The Statist ,1957 Pretoria at War, 1899-1900 Bridget Theron,2000 The commemoration of the Anglo Boer War of 1899 1902 has brought renewed interest in the fortunes and strategies of the two warring parties and the various battles that were won and lost But it has also aroused great curiosity about how the ordinary South African people of all races experienced the war This book looks at how the war impacted upon a particular community that of Pretoria the capital of the Transvaal republic and the seat of the Boer government When the war clouds gathered how did Pretorians react What were their emotions when war broke out and how did they cope with wartime conditions The effect of the war on schools in the town on commerce and industry social activities and the provision of public amenities is described as well as the way in which residents dealt with new challenges such as treatment of the wounded and the influx of prisoners of war When the British troops under Lord Roberts began their inexorable march towards Pretoria the people were thrown into panic Would the town be defended and if so what would become of them As Roberts drew ever nearer tension and dismay gave way to utter disbelief when President Kruger and his senior government officials left and the republic s funds were removed from the National Bank There is also insight into why this general state of panic flared up into a period of crazy looting and disorder at the end of May 1900 Finally you will read of the occupation of Pretoria and how the ordinary people reacted when Roberts s weary troops plodded into Church Square in their thousands on the winter afternoon of 5 June 1900 This is a story a true story of how the people of Pretoria dealt with a crisis situation more than a hundred years ago The Boer War has direct mirrors in the US war of independence This book has a unique focus on one town and its citizens and is relevant to all military historians throughout the world as the lessons can be extrapolated *Holy Trinity Priory, Aldgate, City of London* John Schofield,Richard Lea,2005 This is an archaeological architectural and historical study of one of the largest complexes of buildings in the medieval City of London but one which is largely unknown and of which only two fragments survive above ground today It is the fifth volume in a series on the monasteries of London Holy Trinity Priory Aldgate was the first religious house to be established inside the walls of London after the Norman Conquest in 11078 one of the earliest Augustinian houses to be established in England and the first to be dissolved in 1532 By 1200 the precinct north of Leadenhall Street and just inside Aldgate was filled with imposing stone buildings including a large and architecturally impressive church which was the burial place of two of the children of King Stephen in the middle of the 12th century Londons first mayor Henry FitzAilwin was buried in the entrance to the chapter house In the 16th century the monastery was owned by the Duke of

Norfolk second only to Queen Elizabeth in power who was executed in 1572 for his part in plots surrounding Mary Queen of Scots Several modern excavations of 1977 to 1990 many antiquarian drawings and a ground floor and a first floor plan of all the monastery buildings made around 1585 are brought together here for the first time to reconstruct a fully illustrated and detailed history and archaeology of the priory site Not only can all the major periods of the priory's building history be suggested and compared with other religious houses in medieval London but the excavations produced their own surprises such as evidence of the beginning of the tin glazed or delftware pottery industry in the 1590s and a unique Jewish plate of the 18th century
