The Routledge Companion to Joseph Conrad attests to the global significance and enduring importance of Conrad's works, reception, and legacy. This volume brings together an international roster of scholars who consider his works in relation to biography, narrative, politics, women's studies, comparative literature, and other forms of art. They offer approaches as diverse as re-examining Conrad's sea voyages using newly available digital materials, analyzing his archipelagic narrative techniques, applying Chinese philosophy to Lord Jim, interrogating gendered epistemology in the neglected story *The Tale*, considering Conrad alongside W. E. B. Du Bois, Graham Greene, Virginia Woolf, or Orhan Pamuk, or alongside sound, gesture, opera, graphic novels, or contemporary events. An invaluable resource for students and scholars of Conrad and twentieth-century literature, this groundbreaking collection shows how Conrad's works, their artistry, vision, and ideas continue to challenge, perplex, and delight. *The New Cambridge Companion to Joseph Conrad*, 2018. The Cambridge Companion to Ibsen James Walter McFarlane, 1994 In the history of modern theatre Ibsen is one of the dominating figures. The sixteen chapters of this 1994 Companion explore his life and work providing an invaluable reference work for students. In chronological terms they range from an account of Ibsen's earliest pieces through the years of rich experimentation to the mature Ibsenist plays that made him famous towards the end of the nineteenth century. Among the thematic topics are discussions of Ibsen's comedy, realism, lyric poetry and feminism. Substantial chapters account for Ibsen's influence on the international stage and his challenge to theatre and film directors and playwrights today. Essential reference materials include a full chronology, list of works and essays on twentieth century criticism and further reading.

Joseph Conrad Tim Middleton, 2006 Publisher description

The Cambridge Companion to Ben Jonson Richard Harp, Stanley Stewart, 2000-11-30 Ben Jonson is in many ways the figure of greatest centrality to literary study of the Elizabethan and Jacobean period. He wrote in virtually every literary genre in drama, comedy, tragedy and masque; in poetry, epigram, epistle and lyric; in prose, literary criticism and English grammar. He became the most visible poet of his age, honored more than even William Shakespeare, and his dramatic works, in particular his major comedies, continue to be performed today. This Companion brings together leading scholars from both sides of the Atlantic to provide an accessible and up to date introduction to Jonson's life and works. It represents an invaluable guide to current critical perspectives, providing generous coverage not only of his plays but also his non-dramatic works. The volume is informed by the latest development in Jonson scholarship and will therefore appeal to scholars and teachers as well as newcomers to his work.

The Cambridge Companion to Aphra Behn Derek Hughes, Janet Todd, 2004-11-25 Traditionally known as the first professional woman writer in English, Aphra Behn has now emerged as one of the major figures of the Restoration. She provided more plays for the stage than any other author and greatly influenced the development of the novel with her ground-breaking fiction, especially *Love Letters between a Nobleman and his Sister* and *Oroonoko*, the first English novel set in America. Behn's work straddles the genres: beside drama and fiction she also excelled in poetry and she made several important translations from French libertine and scientific works. This Companion discusses and introduces her writings in all these fields and provides the critical tools with which to judge their aesthetic and historical importance. It also includes a full bibliography, a detailed chronology and a description of the known facts of her life. The Companion will be an essential tool for the study of this increasingly important writer and thinker.
