Frontier Stories Of The Klamath Country:

Frontier Stories of the Klamath Country Carrol B. Howe, 1989 *The Center of the World, the Edge of the World*
Frederick L. Brown, 2011 **Lava Beds National Monument** Lee Juillerat, 2015 The region in far northeastern California encompassed by Lava Beds National Monument is often called the Land of Burnt Out Fires The name reflects a landscape created by fiery volcanic forces including cataclysmic events that created more than 700 lava tube caves and an aboveground landscape shaped and fractured by lava flows and other geologic turmoil Despite its tortured landscape the region has also been a place of human habitation for thousands of years Early natives traveled through the lava beds as part of their seasonal travels for food and shelter The Modoc Indians knowledge of that landscape a natural lava fortress now known as Captain Jack s Stronghold was used during the Modoc War of 1872 and 1873 Modocs settlers and others who followed sheep ranchers homesteaders cave discoverers tourists spelunkers and US Forest Service and National Park Service managers have played prominent roles in creating the region s and Lava Beds National Monument s always evolving human history

Beyond the Frontier Joseph Montague, 1927 **The Golden Frontier** Herman Francis Reinhart, 2014-08-27 The gold rush was Herman Francis Reinhart s life for almost twenty years From the summer of 1851 when as a boy in his late teens he traveled the Oregon trail to California until a January day in 1869 when he climbed aboard an eastbound train at Evanston Wyoming he was a part of every gold discovery that stirred the West Reinhart dipped his pan in the streams of northern California and western Oregon in Humbug Creek Indian Creek Rogue River and Sucker Creek He made the arduous and dangerous overland journey through Indian occupied western Washington and British Columbia to find the Fraser River gold even more elusive than that farther south With his teams and wagons he traversed all of the inland mine areas from Walla Walla to Fort Benton from Boise Basin to South Pass City Reinhart s German common sense soon turned him from actual mining to other sources of income but whatever his labor was the mines were always the focal point of his activities When he operated a bakery and saloon it was a business whose customers were miners whose transactions were more likely to involve gold dust than legal tender and whose gambling tables saw the exchange of mining fortunes When he operated a whipsaw mill the timbers cut there were used by miners for sluices and cradles For a while Reinhart farmed but planting and harvesting suffered from interruption by frequent expeditions to the mines And when he prospered as a teamster it was to and from the mining towns that he hauled passengers supplies and equipment The men who like Herman Francis Reinhart hopefully followed the golden frontier were not an articulate group and the written records of their lives are few and fragmentary But Reinhart in his later years recorded his experiences in five long narrow hardback ledgers Many years after he died his daughter gave the ledgers to a friend in Chanute Kansas Nora Cunningham who read the narrative became fascinated by it and typed it for publication Reinhart s account written in a grammar and language all his own is not a record of the historian s West but of the West of the individual miner The pages are filled with the details of day to day life of the

miners the subjects that interested them the problems that plagued them their fun and feuding their frustrations and hopes Edited by an authority of the history of the West it is a book that will offer exciting reading to casual readers and scholars alike **The Klamath Project** Eric A. Stene,1994 *Oregon Historical Quarterly* Oregon Historical Society,2014

cultures that emerged in the Far West during the last quarter of the century and late nineteenth and early twentieth century accounts of missionaries and teachers on Indian reservations Most of the writers were white literate women who asserted their own kind of cultural authority over the lands and people they encountered Their accounts are not only set in relation to a masculine frontier myth but also investigated for clues about their own involvement with territorial expansion By exploring the various ways in which women writers actively contributed to and at times rejected the development of a national narrative of territorial expansion based on empire building and colonization the author shows how their accounts are implicated in expansionist processes at the same time that they formulate positions of innocence and detachment Georgi Findlay has drawn on American studies scholarship feminist criticism and studies of colonial discourse to examine the strategies of women s representation in writing about the West in ways that most theorists have not She critiques generally accepted stereotypes and assumptions both about women s writing and its difference of view in particular and about frontier discourse and the rhetoric of westward expansion in general as she offers a significant contribution to literary studies of the West that will challenge scholars across a wide range of disciplines The WPA Guide to Oregon Federal Writers' Project,2013-10-31 During the 1930s in the United States the Works Progress Administration developed the Federal Writers Project to support writers and artists while making a national effort to document the country s shared history and culture The American Guide series consists of individual guides to each of the states Little known authors many of whom would later become celebrated literary figures were commissioned to write these important books John Steinbeck Saul Bellow Zora Neale Hurston and Ralph Ellison are among the more than 6 000 writers editors historians and researchers who documented this celebration of local histories Photographs drawings driving tours detailed descriptions of towns and rich cultural details exhibit each state s unique flavor The WPA Guide to Oregon contains some quaint features including a chapter entitled Tall Tales and Legends and a recipe for huckleberry cakes The impact of the depression on the people of the Beaver State is discussed and the beauty of the state is emphasized from the tips of the Cascadian Mountains to the agricultural region of Willamette Valley **History of Butte County, California** George C. Mansfield,1918 Landscapes of Promise William G. Robbins,2009-11-23 Landscapes of Promise is the first comprehensive environmental history of the early years of a state that has long been associated with environmental protection Covering the period from early human habitation to the end of World War II William Robbins shows that the reality of Oregon s environmental history involves far more than a discussion of timber cutting and land use planning Robbins demonstrates that ecological change is not only a creation of modern industrial society Native Americans altered their environment in a number of ways including the planned annual burning of grasslands and light burning of understory forest debris Early Euro American settlers who thought they were taming a virgin wilderness were merely imposing a new set of alterations on an already modified landscape Beginning with the first 18th century traders on the Pacific Coast alterations to Oregon s landscape were closely linked to the interests of global market forces Robbins

uses period speeches and publications to document the increasing commodification of the landscape and its products. Environment melts before the man who is in earnest wrote one Oregon booster in 1905 reflecting prevailing ways of thinking. In an impressive synthesis of primary sources and historical analysis Robbins traces the transformation of the Oregon landscape and the evolution of our attitudes toward the natural world. **The Last American Frontier** Frederic L. Paxson, 2019-11-21. In *The Last American Frontier* Frederic L. Paxson delves into the transformative period of American history from the late 19th century into the early 20th century, a time marked by the closing of the frontier and its profound implications on national identity. Paxson employs a narrative style rich with historical detail, encapsulating the tales of pioneers, settlers, and the indigenous populations whose lives were irrevocably altered during this era. His work synthesizes varied sources and perspectives, positioning the frontier as not merely a geographical boundary but a complex cultural landscape that shaped American values and ideals. The text is meticulously researched, making it a significant contribution to both historical scholarship and American studies. Frederic L. Paxson, a notable historian of early American history, accessed this rich tapestry of narratives fueled by his own Midwestern upbringing and academic pursuits at the University of Michigan. His commitment to capturing the essence of American experiences in relation to frontier dynamics allowed him to write with authority. Paxson effectively illuminates the societal and cultural shifts that arose as America transitioned from a frontier society to a more industrialized nation. This book is essential reading for anyone interested in understanding the complexities of American history and identity. Paxson's insightful analysis and engaging prose will captivate both scholars and casual readers alike, encouraging them to reflect on the lasting impacts of the frontier era on contemporary America. Oregon, End of the Trail, 1940. *The Story of the Red Man* Flora Warren Seymour, 1929. **Oregon Writers' Program** (Or.), 1940. **An Illustrated History of Central Oregon, Embracing Wasco, Sherman, Gilliam, Wheeler, Crook, Lake and Klamath Counties, State of Oregon** Arthur P.
