

DEMOCRATS VS. REPUBLICANS

Republicans generally support the idea that a government should be small and not play a big role in society

Republicans support increase on military spending and defense. They are also very firm on "no gun control laws"

Generally more conservative on same sex marriage laws, anti-abortion laws to contraception use

Democrats generally believe governments should have a more active role in society in order to help it grow

Democrats prefer cutting back on military spending and are generally anti-military force against other countries. They advocate for stricter gun control laws

Democrats typically advocate for same sex marriage, and believe women have freedom to make decisions for their bodies

From The Rights Of Man To The Republican Idea:

Political Philosophy 3 Luc Ferry, Alain Renaut, 1992-09-15 What is the common element linking the right to health care and the right of free speech the right to leisure and the right of free association the right to work and the right to be protected Debates on the rights of man abound in the media today but all too often they remain confused and fail to recognize the fundamental political conceptions on which they hinge Several French theorists have recently attempted a new account of rights one that would replace the discredited Marxist view of rights as mere formalities concealing the realities of class domination In this final volume of Political Philosophy Luc Ferry and Alain Renaut summarize these efforts and put forward their own set of arguments On Love Luc Ferry, 2013-08-27 All the great ideals that gave life meaning in earlier societies God the nation revolution freedom democracy are in disarray today questioned by many and rejected by those who

have lost faith in them But there is another value rooted in the birth of the modern family and in the passage from traditional to modern marriage that has transformed our lives in profound and often unrecognized ways love It affects not only our personal lives but many aspects of our social and collective life too from art and education to politics In this book Luc Ferry shows how the quiet rise of love as the central value in modern societies has created a new principle of meaning and a new definition of the good life that requires a completely different kind of philosophical thinking It forms the basis for a new philosophy for the twenty first century and a new kind of humanism for the modern world not a humanism of reason and rights but a humanism of solidarity and sympathy The ideal that this new humanism realizes is no longer that of nationalisms and revolutions of the perpetrating of organized violence in the name of deadly principles that are pursued over and above humanity Rather it is about preparing and ensuring a future for those we love most our future generations **Speech of**

time here is the full definitive story of the movement for voting rights for American women of every race told through the voices of the women and men who lived it Here are the most recognizable figures in the campaign for women s suffrage like Elizabeth Cady Stanton and Susan B Anthony but also the black Chinese and American Indian women and men who were not only essential to the movement but expanded its directions and aims Here too are the anti suffragists who worried about where the country would head if the right to vote were universal Expertly curated and introduced by scholar Susan Ware each piece is prefaced by a headnote so that together these 100 selections by over 80 writers tell the full history of the movement from Abigail Adams to the 1848 Declaration of Sentiments to the ratification of the Nineteenth Amendment in 1920 and the limiting of suffrage under Jim Crow Importantly it carries the story to 1965 and the passage of the Voting and Civil Rights Acts which finally secured suffrage for all American women Includes writings by Ida B Wells Mabel Lee Margaret Fuller Sojourner Truth Frances Ellen Watkins Harper Frederick Douglass presidents Grover Cleveland on the anti suffrage side and Woodrow Wilson urging passage of the Nineteenth Amendment as a wartime measure Jane Addams and Charlotte Perkins Gilman among many others

Britain and its internal others, 1750-1800 Dana Y. Rabin, 2017-10-01 The rule of law an ideology of equality and universality that justified Britain s eighteenth century imperial claims was the product not of abstract principles but imperial contact As the Empire expanded encompassing greater religious ethnic and racial diversity the law paradoxically contained and maintained these very differences This book revisits six notorious incidents that occasioned vigorous debate in London s courtrooms streets and presses the Jewish Naturalization Act and the Elizabeth Canning case 1753 54 the Somerset Case 1771 72 the Gordon Riots 1780 the mutinies of 1797 and Union with Ireland 1800 Each of these cases adjudicated the presence of outsiders in London from Jews and Gypsies to Africans and Catholics The demands of these internal others to equality before the law drew them into the legal system challenging longstanding notions of English identity and exposing contradictions in the rule of law
