Josef Albers ,1994 Josef Albers Josef Albers,Paul Overy,South Bank Centre,1994 A sumptuously produced introduction to the ideas and methods of one of the most influential artists and theorists of the twentieth century First issued in 1972 as a limited edition set of prints Formulation Articulation is being published in book form for the first time Josef Albers drew on over forty years work in a variety of media woodcuts sandblasted glass pictures and oil paintings for these poetic explorations of color and form Created just four years before his death in 1976 the images can be seen as the summation of Albers s creative life Albers was a student and a teacher at the Bauhaus from 1920 to 1933 escaped to America and taught at Black Mountain College until 1949 and was chairman of the Department of Design at Yale University until 1958 As both artist and teacher he influenced innumerable artists including Mark Rothko Barnett Newman and Robert Rauschenberg Albers s seminal text Interaction of Color 1963 which was translated into eight languages affected art teaching all over the world This book embodies all the elements of Albers s lifetime preoccupation with abstraction color and perception He draws the viewer into a dynamic relationship with his work showing how color can have deceptive and unpredictable effects depending on how it interacts with other colors The order of the 127 illustrations was carefully chosen by Albers so that they can be examined and appreciated for their visual interaction or as beautiful works of art in their own right They appear alone on the page in pairs or sometimes four together The accompanying text includes key passages from Albers s own writings printed on special foldout sections and the introduction by noted critic T G Rosenthal includes comparative and contextual illustrations 150 illustrations 127 in color **Albers and Moholy-Nagy** Achim Borchardt-Hume,2006-01-01 Catalog of an exhibition held at the Tate Modern London Mar 9 June 4 2006 the Kunsthalle Bielefeld June 25 Oct 1 2006 and the Whitney Museum of American Art New York Nov 2 2006 Jan 21 2007 The Robert and Jane Meyerhoff Collection, 1945 to 1995 Mark Lawrence Rosenthal,David Anfam,National Gallery of Art (U.S.),1996 Art from the post World War 11 period primarily in America Blurb **The Natalie and Irving Forman Collection** Albright-Knox Art Gallery,Karen Lee Spaulding,2005 The gift of Natalie and Irving Forman of their stellar art collection of monochrome works of art 161 paintings and sculpture and 127 works on paper constitutes a remarkable contribution to the permanent collection of the Albright Knox Art Gallery It is the single largest gift to be donated at one time to the museum and is particularly noteworthy for its relevance and significance to the Gallery s collection of abstract art This volume celebrates that magnificent gift documents the painting and sculpture collection and marks the exhibition that honors the Formans generosity on view at the Albright Knox Art Gallery May 6 July 3 2005 Book jacket *Joseph Albers: To Open Eyes* Frederick A. Horowitz,Brenda Danilowitz,2006-11-07 This volume provides a fascinating study of the revolutionary painter and teacher Josef Albers 1888 1976 Albers began his teaching career in 1923 when Walter Gropius invited him to join the faculty of the Bauhaus in Germany where he quickly replaced the school s standard course curriculum with his own

innovative methods After moving to the United States he taught at Black Mountain College in North Carolina and then at Yale University in New Haven Connecticut until he retired in 1954 Overall Albers's passionate commitment to teaching was matched only by his devotion to his own artistic development While he is widely perceived as a strong minded theoretician he was in fact as this volume reveals against rigid dogma and he encouraged his students to develop lively and original solutions to his many and varied design exercises On their first day in his classroom Albers's students were informed that his goal was to educate their eyes and that he was going to teach them how to think and to see an agenda belied by the somewhat prosaic course names Basic Drawing and Basic Design Overall as a thinker writer Albers's important volume *The Interaction of Color* was published in 1963 by Yale and educator he has directly and indirectly influenced generations of established artists including Robert Mangold Robert Rauschenberg and Donald Judd among many others This book provides not only a compelling study of a key figure of 20th century art but also ponders what constitutes art and how it is made **The**
