daniel D Reiff traces the history of published plans and offers the first comprehensive survey of their influence on the structure and the style of American houses from 1738 to 1950 *Houses from Books* shows that architectural publications from Palladio s *I Quattro Libri* to Aladdin s *Readi Cut Homes* played a decisive role in every aspect of American domestic building Reiff discusses the people and the firms who produced the books as well as the ways in which builders and architects adapted the designs in communities throughout the country His book also offers a wide ranging analysis of the economic and social conditions shaping American building practices As architectural publication developed and grew more sophisticated it played an increasingly prominent part in the design and the construction of domestic buildings In villages and small towns which often did not have professional architects the publications became basic resources for carpenters and builders at all levels of expertise Through the use of published designs they were able to choose among a variety of plans styles and individual motifs and engage in a fruitful dialogue with past and present architects *Houses from Books* reconstructs this dialogue by examining the links between the published designs and the houses themselves Reiff s book will be indispensable to architectural historians architects preservationists

and regional historians Realtors and homeowners will also find it of great interest A catalog at the end of the book can function as a guide for those attempting to locate a model and a date for a particular design Houses from Books contains a wealth of photographs many by the author that enhance its importance as a history and guide *Small Houses of the Twenties* Sears, Roebuck and Company,1991-06-01 Excellent reproduction of rare catalog illustrates and describes 86 different types of houses and bungalows still in evidence across America Over 300 photographs illustrations and floor plans with full descriptions comprise an invaluable sourcebook for study authentication or restoration of antique articles or architecture Reports from Select Committees of the House of Lords and Evidence Great Britain. Parkinson,2002-03-01 Anthropological archaeologists have long attempted to develop models that will let them better understand the evolution of human social organization In our search to understand how chiefdoms and states evolve and how those societies differ from egalitarian bands we have neglected to develop models that will aid the understanding of the wide range of variability that exists between them This volume attempts to fill this gap by exploring social organization in tribal or autonomous village societies from several different ethnographic ethnohistoric and archaeological contexts from the Pre Pottery Neolithic Period in the Near East to the contemporary Jivaro of Amazonia *House & Garden* ,1913
