James Fenimore Cooper Wayne Franklin, 2017-04-25 A definitive new biography of James Fenimore Cooper early nineteenth century master of American popular fiction American author James Fenimore Cooper 1789 1851 has been credited with inventing and popularizing a wide variety of genre fiction including the Western the spy novel the high seas adventure tale and the Revolutionary War romance America's first crusading novelist Cooper reminds us that literature is not a cloistered art rather it ought to be intimately engaged with the world In this second volume of his definitive biography Wayne Franklin concentrates on the latter half of Cooper's life detailing a period of personal and political controversy far ranging international travel and prolific literary creation We hear of Cooper's progressive views on race and slavery his doubts about American expansionism and his concern about the future prospects of the American Republic while observing how his groundbreaking career management paved the way for later novelists to make a living through their writing Franklin offers readers the most comprehensive portrait to date of this underappreciated American literary icon [The Novels and Related Works of Charles Brockden Brown: Wieland. Kierkegaard's Journals and Notebooks, Volume 11, Part 1 Søren Kierkegaard, 2019-11-26 For over a century the Danish thinker Søren Kierkegaard 1813 55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought psychology and contemporary aesthetics especially literary theory Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings But Kierkegaard left behind nearly as much unpublished writing most of which consists of what are called his journals and notebooks Kierkegaard has long been recognized as one of history's great journal keepers but only rather small portions of his journals and notebooks are what we usually understand by the term diaries By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects philosophical religious political personal Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought We can witness the genesis of his published works to be sure but we can also see whole galaxies of concepts new insights and fragments large and small of partially or almost entirely completed but unpublished works Kierkegaard's Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself Kierkegaard wrote his journals in a two column format one for his initial entries and the second for the extensive marginal comments that he added later This edition of the journals reproduces this format includes several photographs of original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced Volume 11 Part 1 and Volume 11 Part 2 present an exciting enlightening and enormously varied treasure trove of papers that were found carefully sorted and stored by Kierkegaard himself in his

apartment after his death These papers many of which have never before been published in English provide a window into many different aspects of Kierkegaard's life and creativity Volume 11 Part 1 includes items from his earliest formative years through his extensive studies at the university and up to the publication of *Either/Or* These materials include Kierkegaard's studies in biblical exegesis his reading of theologians such as Schleiermacher and Baader his concern with aesthetic matters including a lengthy consideration of the Faust legend his first trial sermon delivered at the Pastoral Seminary his views on the burgeoning field of political journalism in the 1830s and a group of papers he titled *The First Rudiments of Either/Or* *The Green Book* Some Particulars that were not Used *The Invention of the Colonial Americas* Byron Ellsworth

Hamann, 2022-08-30 The story of Seville's Archive of the Indies reveals how current views of the sixteenth and seventeenth centuries are based on radical historical revisionism in Spain in the late 1700s *The Invention of the Colonial Americas* is an architectural history and mediaarchaeological study of changing theories and practices of government archives in Enlightenment Spain It centers on an archive created in Seville for storing Spain's pre 1760 documents about the New World To fill this new archive older archives elsewhere in Spain spaces in which records about American history were stored together with records about European history were dismembered The Archive of the Indies thus constructed a scholarly apparatus that made it easier to imagine the history of the Americas as independent from the history of Europe and vice versa In this meticulously researched book Byron Ellsworth Hamann explores how building layouts systems of storage and the arrangement of documents were designed to foster the creation of new knowledge He draws on a rich collection of eighteenth century architectural plans descriptions models document catalogs and surviving buildings to present a literal materially precise account of archives as assemblages of spaces humans and data assemblages that were understood circa 1800 as capable of actively generating scholarly innovation *Literary Partnerships and the Marketplace* David

Dowling, 2012-01-16 In *Literary Partnerships and the Marketplace* David Dowling examines an often overlooked aspect of the history of publishing relationships of both a business and a personal nature The book focuses on several intriguing duos of the nineteenth century and explores the economics of literary partnerships between author/publisher student/mentor husband/wife and parent/child These literary companions range from Emerson's promotion of Thoreau a relationship fraught with pitfalls and misjudgments to Davis Inc the seamless joining of the literary and legal minds of Rebecca Harding Davis and her husband L. Clarke Davis Dowling also considers and analyzes the teams of Washington Irving and his publisher John Murray Herman Melville and his editor Evert Duyckinck E. D. E. N. Southworth and Robert Bonner the publisher who serialized her sentimental novels *Fanny Fern* both with her brother/publisher Nathaniel Parker Willis and with Robert Bonner the latter a more successful pairing and the famous fraternal relationship between Ernest Hemingway and Gertrude Stein Throughout Dowling demonstrates the intrinsic irony of authors projecting their labors of the mind as autonomous even as they relied heavily on their literary partners to aid them in navigating the business side of writing **Early Nineteenth-century**
