Radical Betrayal Anders W. Edwardsson, 2023-12-05 In Radical Betrayal Anders W Edwardsson delivers a provocative examination of how both liberal and neoconservative forces have undermined American exceptionalism the belief in America s unique character and role in world history Tracing the evolution of American national identity from its founding through the present day Edwardsson argues that the post World War II era has witnessed a gradual erosion of the principles that once defined the American experiment From Woodrow Wilson s progressive idealism to Franklin Roosevelt s New Deal from Lyndon Johnson s Great Society to George W Bush s democratization agenda Edwardsson methodically chronicles how political leaders have dramatically expanded federal power and global interventionism in ways that contradict America s founding vision The author demonstrates how both parties have contributed to what he sees as America s decline liberals through welfare state expansion and neoconservatives through misguided foreign wars Most provocatively Edwardsson argues that Donald Trump s presidency represented a potential return to traditional American principles before being undermined by establishment forces He warns that continued abandonment of American exceptionalism threatens not only the nation s prosperity but its very survival as a unified republic Whether you agree with his analysis or not Edwardsson s sweeping historical narrative challenges readers to reconsider the forces shaping American politics and identity in an increasingly polarized age If you enjoyed The Case for Nationalism by Rich Lowry The Dying Citizen by Victor Davis Hanson or America in Retreat by Bret Stephens you ll love Radical Betrayal

**Hannah Arendt's Response to the Crisis of Her Times** Anthony Court, 2008

Crimes against History Antoon De Baets, 2018-12-13 Crimes against History takes a global approach to the extreme forms of censorship to which history and historians have been subjected through the ages The book opens by considering the varieties of censorship from suppression dismissal and defamation to persecution and murder Part I Kill switch tells the tragic story of how the censorship of history has sometimes turned into deadly crimes against history with chapters looking at topics such as historians and archivists being killed for political reasons attacks by political leaders on historians iconoclastic breaks with the past and fake news Part II Fragile freedom reverses the perspective and examines how the censorship of history has backfired Chapters consider the subversive power of historical analogies and resistance to the censorship of history The book also contains a Provisional memorial for history producers killed for political reasons from ancient times until 2017 It is a double tribute to the history producers who were killed and to those who mustered the

courage to resist the blows of censorship      **Empire, Technology and Seapower** Howard J. Fuller, 2014-01-03 This book examines British naval diplomacy from the end of the Crimean War to the American Civil War showing how the mid Victorian Royal Navy suffered serious challenges during the period Many recent works have attempted to depict the mid Victorian Royal Navy as all powerful innovative and even self assured In contrast this work argues that it suffered serious challenges in the form of expanding imperial commitments national security concerns precarious diplomatic relations with European Powers and the United States and technological advancements associated with the armoured warship at the height of the so called Pax Britannica Utilising a wealth of international archival sources this volume explores the introduction of the monitor form of ironclad during the American Civil War which deliberately forfeited long range power projection for local coastal command of the sea It looks at the ways in which the Royal Navy responded to this new technology and uses a wealth of international primary and secondary sources to ascertain how decision making at Whitehall affected that at Westminster The result is a better balanced understanding of Palmerstonian diplomacy from the end of the Crimean War to the American Civil War the early evolution of the modern capital ship including the catastrophic loss of the experimental sail and turret ironclad H M S Captain naval power projection and the nature of empire technology and seapower This book will be of great interest to all students of the Royal Navy and of maritime and strategic studies in general      **The Latest Catastrophe** Henry

Rousso, 2016-07-06 The writing of recent history tends to be deeply marked by conflict by personal and collective struggles rooted in horrific traumas and bitter controversies Frequently today s historians can find themselves researching the same events that they themselves lived through This book reflects on the concept and practices of what is called contemporary history a history of the present time and identifies special tensions in the field between knowledge and experience distance and proximity and objectivity and subjectivity Henry Rousso addresses the rise of contemporary history and the relations of present day societies to their past especially their legacies of political violence Focusing on France Germany the United Kingdom and the United States he shows that for contemporary historians the recent past has become a problem to be solved No longer unfolding as a series of traditions to be respected or a set of knowledge to be transmitted and built upon history today is treated as a constant act of mourning or memory an attempt to atone Historians must also negotiate with strife within this field as older scholars who may have lived through events clash with younger historians who also claim to understand the experiences Ultimately The Latest Catastrophe shows how historians at times against their will have themselves become actors in a history still being made      **Most Adaptable to Change** Alexander Hall, Will

Mason-Wilkes, 2024-10-22 In a globalized and networked world where media crosses national borders contributors reveal how transnational processes have shaped popular representations of scientific and religious ideas in the United Kingdom Argentina Ecuador India Spain Turkey Israel and Japan Most Adaptable to Change demonstrates the varied and divergent ways evolutionary ideas and nonscientific traditions and ways of understanding life on Earth have transformed across the

globe By examining a range of popular media forms across a multitude of different geopolitical contexts from the 1920s to today this book traces how different evolutionary traditions and figures have been championed or discredited by different religious traditions their spiritual leaders and politicians using the cultural authority of religion as leverage It analyzes the ways in which evolutionary theory has been mobilized explicitly for the purposes of addressing wider sociopolitical questions and it is the first collection of its kind to explicitly explore the role of popular media formats themselves as mediators in institutional debates on the relationship between evolution and religion

**Escaping the Deadly Embrace** Andrea Bartoletti, 2022-11-15 Encirclement Andrea Bartoletti argues is an essential strategic possibility of the international system and a key trigger of major war Using historical case studies Escaping the Deadly Embrace examines how great powers try to escape the two front war problem and seek to preserve their security Encirclement is a geographic variable that occurs in the presence of one or two great powers on two different borders of the surrounded great power The surrounding great powers may not have the capacity to initiate a joint invasion Yet their threatening presence triggers a double security dilemma for the encircled great power which has to disperse its army to secure its borders When the surrounding great powers become capable of launching a two front attack the encircled great power initiates war This situation disastrous in itself can also lead to war contagion when other great powers intervene in the new conflict owing to the rival based network of alliances Combining archival work and historiographical analysis Escaping the Deadly Embrace demonstrates the efficacy of this by assessing three major wars the Italian Wars the Thirty Years War and World War I These findings Bartoletti shows have important implications for future major wars Challenging the current focus on the US China rivalry he argues that the most concerning strategic scenario is the encirclement of China by India and Russia

Globalization and Labor Dimitris Stevis, Terry Boswell, 2008 Unions have long been a central force in the democratization of national and global governance and this timely book examines the role of labor in fighting for a more democratic and equitable world In a clear and compelling narrative Dimitris Stevis and Terry Boswell explore the past accomplishments and the formidable challenges still facing global union politics Outlining the contradictions of globalization and global governance they assess the implications for global union politics since its inception in the nineteenth century The authors place this key social movement in a political economy framework as they argue that social movements can be fruitfully compared based on their emphases on egalitarianism and internationalism Applying these concepts to global union

politics across time the authors consider whether global union politics has become more active and more influential or has failed to rise to the challenge of global capitalism All readers interested in global organizations governance and social movements will find this deeply informed work an essential resource      Synopsis Andrew D.
