art not materialistic gain In the merchant republic s vibrant market for art networks of gift relations and the anti economic rhetoric of the gift mingled with the growing dimension of commerce revealing a unique chapter in the interconnected history of gift giving and art making **From Rembrandt to Vermeer** Bernd Wolfgang Lindemann,2008 Class Distinctions Ronni Baer,Henk F. K. van Nierop,Marieke de Winkel,Museum of Fine Arts, Boston,Nelson-Atkins Museum of Art,2015 The Dutch Republic in the seventeenth century was home to one of the greatest flowerings of painting in the history of Western art Freed from the constraints of royal and church patronage artists created a rich outpouring of naturalistic portraits genre scenes and landscapes that circulated through a newly open market to patrons and customers at every level of Dutch society Their closely observed details of everyday life offer a wealth of information about the possessions activities and circumstances that distinguished members of social classes from the nobility to the urban poor The dazzling array of paintings gathered here from artists such as Frans Hals Jan Steen and Gerrit Dou as well as Rembrandt and Vermeer illuminated by essays by leading specialists invite us to explore a vibrant early modern society and its reflection in a golden age of brilliant painting *Small Treasures* Dennis P. Vermeer's Family Secrets Benjamin Binstock,2013-03-07 Johannes Vermeer one of the greatest Dutch painters and for some the single greatest painter of all produced a remarkably small corpus of work In Vermeer s Family Secrets Benjamin Binstock revolutionizes how we think about Vermeer s work and life Vermeer The Sphinx of Delft is famously a mystery in art despite the common claim that little is known of his biography there is actually an abundance of fascinating information about Vermeer s life that Binstock brings to bear on Vermeer s art for the first time he also offers new interpretations of several key documents pertaining to Vermeer that have been misunderstood Lavishly illustrated with more than 180 black and white images and more than sixty color plates the book also includes a remarkable color two page spread that presents the entirety of Vermeer s oeuvre arranged in chronological order in 1 20 scale demonstrating his gradual formal and conceptual development No book on Vermeer has ever done this kind of visual comparison of his complete output Like Poe s purloined letter Vermeer s secrets are sometimes out in the open where everyone can see them Benjamin Binstock shows us where to look Piecing together evidence the tools of art history and his own intuitive skills he gives us for the first time a history of Vermeer s work in light of Vermeer s life On almost every page of Vermeer s Family Secrets there is a perception

or an adjustment that rethinks what we know about Vermeer his oeuvre Dutch painting and Western Art Perhaps the most arresting revelation of Vermeer's Family Secrets is the final one in response to inconsistencies in technique materials and artistic level Binstock posits that several of the paintings accepted as canonical works by Vermeer are in fact not by Vermeer at all but by his eldest daughter Maria How he argues this is one of the book's many pleasures

Art and Autoradiography Maryan W. Ainsworth, 1982 This book reports the most significant results of a scientific study of thirty nine paintings in The Metropolitan Museum of Art The works under investigation are by seventeenth century Dutch and Flemish artists mainly Rembrandt and his school Art and Autoradiography publishes data obtained by the use of a new technique neutron activation autoradiography Through this method it is now possible to study the substructure of paintings their genesis and their condition in far greater detail than had been possible with the conventional techniques of X ray radiography and infrared photography As a result an artist's creative process can now be studied very closely Autoradiography provides significant information for resolving questions about an artist's oeuvre and about workshop variations attribution dating and even doubted authenticity Metropolitan Museum of Art website

Vermeer's Wager Ivan Gaskell, 2000-10 Vermeer's Wager stands at the intersection of art history and criticism philosophy and museology Using a familiar and celebrated painting by Johannes Vermeer as a case study Ivan Gaskell explores what it might mean to know and use a work of art He argues that art history as generally practiced while successfully asserting certain claims to knowledge fails to take into account aspects of the unique character of works of art Our relationship to art is mediated not only through reproduction particularly photography but also through displays in museums In an analysis that ranges from seventeenth century Holland through mid nineteenth century France to artists and curators practice today Gaskell draws on his experience of Dutch art history philosophy and contemporary art criticism Anyone with an interest in Vermeer and the afterlife of his art will value this book as will all who think seriously about the role of photography in perception and the core purposes of art museums
