**From Great Wilderness to Seaway Towns** Claire Puccia Parham,2012-02-01 From Great Wilderness to Seaway Towns adds a new dimension to the debate over the perceived differences between American and Canadian society This fascinating case study examines two communities separated by the St Lawrence River Cornwall Ontario and Massena New York from the end of the Revolutionary War to the present Moving from the struggles of early settlers to industrialization and beyond Claire Puccia Parham chronicles how the residents of both areas created similar social political and economic institutions because of their peripheral locations in a capitalist world system and their inherent congregational and democratic values These distinctive views often brought them into conflict with national leaders *Land, Power, and Economics on the Frontier of the Upper Canada* John Clarke,2001 Blending qualitative and quantitative approaches John Clarke measures the pulse of Ontario's pre industrial society **BOOK JACKET** Fundamentals of Sustainable Urban Renewal in Small and Mid-Sized Towns Avi Friedman,2018-05-23 The book introduces challenges affecting smaller urban communities with fewer than 50 000 inhabitants and offers urban planning and building architectural strategies to strengthen their city centers It divides urban renewal of small towns into sub components such as environmental challenges demographic trends economic changes and cultural aspects and aging infrastructure In each context is established and principles are outlined and illustrated Topics include urban form mobility and connectivity infill neighborhoods design wealth generation and promotion of local culture and well being Reinforced with detailed case studies Fundamentals of Sustainable Urban Renewal in Small and Mid Sized Towns is an ideal resource for municipal planners architects civil engineers and policy makers **Timespace** Jon May,Nigel Thrift,2003-08-29 Timespace undermines the old certainties of time and space by arguing that these dimensions do not exist singly but only as a hybrid process term The issue of space has perhaps been over emphasised and it is essential that processes of everyday existence such as globalisation and environmental issues and also notions such as gender race and ethnicity are looked at with a balanced time space analysis The social and cultural consequences of this move are traced through a series of studies which deploy different perspectives structural phenomenological and even Buddhist in order to make things meet up The contributors provide an overview of the history of time and introduce the concepts of time and space together across a range of disciplines The themes discussed are of importance for cultural geography sociology anthropology cultural and media studies and psychology **The Golden Dream** Ronald Stagg,2010-04-05 In the early twentieth century a movement flourished in the Midwestern states bordering the Great Lakes to champion the St Lawrence route as the answer to easily transporting goods in and out of the centre of the continent Internal rivalries in the United States and Canada held back the project for fifty years until Canada suddenly decided to build a seaway alone pressuring the American Congress to co operate The building of the Seaway and its completion in 1959 involved engineering on an unprecedented scale and significant human dislocation During construction communities along the Great Lakes planned for

increased prosperity but changes in transportation aging infrastructure and environmental problems have mean that the Golden Dream has not been fully realized even today This popular history chronicles the rise of one of the great engineering projects in Canadian history and its controversial impact on the people living along the St Lawrence River *The Last Invasion of Canada* Hereward Senior,1991-07-25 In the turbulent decade which produced the Canadian Confederation of 1867 a group of seasoned veterans of the American Civil War turned their attention to the conquest of Canada They were Irish American revolutionaries unique because they fought under their own flag They were know as the Fenians and they believed that the first step on the road to the liberation of Ireland was to invade Canada The Last Invasion of Canada vividly recaptures the drama of the decade It recounts the fledgling nation s rag tag but patriotic defence against an enemy committed to a glorious cause but with only scattered resources It is a story of courage espionage and petty crime and of mismatched motivations and goals **Canadian State Trials, Volume I** Frank Murray Greenwood,Barry

Wright,1996-12-15 State trials reveal much about a nation s insecurities and shed light on important themes in political constitutional and legal history In Canada perceived and real threats to the state have ranged from dissent disaffection and the emergence of threatening ideologies to insurrection riot violent protest and military invasion The Canadian State Trials series will explore the role of the law in regulating such threats from the period of early European settlement to 1971 The first volume and the planned series as a whole present a great deal of new material by prominent Canadian historians and legal scholars Although certain Canadian political trials and security crises have received scholarly attention in the past there has never been a comprehensive and systematic examination of the country s surprisingly rich record in this area The eighteen essays in Volume I examine this record for the period 1608 1837 covering proceedings in New France the four Atlantic colonies the Old Province of Quebec and the two Canadas They highlight security law during the American revolution the wars against revolutionary Napoleonic France and the War of 1812 comparative treason law and the trials of David McLane Robert Gourlay Francis Collins and Joseph Howe among others The essays which extensive use of primary sources the most illuminating of which appear in a documentary appendix place the examination of the law and its administration during these events in socio political and comparative context The View from Murney Tower Richard Allen,2008-01-01 Salem Goldworth Bland 1859 1950 was among the most significant religious leaders in Canadian history A Methodist and later United Church minister Bland s long career and widespread influence made him a leading figure in the popularizing of liberal theology social reform and the Social Gospel movement He was also a man who struggled with the polarities of evangelical faith and worldly culture and who sought a unifying world view in the mentoring of Sir J William Dawson in the sciences George Monro Grant in public affairs and John Watson in philosophy The View from the Murney Tower is a two volume biography of Salem Bland by Richard Allen author of The Social Passion Religion and Reform in Canada 1914 28 This first volume begins with Bland s upbringing in the home of an educated industrialist turned preacher It

goes on to explore his emergence as a liberating mind and eloquent speaker prepared to support new currents of scientific and social thought as well as to discuss their implications for Christian faith and life Allen concludes this first volume with Bland's departure from central Canada for the west in 1903 by which time he had become a somewhat controversial figure amongst conservative evangelicals throughout the country More than just biography however *The View from the Murney Tower* is also an examination of progressive religion in late Victorian Canada a time in which Darwinism and other Biblical social and intellectual controversies were profoundly affecting the growth of a young nation ***Working Lives*** Craig Heron, 2018-11-23 Craig Heron is one of Canada's leading labour historians Drawing together fifteen of Heron's new and previously published essays on working class life in Canada *Working Lives* covers a wide range of issues including politics culture gender wage earning and union organization A timely contribution to the evolving field of labour studies in Canada this cohesive collection of essays analyzes the daily experiences of people working across Canada over more than two hundred years Honest in its depictions of the historical complexities of daily life *Working Lives* raises issues in the writing of Canadian working class history especially working class realism and how it is eventually inscribed into Canada's public history Thoughtfully reflecting on the ways in which workers interact with the past Heron discusses the important role historians and museums play in remembering the adversity and milestones experienced by Canada's working class
