Houses Of Worship:

Houses of Worship Jeffery W. Howe, 2003 A guidebook to the architectural styles of American churches and temples Houses of Worship is highly illustrated with color photographs and explanatory line drawings A survey of American religious architecture this book is a history of the development of American religious history a guidebook to assist in the identification of the style of individual buildings based on historical examples of typical buildings and a travel guide to regional monuments of interesting architecture

Active Shooters in Houses of Worship Vinny Green, 2020-10-01 This book is written by experienced staff at the G Square International Training Academy in an effort to address the growing presence of active shooters in houses of worship The content is intended to offer options and thoughtful guidance to the well over fifty thousand houses of worship of all denominations beliefs and sects that exist in the United States It is also our belief that the content has a global value in addressing this menace It is our fervent prayer that this publication will bring insight to leadership members and visitors who may be entrapped in an active shooter or other life threatening situation while attending services or other activities in houses of worship We hope to achieve this by discussing current best practices being developed to combat the active shooter phenomenon as well as presenting the best course of action to take when first responders and additional support arrive This publication is not intended to be an exhaustive accounting of all available options It is G Square s God inspired effort to present the reader with possibilities that can contribute to survival in the demon inspired actions of an active shooter and other life threatening events

Houses Of Worship Guide Shela Lauricella, 2021-05-18 A building constructed or used for this purpose is sometimes called a house of worship Temples churches synagogues and mosques are examples of structures created for worship A monastery particularly for Buddhists may serve both to house those belonging to religious orders and as a place of worship for visitors The more we can learn about the past the more we will realize both the good and evil and the mass of gray in between that have brought us the built landscapes and the kinds of communities we have And from that knowledge we can think more richly and constructively about how to sustain and direct these buildings now toward the aspirations and values the culture and the sense of place of today s communities To do so will require a fresh imagination and to stir such imaginings is the purpose of this book
