*Affect and Realism in Contemporary Brazilian Fiction* Karl Erik Schollhammer,2020-12-15 This book is about contemporary Brazilian fiction from the past two decades and concerned with the possibilities of literary intervention in the reality of the historical moment Thus an understanding of the actual role of literature is strategic in the definition of the contemporary and the book shows an optimism among current writers and artists with respect to the aesthetic ethical and political role of literature and art in the twentieth century In contemporary Brazilian prose two simultaneous ambitions are

often reconciled The commitment to individual or social reality is a challenge that is assumed without thereby necessarily accepting and following the molds of the traditional search for national or cultural identities This foundation is one of the constants of contemporary prose without thereby eliminating the continuous existence of a formal experimentalism that is the clearest heir of the modernist project

**Unrequited Conquests** Roland

Greene, 1999 Love poetry dominated European literature during the Renaissance Its attitudes conventions and values appeared not only in courtly settings but also in the transatlantic world where cultures were being built power exercised and policies made In this major contribution to our understanding of both the Age of Exploration and early modern lyric Roland Greene argues that love poetry was not simply a reflection of the times but a means of cultural transformation European encounters with the Americas awakened many forms of desire which pervaded the writings of explorers like Columbus and his contemporaries These experiences in turn shaped colonial society in Brazil Peru and elsewhere The New World while it could be explored conquered and exploited could never really be known leaving Europe s desire continually unrequited and the project of empire unfulfilled Using numerous poetic examples and extensive historical documentation *Unrequited Conquests* rewrites the relations between the Renaissance and colonial Latin America and between poetry and history
