Vann, **Household and Family in the Balkans** Karl Kaser, 2012 On the occasion of the 20th anniversary of the foundation of the Balkan Family History Project at the University of Graz in 1993 this volume unites the most outstanding essays by the project members that have appeared over the course of the previous two decades scattered in various journals and books These essays cover the interval from the 19th to the 21st century and reflect the current status of Balkan family research in historical anthropological and demographical perspectives Series Studies on South East Europe Vol 13 Household and Family in Past Time Revisited Lloyd Bonfield, 2003 **Household and Family in Past Time; Comparative Studies in the Size and Structure of the Domestic Group Over the Last Three Centuries ... comparison with the rest of Europe The authors consider what European families have in common their regional and local differences and changes over time using the rich and fascinating variety of sources and methods used by family historians today Contributors include Guido Alfani Judit Ambrus Mirjana V Bobi Siegfried Gruber Peter Guzowski Violetta Hionidou Daniela Lombardi Beatrice Moring Silvia Sovi Pat Thane Alice Velkov Marta Verginella and Pier Paolo Viazzo Household and Family in Past Time Thomas Peter Ruffell Laslett, Richard Wall, 1977 **Household and Family in Past Time Revisited**, 2003 Household and Family in Past Time Richard T. Vann, **Historical Anthropology of the Family** Martine Segalen, 1986-11-28 Over the past decade or so the social scientific sociological analysis of the family has been obliged to reconsider its traditional view that industrialisation triggered a shift within society from the large family which fulfilled all social functions from socialising the children to caring for the sick and the old to the modern nuclear family which was regarded solely as being the locus for emotional relationships Historians have shown that in the past there was a variety of family structures within a range of varying demographic economic and cultural frameworks distinctive for each society At the same time the interaction between sociology and social anthropology has led to a clearer conceptual analysis of that vague polysemic term family and notions of dwelling place descent marriage the relative roles of husband and wife and parent child relations as well as the more general relations between generations have in a variety of past and present social contexts been taken apart and analysed In this book the author synthesises European and North American historical and social anthropological material on the family that shows the reversal of the frequently held view of the family as an institution in decline showing it instead to be both dynamic and resistant *Household and Family in Past Time* Peter Laslett, 1974

The Family and Family Relationships, 1500-1900 Rosemary O'Day, 1994-10-26 While historians have written with ease about the state and the church the family has so far defied historical analysis As the primary cell of human social organisation upon which both state and church depend it is of crucial importance In this concise informative and stimulating book Rosemary O Day seeks to explain the difficulties facing the historian of the family and to suggest strategies for their solution She compares families and households in time space and economy over the period 1500 1914 and draws together the important existing work **A Millennium of Family Change** Wally Seccombe, 1992 How do changes in family form relate to changes in society as a whole In a work which combines theoretical rigour with historical scope Wally Seccombe provides a powerful study of the changing structure of families from the Middle Ages to the beginning of the Industrial Revolution Responding to feminist critiques of sex blind historical materialism Seccombe argues that family forms must be seen to be at the heart of modes of production He takes issue with the mainstream consensus in family history which argues that capitalism did not fundamentally alter the structure of the nuclear family and makes a controversial intervention in the long standing debate over European marriage patterns and their relation to industrialization Drawing on an astonishing range of studies in family history historical demography and economic history *A Millennium of Family Change* provides an

integrated overview of the long transition from feudalism to capitalism illuminating the far reaching changes in familial relations from peasant subsistence to the making of the modern working class **The Decline of Life** Susannah R. Ottaway,2004-02-05 The Decline of Life is an ambitious and absorbing study of old age in eighteenth century England Drawing on a wealth of sources literature correspondence poor house and workhouse documents and diaries Susannah Ottaway considers a wide range of experiences and expectations of age in the period and demonstrates that the central concern of ageing individuals was to continue to live as independently as possible into their last days Ageing men and women stayed closely connected to their families and communities in relationships characterized by mutual support and reciprocal obligations Despite these aspects of continuity however older individuals ability to maintain their autonomy and the nature of the support available to them once they did fall into necessity declined significantly in the last decades of the century As a result old age was increasingly marginalized Historical demographers historical gerontologists sociologists social historians and women s historians will find this book essential reading *Illegitimacy, Family, and Stigma in England, 1660-1834* Kate Gibson,2022-07-21 Illegitimacy Family and Stigma is the first full length exploration of what it was like to be illegitimate in eighteenth century England a period of sexual revolution unprecedented increase in illegitimate births and intense debate over children s rights to state support Using the words of illegitimate individuals and their families preserved in letters diaries poor relief and court documents this study reveals the impact of illegitimacy across the life cycle How did illegitimacy affect children s early years and their relationships with parents siblings and wider family as they grew up Did illegitimacy limit education occupation or marriage chances What were individuals experiences of shame and stigma and how did being illegitimate affect their sense of identity Historian Kate Gibson investigates the circumstances that governed families responses from love and pragmatic acceptance to secrecy and exclusion In a major reframing of assumptions that illegitimacy was experienced only among the poor this volume tells the stories of individuals from across the socio economic scale including children of royalty physicians and lawyers servants and agricultural labourers It demonstrates that the stigma of illegitimacy operated along a spectrum varying according to the type of parental relationship the child s race gender and socio economic status Financial resources and the class based ideals of parenthood or family life had a significant impact on how families reacted to illegitimacy Class became more important over the eighteenth century under the influence of Enlightenment ideals of tolerance sensibility and redemption The child of sin was now recast as a pitiable object of charity but this applied only to those who could fit narrow parameters of genteel tragedy This vivid investigation of the meaning of illegitimacy gets to the heart of powerful inequalities in families communities and the state *Human Families* Stevan Harrell,2018-02-23 This detailed study maps variations in family systems throughout the world focusing on the ways families cooperate and interact with their societies Harrell describes families in nomadic bands traditional African societies Polynesian and Micronesian societies native societies of the Pacific Northwest coast preindustrial class societies and modern
