Open Cities | Open Data Scott Hawken, Hoon Han, Chris Pettit, 2019-09-26 Today the world's largest economies and corporations trade in data and its products to generate value in new disruptive markets Within these markets vast streams of data are often inaccessible or untapped and controlled by powerful monopolies Counter to this exclusive use of data is a promising world wide open data movement promoting freely accessible information to share reuse and redistribute The provision and application of open data has enormous potential to transform exclusive technocratic smart cities into inclusive and responsive open cities This book argues that those who contribute urban data should benefit from its production Like the city itself the information landscape is a public asset produced through collective effort attention and resources People produce data through their engagement with the city creating digital footprints through social media mobility applications and city sensors By opening up data there is potential to generate greater value by supporting unforeseen collaborations spontaneous urban innovations and solutions and improved decision making insights Yet achieving more open cities is made challenging by conflicting desires for urban anonymity sociability privacy and transparency This book engages with these issues through a variety of critical perspectives and presents strategies tools and case studies that enable this transformation

Free Global Cities Christian H Kälin, 2025-03-20 This book proposes a new solution to the problem of the migration crisis engulfing the world by creating safe harbours or Free Global Cities In the face of the largest displacement crisis on record even the most optimistic view of the future suggests that in the years ahead more and more people will migrate in order to survive The world requires places where refugees and other migrants forced to leave their homes have the opportunity to work study create start businesses and rebuild new lives for themselves and their families Free Global Cities can deal with this growing global crisis in a completely new way They are autonomous self governed subnational entities that provide a safe environment and rule of law that will create wealth and prosperity for its residents as well as for the nations hosting them Such a model would contribute significantly to handle the largest migration crisis in
