rents and legally guaranteed security of tenure for older social housing tenants Based on a study conducted in Sydney and regional New South Wales this pioneering research starkly and powerfully reveals the fundamental role that affordable adequate and secure housing plays in creating a foundation for a decent life for older Australians **Australia** Marian Sawyer, Norman Abjorensen, Philip Larkin, 2009 On many criteria Australia has been a pioneering democracy As one of the oldest continuing democracies however a health check has long been overdue Since 2002 the Democratic Audit of Australia a major democracy assessment project has been applying an internationally tested set of indicators to Australian political institutions and practices The indicators derive from four basic principles political equality popular control of government civil liberties and human rights and the quality of public deliberation Comparative data are taken from Australia's nine jurisdictions as well as from three comparator democracies Canada New Zealand and the United Kingdom to identify strengths weaknesses and opportunities for reform Some of the findings are disturbing For example Australia has fallen well behind in the regulation of private money in elections and in controlling the use of government or parliamentary resources for partisan benefit Transparency and accountability have suffered from relatively weak FOI regimes and from executive dominance of parliaments For those studying democracy or wanting to reform Australian politics The State of Democracy provides a wealth of evidence in a well illustrated and highly accessible format Internationally it is an important contribution to the democracy assessment literature and pushes into new areas such as the intergovernmental decision making of federalism *International Perspectives on Homelessness* Valerie Polakow, Cindy Guillea, 2001-08-30 Homelessness strikes in all types of nations from wealthy western nations to poor undeveloped countries Each government and culture attends to this worldwide problem differently This work collects eleven case studies of selected countries from around the world in order to offer a wide perspective on the dilemma of homelessness Students can use this ready reference to compare and contrast homelessness populations analyze the ways in which various countries approach this issue and to evaluate what is precluding and encouraging this reaching issue The problem of homelessness is clearly defined here from a global perspective In addition the history and resulting conflicts that have risen from homelessness are outlined This ready reference analyzes the metamorphosis of the homelessness what solutions have been suggested and how effective these solutions have been Students will learn to think critically about homelessness and what the future holds for each country as it battles with this seemingly unavoidable occurrence State of South Australia John Spoehr, 2009 Will South Australia emerge from the global economic crisis relatively unscathed and enter a period of unprecedented prosperity State of South Australia tackles this and many other questions offering the most comprehensive analysis of the major social economic cultural environmental and political trends and policy challenges facing this state **The Australian Quarterly**, 1986

Revisiting Henderson Peter Saunders, 2019-04-01 Reform of the system must recognise respect and reinforce its profound impact on the lives and wellbeing of millions of Australians not only during childhood and retirement but also when

unexpected needs arise in between It is time for a fundamental reassessment of how the system can best promote social inclusion and encourage economic contribution in current and future circumstances This book brings together leading social security researchers and policy analysts to reflect on past trends the key changes that the system must adapt to and what this will involve Its contributors share a vision inspired by the groundbreaking work of Ronald Henderson who argued for a debate that is grounded in evidence and informed by a coherent set of principles The book s chapters highlight the weaknesses of the current system and propose viable alternatives showing that there is no lack of new ideas on which to draw One of these the introduction of a basic income as Henderson recommended in the 1970s is used to illustrate the need for a better understanding of what such reforms can offer today and how they might work in practice **Welfare Reform in Rural Places** Paul Milbourne,Terry Marsden,2010-03-30 Intends to significantly extend previous research work on the rural impacts of national welfare reform and position it in a broader context This title provides a comprehensive and comparative account of the rural dimensions of welfare in a number of developed countries *Public Expenditures and Social Policy in Australia: The first Fraser years, 1976-78* Helen Ferber,1978 *Australian Cities* Patrick Troy,1995-09-14 An incisive 1995 exploration of urban planning and policy and the problems facing urban Australia in the 1990s **Making Progress in Housing** Sean McNelis,2014-01-21 This book presents a new approach to housing research one that is relevant to all the social sciences Housing research is diverse and operates across many disciplines approaches and methods making collaboration difficult This book outlines a methodological framework that enables researchers from many different fields to collaborate in solving complex and seemingly intractable housing problems It shows how we can make progress in housing research and deliver better housing outcomes through an integrated approach Drawing on the work of renowned Canadian methodologist philosopher theologian and economist Bernard Lonergan 1904 1984 McNelis outlines a framework for collaborative research Functional Collaboration This new form of collaboration divides up the work of housing research into functional specialties These distinguish eight inter related questions that arise in the process of moving from the current housing situation through to providing practical advice to decision makers To answer each question a different method is required Making progress in housing is the result of finding new answers to this complete set of eight inter related questions This approach to collaboration opens up a new discourse on method in housing and social research as well as new debates on progress and the nature of science **Advanced Australia** Mark Butler,2015-09-01 Advanced Australia explores the politics of ageing in Australia The addition of 25 years to average life expectancy in Australia over the past century is a monumental achievement but many commentators are greeting the prospect of Australians living longer with horror The ageing of Australia s baby boomers will sharpen this debate both because of the size of their generation as well as their history of reshaping every phase of life in their own image Ageing will dominate Australian politics for years to come touching almost every area of policy retirement incomes housing employment urban design and more Advanced Australia

makes the case for a much more positive approach to ageing that celebrates the continuing contribution older Australians make to our community
