From Occupation To Independence:

The Eve of Paramour Gaston Vilairé, 2022-08-01 The Eve of Paramour is a mythical and romantic exercise dealing with the ontological identities of a fragmented Haitian people facing the disintegration of its homeland Guided by a phenomenology of questions as the biological Big Bang of culture a poetic manifesto and a myth of inspiration it seeks to create a mythical universe to replace the myths of the homeland threatened by degradation Polarized between desolation at home and nostalgia abroad it attempts nonetheless to offer a utopian metaphysical solution to help with the restoration of a common identity for Haitians everywhere Written in a disjunctive and often nihilistic postmodern trend it mirrors the wretched and chaotic states governing the nation of Haiti today Although inspired by the Haitian condition The Eve of Paramour finds universality in the existential ontological crisis facing all refugees and their descendants who have had their homelands destroyed by dictators wars and natural disasters

SOCIOLOGY Dr. Krishan Kumar,2022-03-15 Sociological theories are the core and underlying strength of the discipline They guide researchers in their studies They also guide practitioners in their intervention strategies And they will provide you with a basic understanding of how to see the larger social picture in your own personal life A Theory is a set of interrelated concepts used to describe explain and predict how society and its parts are related to each other The metaphor used for to illustrate the usefulness of a theory is what it is called the goggles metaphor Goggles are a set of interrelated parts that help us see things more clearly Goggles work because the best scientific components work together to magnify enlarge clarify and expand to our view of the thing we are studying Theories are sets of inter related concepts and ideas that have been scientifically tested and combined to magnify enlarge clarify and expand our understanding of people their behaviours and their societies Without theories science would be a futile exercise in statistics You can see the process by which a theory leads sociologist to perform a certain type of study with certain types of questions that can test the assumptions of the theory Once the study is administered the findings and generalizations can be considered to see if they support the theory If they do similar studies will be performed to repeat and fine tune the process If the findings and generalizations do not support the theory the sociologist rethinks and revisits the assumptions they made **Company Men** Clark Davis,2001-10-12 The story

of the early decades of American big business when white collar jobs were new and their future uncertain America s white collar workers form the core of the nation s corporate economy and its expansive middle class But just a century ago white collar jobs were new and their future anything but certain In *Company Men* Clark Davis places the corporate office at the heart of American social and cultural history examining how the nation s first generation of white collar men created new understandings of masculinity race community and success all of which would dominate American experience for decades to come *Company Men* is set in Los Angeles the nation s corporate frontier of the early twentieth century Davis shows how this California city often considered on the fringe of American society for the very reason that it was new and growing so rapidly displayed in sharp contours how America s corporate culture developed The young men who left their rural homes for southern California a century ago not only helped build one of the world s great business centers but also redefined middle class values and morals Of interest to students of business history gender studies and twentieth century culture this work focuses on the company man as a pivotal actor in the saga of modern American history Boston Medical and Surgical

Lane,2020-11-13 The Other End of the Needle demonstrates that

tattooing is more complex than simply the tattoos that people wear Using qualitative data and an accessible writing style sociologist Dave Lane explains the complexity of tattoo work as a type of social activity His central argument is that tattooing is a social world where people must be socialized manage a system of stratification create spaces conducive for labor develop sets of beliefs and values struggle to retain control over their tools and contend with changes that in turn affect their labor Earlier research has examined tattoos and their meanings Yet Lane notes prior research has focused almost exclusively on the tattoos the outcome of an intricate social process and have ignored the significance of tattoo workers themselves Tattooists as Lane dubs them make decisions but they work within a social world that constrains and shapes the outcome of their labor the tattoo The goal of this book is to help readers understand the world of tattoo work as an intricate and nuanced form of work Lane ultimately asks new questions about the social processes occurring prior to the tattoo s existence *The World's Work* Walter Hines Page, Arthur Wilson Page, 1919 A history of our time Routledge Handbook on Contemporary Egypt Robert Springborg, Amr Adly, Anthony Gorman, Tamir Moustafa, Aisha Saad, Naomi Sakr, Sarah Smierciak, 2021-03-30 Investigating key features of contemporary Egypt this volume includes Egypt s modern history politics economics the legal system environment and its media and modes of cultural expression It examines Egypt s capacities to meet developmental challenges ranging from responding to globalization and regional competition to generating sufficient economic growth and political inclusion to accommodate the interests and demands of a rapidly growing population The macrohistory of Egypt is complemented by the microhistories of specific institutions and processes that constitute separate sections in this handbook The chapters revolve around political economy it is shaped by the people and their abilities political and legal institutions organization of the economy natural and built environments and culture and communication Politics has been overwhelmingly authoritarian and coercive since the military seized power in 1952 consequently the contributions address both the causes and consequences of unbalanced civil military relations military rule and persisting authoritarianism in the political society This multidisciplinary handbook serves a dual purpose of introducing readers to Egypt s history and contemporary political economy and as a comprehensive key resource for postgraduate students and academics interested in modern Egypt
