and her questioning of relationships among author world and text Penberthy also reconstructs the early years of Niedecker's career looking particularly at her surrealism and its impact on her poems The book is not only about the impact Zukofsky had on Niedecker's work it is also about a woman poet's struggle for recognition both within and without **From this**

A Critical Edition of the Collected Poems of Lorine Niedecker Tandy Jennifer Sturgeon, 1990

Revealing Lives Susan Groag Bell, Marilyn Yalom, 1990-10-18 In this book gender is the lens through which autobiography and biography are scrutinized The authors show what is revealed when they magnify the gendered aspects of both men s and women s writing The eternal questions of identity choice responsibility happiness tragedy and even death are interpreted in terms of gender analysis The book presents a sequence of studies from the early nineteenth to the late twentieth century that includes individuals such as American poet Anne Sexton and German writers Christa Wolf and Paul Celan and groups such as nineteenth century Mexican women and members of the British working class It extends the paradigm of self reflexive literature to include and highlight

the overlap between autobiography and biography especially in the case of women who often wrote their lives obliquely through the biographies of their famous male relatives e g Ad le Hugo and Anne Thackeray Ritchie The authors refuse to accept a monolithic conception of gender The studies of Charles and Mary Lamb Nadezhda Durova and John Stuart Mill demonstrate that even in the nineteenth century a binary gender system is inadequate as a mode of approach to actual life stories

On the Outskirts of Form Michael Davidson, 2012-01-01 This new book by eminent scholar Michael Davidson gathers his essays concerning formally innovative poetry from modernists such as Mina Loy George Oppen and Wallace Stevens to current practitioners such as Cristina Rivera Garza Heriberto Ypez Lisa Robertson and Mark Nowak The book considers poems that challenge traditional poetic forms and in doing so trouble normative boundaries of sexuality subjectivity gender and citizenship At the heart of each essay is a concern with the politics of form the ways that poetry has been enlisted in the constitution and critique of community Davidson speculates on the importance of developing cultural poetics as an antidote to the personalist and expressivist treatment of postwar poetry A comprehensive and versatile collection On the Outskirts of Form places modern and contemporary poetics in a cultural context to reconsider the role of cultural studies and globalization in poetry
