Reflective Discipline Martha R. Bireda, 2019-08-14

Why does racism conscious and unconscious remain a persistent issue in American society? From blackface worn by public officials to a school district's forcing of the removal of a Black History Month display, beliefs and opinions related to racism are pervasive and widespread in the collective American mind. America's racist legacy cannot and will not be changed until historically entrenched beliefs are confronted, challenged, and changed. While focusing on the specific issues that educators face in addressing and eliminating racial disparity in disciplinary perceptions and referrals, the reflective exercises provided in this book are valuable to any reader who wishes to examine programmed unconscious beliefs that can lead to racist behaviors. This is a book that helps the reader to understand the source, purpose, and ways in which stereotypical beliefs and images have been and continue to be reinforced in our present society. *Reflective Discipline* is a timely and especially significant book for this time in American life. The exercises can be utilized not only in educational but in other environments, i.e., law enforcement, social service, etc., in which understanding the forces that perpetuate racist beliefs in our society are important to ensuring fair and equitable treatment of all. Mosenthal, 2001-07-01 This book offers a array of essays with challenging ideas and provoking new analyses of power asymmetries multiple epistemologies and vital concerns for the education of a different America the America of new immigrants people of color with other cultures languages and values The new American that many want to ignore and is becoming the only America This book also forces us to reflect on the educational

challenges we must face especially in teacher education and the preparation of intellectual leaders None of the major agenda items associated with a new era of social justice can be either comprehended or accomplished without a profound understanding of multicultural literacy and of its relationship to ethnic racial cultural and linguistic diversity While in previous decades we used frequently a rhetoric of multiculturalism at a safe distance today we are living multiculturalism and practicing ethnic cultural and racial diversity in our daily lives as we seek a marriage partner a business associate a friend a church Most of all we must live multiculturalism as we go school and see children s faces There is no way to escape the reality of ethnic racial and linguistic diversity as it comes entangled with many other cul tural and class differences between and within each group we encounter Suddenly an abrupt awakening for many mainstream educators what was peculiar of some areas in the Southwest has become common scenario in most metropolis and large cities The present volume brings us face to face with issues and challenges we can no longer sweep under the rug This outstanding volume lays down a solid general conceptual foundation that permits us to link our theoretical past with the post modern era It also provides a clear context for the dis cussion of contrasting notions of monocultural literacy and the relation ship of literacy and power The volume goes on to deal with the relationship of literacy and culture actually to specific cultures especially African American At this point the discourse turns to strategies for incor porating minority perspectives into the literacy curriculum and including the home cultures of disenfranchised peoples The last section of the book offers help on the practical issues of teacher education for student popula tions often ignored and linkages between schools and homes in order to empower the disenfranchised and isolated
