Émigré Cultures in Design and Architecture Alison J. Clarke, Elana Shapira, 2017-11-02 This new volume addresses the lasting contribution made by Central European migr designers to twentieth century American design and architecture The contributors examine how oppositional stances in debates concerning consumption and modernism's social agendas taken by designers such as Felix Augenfeld Joseph Binder Josef Frank Paul T. Frankl Frederick Kiesler Richard Neutra and R. M. Schindler in Europe prefigured their later adoption or rejection by American culture They argue that migr and refugees from fascist Europe such as György Kepes Paul László Victor Papanek Bernard Rudofsky Xanti Schawinsky and Eva Zeisel drew on the particular experiences of their home countries and networks of migr and exiled designers in the United States to develop a humanist progressive and socially inclusive design culture which continues to influence design practice today
