From the Silent Earth Joseph Alsop, 1965 From the Silent Earth Joseph Alsop, 1962 **The Architecture of the Museum** Michaela Giebelhausen, 2003-11-08 From the Louvre to the Bilbao Guggenheim and Tate Modern the museum has had a long standing relationship with the city Examination of the meaning of museum architecture in the urban environment considering issues such as forms of civic representation urban regeneration cultural tourism and the museumification of the city itself Ranging from the seventeenth century to the present day case studies are drawn from Europe South America and Australia Contributions written by J Birksted V Fraser H Lewi D J Meijers and others **Carl W. Blegen** Jack L. Davis, Vasiliki Florou, Natalia Vogeikoff-Brogan, 2015-01-01 Carl Blegen is the most famous American archaeologist ever to work in Greece and no American has ever had a greater impact on Greek archaeology Yet Blegen unlike several others of his generation has found no biographer In part the explanation for this must lie in the fact that his life was so multifaceted not only was he instrumental in creating the field of Aegean prehistory but Blegen his wife and their best friends the Hills the family were also significant forces in the social and intellectual community of Athens Authors who have contributed to this book have each researched one aspect of Blegen s life drawing on copious documentation in the United States England and Greece The result is a biography that sets Blegen and his closest colleagues in the social and academic milieu that gave rise to the discipline of classical archaeology in Greece **Reconstructing Western Civilization** Barbara Sher Tinsley, 2006 This is a collection of eleven essays laced with humor and irony on the Dawn of Man Mesopotamia Egypt Hebrews Minoans and Mycenaens classical Greece Alexander the Great the Hellenistic world Rome s Republic and Empire and several church fathers Irenaeus Tertullian Jerome and Augustine who influenced the Primitive Church Tinsley highlights current research while showcasing themes of contemporary as well as ancient significance misogyny the manipulation of rhetoric to justify privilege the contributions of the anonymous to the well being of the famous the paradox of progress the distortion of prophecy the use and misuse of myth and other media the exploitation of spiritual intellectual physical and sexual resources the comforts and perils of provincialism versus the dangers and benefits of organization spiritual imperial or both **Greek Realities** Finley Hooper, 1978 The questions they raised and the answers they offered are still the concern of us all Finley Hooper Modernism and the Mediterranean Jan K. Birksted, 2017-07-05 Situated in a Mediterranean landscape the Maeght Foundation is a unique Modernist museum product of an extraordinary collaboration between the architect Jos uis Sert and the artists whose work was to be displayed there The architecture garden design and art offer a rare opportunity to see work in settings conceived in active collaboration with the artists themselves By focusing on the relationship between this art foundation and its Arcadian setting including Joan Mir labyrinth George Braque s pool Tal Coat s mosaic wall and Giacometti s terrace Jan K Birksted demonstrates how the building articulates many of the ideas that preoccupied this group of artists during the culminating years of their lives The study pays special attention to the ways in which architecture can shape the

experience of time and addresses the Modernist desire for wilderness and its problematic roots in the classical Mediterranean ideal In showing how the design of the Maeght Foundation is a Modernist representation of Mediterranean culture the author has developed an interpretation of architecture that accommodates not only the architect's handling of material or function but shows as well how it can be the embodiment of a particular vision of space and time

The National Union Catalogs, 1963-1964 **Legends of the Earth** Dorothy B. Vitaliano, 1973 The slower geologic processes are represented by myths associated with natural landforms rocks and minerals rivers and mountains and other outstanding features of the landscape Examples are also given to show some minor ways in which folklore and geology impinge on one another misconceptions about geologic phenomena such as earthquakes which are so prevalent as to constitute a form of modern folklore and conversely ideas long considered to be pure folklore which may prove to have some basis in scientific fact The most dramatic example of geomythology so far discovered is the theory the origin of the lost continent of Atlantis may be found in the Minoan civilization of Crete which suddenly disappeared from view around 1450 B C about the time of a tremendous eruption known to have occurred in the nearby volcano Santorin This theory variously developed by Marinatos and Galanopoulos is examined in the light of new evidence gathered in Crete by Mrs
