## **Josef Frank Architektur:**

**Josef Frank - Architektur** Olof Michélsen, 1995-01-01      **Josef Frank** Christopher Long, Josef Frank, 2002 Architect designer and theorist Josef Frank 1885 1967 was known throughout Europe in the 1920s as one of the continent's leading modernists Yet despite his important contributions to the development of modernism Frank has been largely excluded from histories of the movement Josef Frank Life and Work is the first study that comprehensively explores the life ideas and designs of this complex and controversial figure Educated in Vienna just after the turn of the century Frank became the leader of the younger generation of architects in Austria after the First World War But Frank fell from grace when he emerged as a forceful critic of the extremes of modern architecture and design during the early 1930s Dismissing the demands for a unified modern style Frank insisted that it was pluralism not uniformity that most characterized life in the new machine age He called instead for a more humane modernism one that responded to people's everyday needs and left room for sentimentality and historical influences He was able to put these ideas into practice when in 1933 he was forced to leave Vienna for Sweden There his work came to define Swedish or Scandinavian modern design For more than thirty years he was the chief designer for the Stockholm furnishings firm Svenskt Tenn producing colorful cozy and eclectic designs that provided a refreshing alternative to the architectural mainstream of the day and presaged the coming revolt against modernism in the 1960s In this sensitive study of one of the twentieth century's seminal architects and thinkers Christopher Long offers new insight into Josef Frank's work and ideas and provides an important contribution to the understanding of modernist culture and its history      *Josef Frank 1885-1967* Iris Meder, Österreichische Gesellschaft für Architektur, 2008

**The Architecture of Red Vienna, 1919-1934** Eve Blau, 1999 Encyclopedic in its coverage this seminal work focuses on the architecture of Prague from the turn of the century to the end of the Second World War a rich matrix within which to place the figures who created the powerful innovative spirits of modern Czech architecture The book documents the architects structures and theoretical underpinnings that helped to shape Prague's cultural heritage and present day artistic spirit      **Émigré Cultures in Design and Architecture** Alison J. Clarke, Elana Shapira, 2017-11-02 This new volume addresses the lasting contribution made by Central European migr designers to twentieth century American design and architecture The contributors examine how oppositional stances in debates concerning consumption and modernism's social agendas taken by designers such as Felix Augenfeld Joseph Binder Josef Frank Paul T Frankl Frederick Kiesler Richard Neutra and R M Schindler in Europe prefigured their later adoption or rejection by American culture They argue that migrs and refugees from fascist Europe such as Gyrgy Kepes Paul László Victor Papanek Bernard Rudofsky Xanti Schawinsky and Eva Zeisel drew on the particular experiences of their home countries and networks of migr and exiled designers in the United States to develop a humanist progressive and socially inclusive design culture which continues to influence design practice today

**The Vienna Circle** Friedrich Stadler, 2015-05-08 This abridged and revised edition of the original book Springer Wien

New York 2001 offers the only comprehensive history and documentation of the Vienna Circle based on new sources with an innovative historiographical approach to the study of science. With reference to previously unpublished archival material and more recent literature it refutes a number of widespread clichés about neo positivism or logical positivism. Following some insights on the relation between the history of science and the philosophy of science the book offers an accessible introduction to the complex subject of the rise of scientific philosophy in its socio cultural background and European philosophical networks till the forced migration in the Anglo Saxon world. The first part of the book focuses on the origins of Logical Empiricism before World War I and the development of the Vienna Circle in Red Vienna with the Verein Ernst Mach, its fate during Austro Fascism Schlick's murder 1936 and its final expulsion by National Socialism beginning with the Anschluß in 1938. It analyses the dynamics of the Schlick Circle in the intellectual context of late enlightenment including the minutes of the meetings from 1930 on for the first time published and presents an extensive description of the meetings and international Unity of Science conferences between 1929 and 1941. The chapters introduce the leading philosophers of the Schlick Circle e.g. Hans Hahn, Otto Neurath, Rudolf Carnap, Philipp Frank, Felix Kaufmann, Edgar Zilsel and describe the conflicting interaction between Moritz Schlick and Otto Neurath, the long term communication between Moritz Schlick, Friedrich Waismann and Ludwig Wittgenstein as well as between the Vienna Circle with Heinrich Gomperz and Karl Popper. In addition Karl Menger's Mathematical Colloquium with Kurt Gödel is presented as a parallel movement. The final chapter of this section describes the demise of the Vienna Circle and the forced exodus of scientists and intellectuals from Austria. The second part of the book includes a bio bibliographical documentation of the Vienna Circle members and for the first time of the assassination of Moritz Schlick in 1936 followed by an appendix comprising an extensive list of sources and literature.

[Josef Frank 1885-1967](#) Marlene Ott-Wodni, Josef Frank, 2015-04-21 Der sterreichische Architekt Josef Frank war in der Zwischenkriegszeit als Mitglied des Werkbundes und als teilnehmender Architekt der Stuttgarter Weißenhofsiedlung aktiv in das internationale Architekturgeschehen eingebunden. Aufbauend auf seine frühen Entwürfe der 1910er Jahre bildet seine Tätigkeit für die Einrichtungsfirma Haus Garten den Schwerpunkt des Buches. Das Unternehmen fungierte mit seinen flexiblen Einzelmodellen seinen farbenfrohen Textilien sowie seiner antikoktrinen Wohnauffassung als Gegenpol zur Wiener Werkstätte. Aufgrund seiner jüdischen Herkunft emigrierte Josef Frank in den 1930er Jahren nach Stockholm. Als Designer der Firma Svenskt Tenn konnte er nahtlos an sein Wiener Schaffen an. Josef Frank gilt heute gemeinhin als Begründer des modernen schwedischen Einrichtungsstils.

**Vertiefene Vernunft - Vol. 2** Friedrich Stadler, 2004     [Architecture Oriented Otherwise](#) David Leatherbarrow, 2012-04-17 So much writing about architecture tends to evaluate it on the basis of its intentions how closely it corresponds to the artistic will of the designer, the technical skills of the builder or whether it reflects the spirit of the place and time in which it was built making it not much more than the willful or even subconscious assemblage of objects that result from design and construction techniques. Renowned writer and thinker David

Leatherbarrow in this groundbreaking new book argues for a richer and more profound but also simpler way of thinking about architecture namely on the basis of how it performs Not simply how it functions but how it acts its manner of existing in the world including its effects on the observers and inhabitants of a building as well as on the landscape that situates it In the process Leatherbarrow transforms our way of discussing buildings from a passive technical or programmatic assessment to a highly active and engaged examination of the lives and performances intended and otherwise of buildings

*German Cities and Bourgeois Modernism, 1890-1924* Maiken Umbach, 2009-06-25 This is a study of a distinctive brand of modernism that first emerged in late nineteenth century Germany and remained influential throughout the inter war years and beyond Its supporters saw themselves as a new elite ideally placed to tackle the many challenges facing the young and rapidly industrializing German nation state They defined themselves as bourgeois and acted as self appointed champions of a modern consciousness Focusing on figures such as Hermann Muthesius Fritz Schumacher and Karl Ernst Osthaus and the activities of the Deutscher Werkbund and other networks of bourgeois designers writers and experts this book shows how bourgeois modernism shaped the infrastructure of social and political life in early twentieth century Germany Bourgeois modernism exercised its power not so much in the realm of ideas but by transforming the physical environment of German cities from domestic interiors via consumer objects to urban and regional planning Drawing on a detailed analysis of key material sites of bourgeois modernism and interpreting them in conjunction with written sources this study offers new insights into the history of the bourgeois mindset and its operations in the private and public realms Thematic chapters examine leitmotifs such as the sense of locality and place the sense of history and time and the sense of nature and culture Yet for all its self

conscious progressivism German bourgeois modernism was not an inevitable precursor of neo liberal global capitalism It remained a hotly contested historical construct which was constantly re defined in different geographical and political settings    **Architektur + [i.e. und] Wohnwelt** ,1927    **Die Architektur der Gesellschaft** Joachim Fischer,Heike Delitz,2015-07-15 Architektur ist die durchdringende Gestalt der Gesellschaft sie ist es in der wir uns t glich bewegen in der wir agieren und interagieren Erst neuerdings wird sie zu einem Schl sselthema der soziologischen Theorie Der Band ist ein Durchbruch dieser neuen Architektursoziologie und ihrer Theoriebildung Er leistet zugleich einen Beitrag zur Gesellschaftsdiagnose Mittels verschiedener soziologischer Theorien und Beispiele analysieren die Beitr ge anhand der Architektur die Eigenart und Struktur der Gesellschaft Die Systematik des Buches verhilft nicht zuletzt auch dazu sich im Dschungel der soziologischen Paradigmen zurechtzufinden    Encyclopedia of Twentieth Century Architecture R.
