Copland,2005-04-26 Ian Copland s aim in this book is to explain why during the colonial period the erstwhile Indian princely states experienced per capita significantly less Muslim Sikh and Muslim Hindu communal violence than the provinces of British India and how the enviable situation of the states in this respect became eroded over time His answers to these questions shed new light on the growth of popular organisations in princely India on relations between the Hindu and Sikh princes and the communal parties in British India and on governance as a factor in communal riot production and prevention *Federal Tax Information on Community Property*,1990 **Home, School, and Community** ,1924 Journal of motives in education and public welfare *The Protection of Community Interests in the International Law of State Responsibility* Julia Lemke,2025-04-29 This book redefines the traditional understanding of state responsibility It presents a compelling argument that international law s effectiveness hinges on its ability to protect not only state interests but also those of the global community Drawing from principles established in the Articles on the Responsibility of States for Internationally Wrongful Acts ARSIWA the book examines how states conceptualised as rational actors navigate collective action challenges Through a law and economics

lens it sheds light on the role of international state responsibility in providing global public goods and safeguarding common pool resources This interdisciplinary book offers valuable insights and normative suggestions for enhancing the ARSIWA s efficacy in promoting community interests It will appeal to scholars and practitioners in public international law law and economics and international relations interested in a better understanding of international law s role in tackling pressing global issues **Resources in Education** ,1996-10
