A Taste of Jordan Algebras Kevin McCrimmon,2006-05-29 This book describes the history of Jordan algebras and

describes in full mathematical detail the recent structure theory for Jordan algebras of arbitrary dimension due to Efim Zelmanov. Jordan algebras crop up in many surprising settings and find application to a variety of mathematical areas. No knowledge is required beyond standard first year graduate algebra courses. **The Sinus Node** F.I. Bonke, 2012-12-06

For the clinician the sinus node is more or less a hidden structure and only by indirect assessment he is able to say something about the function of this center of pacemaker activity. The morphologist however is able to describe the structural microscopic and even electronmicroscopic features of this structure. The only disadvantage is that as soon as he is coming into the picture the tissue is dead. The physiologist tries to investigate the electrophysiological behavior of the sinus node. Since there is not a human being willing to give his sinus node for research he has to do his investigation on isolated preparations of animals. Though there are a lot of experts in the field of the sinus node they nearly never speak the same language. Therefore it was my dream to bring all those people or at least some of them together on a workshop. I had the feeling that it was important to organize such a meeting without an audience but only with experts. **Skip Jordan and the Angels of Light Book 2** Christopher Shennan, 2012-02. Skip Jordan and his friends have faced the powers of darkness before they have confronted the deceptions of witchcraft and done battle with demonic entities. They have seen The Veil of Deception and prevailed against seemingly impossible odds but what they are called to face now is more ominous than anything they have known before. Skip Jordan is dreaming again. Their former friend Roger Wilson missing for almost a year appears in the dream. He also sees Ntambo the African preacher who had saved Skip from death when he was only four years old. Against the backdrop of Victoria Falls in Africa or as the locals know it The Smoke That Thunders he sees his black friend hounded over the edge into the gorge below. Skip has no doubt the dream is a call for he and his friends to launch a rescue mission to save Roger and others from the clutches of witchcraft. Only two months short of his fifteenth birthday they leave for Africa on an adventure that could very well be their last. They face attacks from demons, lying wonders and end up in a secret place known as The Lion's Den. In this evil place no escape is possible only death awaits them. Will their faith be sufficient to carry them through? Will their youth and inexperience cause them to fail? Or is there help on the way both human and divine that will lead them to final victory. This second volume in the SKIP JORDAN series told with a blend of fantasy drama and adventure cannot fail to excite, challenge and bless all who read it. **Narrative of the United States'**
