Lewis, Olav Hammer, 2010-11-19 There has been a significant but little noticed aspect of the interface between science and religion namely the widespread tendency of religions to appeal to science in support of their truth claims Though the appeal to science is most evident in more recent religions like Christian Science and Scientology no major faith tradition is exempt from this pattern Members of almost every religion desire to see their truths supported by the authority of science especially in the midst of the present historical period when all of the comforting old certainties seem problematic and threatened The present collection examines this pattern in a wide variety of different religions and spiritual movements and demonstrates the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to one of the major challenges presented by the contemporary world *Japanese New Religions in Global Perspective* Peter B Clarke, Peter B. Clarke, 2013-11-05 Since the 1960s virtually every part of the world has seen the arrival and establishment of Japanese new religious movements a process that has followed quickly on the heels of the most active period of Japanese economic expansion overseas This book examines the nature and extent of this religious expansion outside Japan **The Sacred Books of China**, 1976 **The Esophagus** Joel E. Thompson, 2011-09-01 In this lucid exposition an acclaimed interpreter shows that the book of Revelation is to be read as a unified work of religious poetry aimed at extricating Christians from Roman society in which they were living quietly and peacefully Thompson considers connections between John's negative view of society and his social location as a wandering prophet compares his visionary experience with that of other prophets and seers especially in Judaism notes similarities between the depictions of Christ and Satan in Revelation and portraits of heroes and demons in other writings of the time and emphasizes that John's vision of heaven and the future were intended to infuse everyday Christian life with confidence in the goodness and ultimate triumph of God Thompson's commentary on Revelation is written in an engaging literary style and by presenting perceptive comparisons and contrasts with both Greco-Roman and Jewish literature canonical and non-canonical he highlights the distinctive features of this book He deals effectively with the rhetorical and even the epistemological dimensions while offering an illuminating and convincing proposal for the structure and thematic development of Revelation In short it is a most revealing and insightful analysis of this challenging early Christian writing as it shows how this book addresses perennial human questions about divine purpose and human destiny Howard Clark Kee
