The Weary Titan Aaron L. Friedberg, 2021-06-08 How do statesmen become aware of unfavorable shifts in relative power and how do they seek to respond to them These are puzzles of considerable importance to theorists of international relations As national decline has become an increasingly prominent theme in American political debate these questions have also taken on an immediate pressing significance The Weary Titan is a penetrating study of a similar controversy in Britain at the turn of the twentieth century Drawing on a wide variety of sources Aaron Friedberg explains how England s rulers failed to understand and respond to the initial evidence of erosion in their country s industrial financial naval and military power The British example suggests that statesmen may be slow to recognize shifts in international position in part because they rely heavily on simple but often distorting indicators of relative capabilities In a new afterword Friedberg examines current debates about whether America is in decline arguing that American power will remain robust for some time to come

Stephen, 2013-09-19 This much needed study of the British Empire Exhibition reveals durable persistent connections between empire and domestic society in Britain during the interwar years It demonstrates that the Exhibition was a marker of how by 1924 imperial relations were increasingly likely to be shaped by forces located on the colonial periphery *European Political Thought, 1815-1989* Spencer M. Hirshfield, 2012-12-06 In the spring of the year 1898 the long rivalry of Britain and France in West Africa reached a dangerous climax The West African crisis was but one aspect of an extensive Anglo French contest for colonial possessions which characterized the final decade of the nineteenth century Competition for dominion went on relentlessly in the Nile Valley along the banks of the Mekong in Southeast Asia and within the territories of the Niger River Bend The Upper Nile dispute dwarfed all others and ultimately the inability of Britain and France to settle this question through diplomatic negotiations was to lead to the confrontation at Fashoda Simultaneously however a more obscure struggle was in process namely the contest for possession of the thousand mile stretch of the Middle Niger Aside from an infrequent flurry of diplomatic activity occasioned by the foray of an English or French officer into the little known realms of the Niger Bend the protracted struggle for control of the river artery received scant notice The Foreign Offices in both France and Britain traditionally regarded the region as one of secondary interest and tended to subordinate it to more pressing concerns Even the eruption of a dangerous crisis in West Africa in the spring of 1898 was somewhat overshadowed by the subsequent incident at Fashoda so that the earlier climax appeared mainly a curtain raiser **English Historical Documents: (1). 1833-1874, ed, by G.M.
