Housing Inequality And Deprivation:

Housing Inequality and Deprivation Alan Murie, 1983-01-01 **Understanding Inequalities** Lucinda Platt, 2017-04-21

Bringing together the latest empirical evidence with a discussion of sociological debates surrounding inequality this book explores a broad range of inequalities in people's lives. As well as treating the core sociological topics of class, ethnicity and gender, it examines how inequalities are experienced across a variety of settings including education, health, geography and housing, income and wealth, and how they cumulate across the life course. Richly illustrated with graphs and figures showing the extent of inequalities and the differences between social groups, the book demonstrates how people's lives are structured by inequalities across multiple dimensions of their lives. Throughout the text, it pays attention to how we know what we know about inequality, what is measured and how, what is left out of the picture and what implications this has for our understanding of specific inequalities. Importantly, the book also highlights the intersections between different sources or forms of inequality and the ways that bringing an intersectional lens to bear on topics can highlight and challenge the assumptions about how they operate. Designed for second-year undergraduates and above, this book provides an engaging overview of social stratification and challenges readers to think about how inequalities are embedded across society.

A New Introduction to Poverty Louis Kushnick, James Jennings, 1999. Since the end of the Second World War, poverty in the United States has been a persistent focus of social anxiety, public debate and federal policy. This volume argues convincingly that we will not be able to reduce or eliminate poverty until we take the political factors that contribute to its continuation into account. Ideal for course use, *A New Introduction to Poverty* opens with a historical overview of the major intellectual and political debates surrounding poverty in the United States. Several factors have received inadequate attention: the impact of poverty on women, the synergy of racism and poverty, race and gender stratification of the workplace, and crucially, the ways in which the powerful use their resources to maintain the economic status quo. Contributors include Mimi Abramovitz, Peter Alcock, Bonnie Thornton Dill, Raymond Franklin, Herman George Jr, Michael B. Katz, Marlene Kim, Rebecca Morales, Sandra Patton, Valerie Polakow, Jackie Pope, Jill Quadagno, David C. Ranney, Barbara Ransby, Bette Woody, and Maxine Baca Zinn.

Handbook on Inequality and the Environment Michael A. Long, Michael J. Lynch, Paul B. Stretesky, 2023-06-01. This innovative Handbook provides a comprehensive treatment of the complex relationship between inequality and the environment and illustrates the myriad ways in which they intersect. Featuring over 30 contributions from leading experts in the field, it explores the ways in which inequality impacts three of the most pressing contemporary environmental issues: climate change, natural resource extraction, and food insecurity.

International Encyclopedia of Social Policy Tony Fitzpatrick, Huck-ju Kwon, Nick Manning, James Midgley, Gillian Pascall, 2013-07-04. Available in paperback for the first time, this milestone work offers an in-depth treatment of all aspects of the discipline and practice of social policy globally. Supported by a distinguished international advisory board, the editors have compiled almost 900,000 words across 734

entries written by 284 leading specialists to provide authoritative coverage of concepts policy actors welfare institutions and services along a series of national regional and transnational dimensions Also included are biographical entries on major policy makers and shapers The editors have particularly striven to provide strong coverage of differing geographical and cultural traditions so that the variety of social policy as both an academic discipline and a domain of governance is reflected Contributors draw in and make the necessary connections with social policy s associated disciplines to provide a rich picture of this vast and highly diverse field Comprehensive and authoritative the Encyclopedia has sought to open up rather than to foreclose the numerous areas in which there is on going research debate and sometimes serious disagreement and divergence in theory and practice To this end entries attempt to introduce a core or common ground of understanding before moving on to a wider discussion of debates regarding different conceptual and geographical approaches The whole is integrated by cross referencing and each entry includes a bibliography for further reading There is a full index The International Encyclopedia of Social Policy provides the most substantial mapping of the international study and practice of social policy to date and will stand as a vital storehouse of knowledge for many years to come

Human Rights and the Architecture of Conflict Tim Cunningham, 2025-09-16 Human Rights and the Architecture of Conflict exposes how governments public officials and private actors on both sides of the Atlantic entrenched racial and ethnic divisions through manipulation of the planning and design of the built environment Based on interviews never before seen documents and field work carried out in Belfast Chicago Miami Washington D C and New York City this book shows how the planning and design of our built environment impacts the physical mental social economic political and environmental well being of communities Tim Cunningham an urban scholar and human rights advocate reveals how the British Army set about reconfiguring the urban fabric of Belfast as part of a counter insurgency strategy in the 1970s His research shows how the techniques used in Northern Ireland during this period mirror earlier processes deployed in U S cities under urban renewal and the Interstate Highway Program A global genealogy of segregation that examines the trajectory of colonial urbanism in the twentieth century the text highlights the real life walls and barriers that cleave communities along ethnic and racial lines and the role of architects planners developers and public officials in erecting them The final chapter considers some contemporary efforts to address the legacy

of these practices through restorative architecture and planning initiatives that aim to deliver more cohesive sustainable and inclusive urban spaces This book is ideal reading for courses in architecture city planning community development geography human rights sociology transitional justice urban studies and Irish history **Tackling inequalities** Pantazis, Christina, Gordon, David, 2000-01-12 The growing divide between the poor and the rich is the most significant social change to have occurred during the last few decades The new Labour government inherited a country more unequal than at any other time since the Second World War This book brings together a collection of contributions on inequalities in the main areas of British life income wealth standard of living employment education housing crime and health It charts the extent of the growth in inequalities and offers a coherent critique of the new Labour government's policies aimed at those tackling this crisis In particular the numerous area based anti poverty policies currently being pursued are unlikely to have a significant and long lasting effect since many lessons from the past have been ignored The contributors use and interpret official data to show how statistics are often misused to obscure or distort the reality of inequality A range of alternative policies for reducing inequalities in Britain are discussed and set within the global context of the need for international action Tackling inequalities is a valuable contribution to the emerging policy debate written by the leading researchers in the field It is essential reading for academics policy makers and students with an interest in inequalities poverty and social exclusion

Studies in poverty inequality and social exclusion series Series Editor David Gordon Director Townsend Centre for International Poverty Research Poverty inequality and social exclusion remain the most fundamental problems that humanity faces in the 21st century This exciting series published in association with the Townsend Centre for International Poverty Research at the University of Bristol aims to make cutting edge poverty related research more widely available For other titles in this series please follow the series link from the main catalogue page *Self-Organization and Mobility Deprivation of Poor Workers in Hong Kong and Singapore* Joseph Cho-Yam Lau, 2023-10-16 This book focuses on the influence of socio economic and land use policies on the commuting problems and quality of life of the poor in Singapore and Hong Kong It considers the influence of self organisation how the mobility of an individual is constituted by structures such as transport systems or socio economic structural factors as well as influenced by individual decisions Where most transport studies focus on the influence of factors such as income inequality the gender gap and the built environment this book fills a gap in paying particular attention to the influence of individual decisions on commuting Given the prevalence of the former in research government decision makers are often constrained by these approaches and fail to understand the commuting problems of the poor This book argues that the self organisation approach provides some ideas that are outside the common conceptual framework in conventional transport planning and looks to improve mobility of lower income commuters Relevant to social science researchers working in areas such as urban planning and transport mobility deprivation and poverty this book breaks new ground in quality of life studies in the Singapore and Hong Kong contexts **Urban Poverty and Health Inequalities**

Darrin Hodgetts, Otilie Stolte, 2017-10-10 When discussing health we talk about ailments and afflictions the potential of modern medicine and the behaviours that affect our health Yet although these relationships exist they undermine a more socio economic understanding of health This timely book takes a critical perspective to argue that urban poverty and health inequalities are intimately interconnected and that the increasing disparity between rich and poor will necessarily exacerbate health issues within urban communities Urban Poverty and Health Inequalities documents how life has become increasingly insecure and stressful for growing numbers of people due to increased insecurities in employment income and housing rising living costs and the retrenchment of welfare and social services The book explores the role of history and media depictions of poverty and health inequalities in influencing the current situation A central objective is to advance ways to understand and respond to urban poverty as a key social determinant of health The authors pay particular attention to the ways in which punitive responses to urban poverty are further exacerbating the hardships faced by people living in urban poverty Looking at issues of class age gender ethnic and disability based inequalities the book offers both critical theory and grounded solutions to enable those living in poverty to live healthier lives The collateral damage resulting from current socio economic arrangements reflects political choices regarding the distribution of resources in societies that needs to be challenged and changed The authors attend to initiatives for change offering practical responses to address urban poverty including efforts to address wealth distribution the potential of living wage and Universal Basic Income initiatives social housing and anti oppressive welfare systems *The Routledge Handbook of Poverty in the Global South* Rajendra Baikady, John Gal, Varoshini Nadesan, Sajid S.M., Gao Jianguo, 2023-12-01 This handbook initiates fresh debates on poverty and its impact in a constantly changing Global South society It studies the concept theories and causes of poverty as well as the design and delivery of social welfare policies related to specific groups such as women children and the elderly The chapters are theoretical evidence based and empirical in nature and bring together a holistic understanding of social problems and issues in developing countries The volume brings together researchers educators and practitioners from across the globe to develop a hands on reference work that will be requisite for several social science disciplines concerned with poverty and the welfare of poor people The first of its kind the handbook will be indispensable for scholars and researchers of development studies economics social work political studies poverty studies population and demographic studies sociology social anthropology public policy and political economy especially those concerned with the Global South **Health and the Modern Home** Mark Jackson, 2008-02-07 Health and the Modern Home explores shifting and contentious debates about the impact of the domestic environment on health in the modern period Drawing on recent scholarship contributors expose the socio political context in which the physical and emotional environment of the modern home and family became implicated in the maintenance of health and in the aetiology and pathogenesis of diverse psychological and physical conditions In addition they critically analyze the manner in which the expression and articulation of medical concerns about the domestic environment

served to legitimate particular political and ideological positions *Underclass* John Welshman,2007-03-10 This book is the first to look systematically at the question of underclass and poverty bringing new insights on the contemporary debate about behaviour and welfare reform Changing Inequalities in Rich Countries Wiemer Salverda,2014 This book uses a combination of comparative analysis and in depth examination of the experience of 30 countries over the past 30 years to see whether inequality in incomes wealth and education has been widening It shows how these inequalities are related to social and political outcomes such as poverty family structures health and crime *My Revision Notes: Edexcel AS Geography* ePub Michael Raw,2013-03-15 Unlock your full potential with these revision guides which focus on the key content and skills you need to know With My Revision Notes for Edexcel AS Geography you can Take control of your revision plan and focus on the areas you need to revise with content summaries and commentary from author Michael Raw Show you fully understand key topics by using specific examples to add depth to your knowledge of geographical issues and processes Apply geographical terms accurately with the help of definitions and key words on all topics Improve your skills to tackle specific exam questions with self testing and exam style questions and answers Get exam ready with last minute quick quizzes at www.hodderplus.co.uk/myrevisionnotes Human Developmental Neurotoxicology David C. Analysis Poverty Peter Townsend,2014-06-06 First published in 1993 The scientific and political debate about poverty has been changing fast with dramatic implications for intellectual interpretation and action by governments and the intention in publishing this volume is to contribute to that debate Scientists concerned to analyse poverty have been thrust by events into greater international service But there are sinister forces at work which are seeking to divert them into petty issues to blame the victims of poverty or to cut them off from the resources or opportunities to investigate and report freely This book is born of that frustration and represents the changing debate during the late 1980s and early 1990s *Ethnic Identity and*

Inequalities in Britain Stephen Jivraj,Ludi Simpson,2015-05-13 As debates around ethnic identity and inequality gain both political and media interest this important book is the first to offer in depth analysis from the last three UK population censuses focusing on the dynamics of ethnic identity and inequalities in contemporary Britain While providing a comprehensive overview it also clarifies concepts associated with greater ethnic diversity increased segregation exclusive growth of minority groups through immigration and a national identity crisis The contributions all from experts in the field based at or affiliated to the Centre on Dynamics of Ethnicity highlight persistent inequalities in access to housing employment education and good health faced by some ethnic groups The book will be a valuable resource for policy makers and researchers in national and local government community groups academics students and will act as an authoritative text to cite in reports dissertations and funding applications
