Said, 2008 Edward W Said locates Joseph Conrad's fear of personal disintegration in his constant re narration of the past Using the author's personal letters as a guide to understanding his fiction Said draws an important parallel between Conrad's view of his own life and the manner and form of his stories The critic also argues that the author who set his fiction in exotic locations like East Asia and Africa projects political dimensions in his work that mirror a colonialist preoccupation with civilizing native peoples Said then suggests that this dimension should be considered when reading all of Western literature First published in 1966 Said's critique of the Western self's struggle with modernity signaled the beginnings of his groundbreaking work Orientalism and remains a cornerstone of postcolonial studies today     **A Reference Guide for English Studies** Michael J. *Conrad's Narrative Voice* Werner Senn, 2017-01-09 Werner Senn's *Conrad's Narrative Voice* draws on the methodology of linguistic stylistics and the analysis of narrative discourse to discuss Joseph Conrad's perception of the role and the limitations of language. Tracing recurrent linguistic patterns allows Senn to demonstrate that Conrad's view of the radical indeterminacy of the world is conveyed on the most basic levels of the author's often criticised verbal style but permeates his work at all levels of the narrative. Detailed stylistic analysis also reveals the importance to Conrad of the spoken word of oral communication. Senn argues that the narrators' compulsive efforts to make their readers see and understand reflect Conrad's ethics of human solidarity in a world he depicts as hostile, enigmatic and often senseless.
