Glass, 1999 The first documented discovery of gold in the United States was in 1799 at John Reed's farm in Cabarrus County This book traces the history of gold mining in North Carolina from that discovery to the twentieth century The authors present case histories of John Reed and his mine and of the Gold Hill mining district in Rowan County along with material on other gold mining activity in the state **Hidden History**

Schiebinger, Claudia Swan, 2016-03-01 In the early modern world botany was big science and big business critical to Europe's national and trade ambitions Tracing the dynamic relationships among plants peoples states and economies over the course of three centuries this collection of essays offers a lively challenge to a historiography that has emphasized the rise of modern botany as a story of taxonomies and pure systems of classification Charting a new map of botany along colonial coordinates reaching from Europe to the New World India Asia and other points on the globe Colonial Botany explores how the study naming cultivation and marketing of rare and beautiful plants resulted from and shaped European voyages conquests global trade and scientific exploration From the earliest voyages of discovery naturalists sought profitable plants for king and country personal and corporate gain Costly spices and valuable medicinal plants such as nutmeg tobacco sugar Peruvian bark peppers cloves cinnamon and tea ranked prominently among the motivations for European voyages of discovery At the same time colonial profits depended largely on natural historical exploration and the precise identification and effective cultivation of profitable plants This volume breaks new ground by treating the development of the science of botany in its colonial context and situating the early modern exploration of the plant world at the volatile nexus of science commerce and state politics Written by scholars as international as their subjects Colonial Botany uncovers an emerging cultural history of plants and botanical practices in Europe and its possessions *Exploring the Geology of the Carolinas* Kevin G. Stewart, Mary-Russell Roberson, 2015-12-01 How were the Appalachian Mountains formed Are the barrier islands moving Is there gold in the Carolinas The answers to these questions and many more appear in this reader friendly guide to the geology of North Carolina and South Carolina Exploring the Geology of the Carolinas pairs a brief geological history of
