Staiff, 2016-02-24 Travel and tourism have a long association with the notion of transformation both in terms of self and social collectives What is surprising however is that this association has on the whole remained relatively underexplored and unchallenged with little in the way of a corpus of academic literature surrounding these themes Instead much of the literature to date has focused upon describing and categorising tourism and travel experiences from a supply side perspective with travellers themselves defined in terms of their motivations and interests While the tourism field can lay claim to several significant milestone contributions there have been few recent attempts at a rigorous re theorization of the issues arising from the travel transformation nexus The opportunity to explore the socio cultural dimensions of transformation through travel has thus far been missed Bringing together geographers sociologists cultural researchers philosophers anthropologists visual researchers literary scholars and heritage researchers this volume explores what it means to transform through travel in a modern mobile world In doing so it draws upon a wide variety of traveller perspectives including tourists backpackers lifestyle travellers migrants refugees nomads walkers writers poets virtual travellers and cosmetic surgery patients to unpack a cultural phenomenon that has captured the imagination since the very first works of Western literature **THE GREATEST BRITISH DETECTIVES - Ultimate Collection** Arthur Conan Doyle, Ernest Bramah, Arthur Morrison, Thomas W.
