Gold Of Troy Searching For Homers Fabled City:

The Gold of Troy Irina Aleksandrovna Antonova, Vladimir Tolstikov, Vladimir P. Tolstikov, Michail Yu Treister, Mikhail Treister, 1996 The treasures of ancient Troy are a collection of gold and silver ornaments jewelry and precious gems dating back to the 12th century BC They were unearthed by the German archaeologist Heinrich Schliemann in 1873 During the years of World War II the treasures disappeared from the Berlin Museum of Archaeology and were feared destroyed Hidden from the world for 50 years their recovery is celebrated in this volume published in conjunction with an exhibition to be held at the Pushkin Museum of Fine Arts Moscow in 1996

Finding the Walls of Troy Susan Heuck Allen, 2023-09-01 The relentlessly self promoting amateur archaeologist Heinrich Schliemann took full credit for discovering Homer s Troy over one hundred years ago and since then generations have thrilled to the tale of his ambitions and achievements But Schliemann gained this status as an archaeological hero partly by deliberately eclipsing the man who had launched his career Now at long last Susan Heuck Allen puts the record straight in this fascinating archaeological adventure that restores the British expatriate Frank Calvert to his rightful place in the story of the identification and excavation of Hisarlık the site now thought to be Troy as described in the Iliad Frank Calvert had lived in the Troad in the northwest corner of Asia Minor excavating there for fifteen years before Schliemann arrived and learning the local topography well He was the first archaeologist to test the hypothesis that Hisarlık was the Troy of Hector and Helen So that he would have unrestricted access to the site he purchased part of the mound and was the first archaeologist to conduct excavations there Running out of funds he later interested Schliemann in the site The thankless Schliemann stole Calvert s ideas exploited his knowledge and advice and finally stole Calvert s glory in part by slandered him and denigrating his work Allen corrects the record and does justice to a man who was a victim of his own integrity while giving a balanced treatment of Schliemann s true accomplishments This meticulously researched book tells the story of Frank Calvert s development as an archaeologist his adventures and discoveries It focuses on the twists and turns of his turbulent relationship with the perfidious Schliemann the resulting gains for archaeology and the successful conclusion of their common quest Allen has brought together a wide range of relevant published material as well as unpublished sources from archives diaries letters and personal interviews to tell this gripping story The relentlessly self promoting amateur archaeologist Heinrich Schliemann took full credit for discovering Homer s Troy over one hundred years ago and since then generations have thrilled to the tale of his ambitions and achievements But Schliemann gain

Display Abigail Baker, 2019-10-03 This book explores what visitors saw at the Trojan exhibition and why its contents including treasure plain pottery and human remains captured imaginations and divided opinions When Schliemann's Trojan collection was first exhibited in 1877 no one had seen anything like it Schliemann claimed these objects had been owned by participants in the Trojan War and that they were tangible evidence that Homer's epics were true Yet these objects did not reflect the heroic past imagined by Victorians and a fierce controversy broke out about the collection's value and significance Schliemann invited Londoners to see the very unclassical objects on display as the roots of classical culture Artists poets historians race theorists bankers and humourists took up this challenge but their conclusions were not always to Schliemann's liking Troy's appeal lay in its materiality visitors could apply analytical techniques from aesthetic appreciation to skull measuring to the collection and draw their own conclusions This book argues for a deep examination of museum exhibitions as a constructed spatial experience which can transform how the past is seen This new angle on a famous archaeological discovery shows the museum as a site of controversy where hard evidence and wild imagination came together to form a lasting image of Troy

AEGIS Zetta Theodoropoulou Polychroniadis, Doniert Evely, 2015-11-30 Festschrift in honour of Matti Egon Papers range from prehistory to the modern day on Greece and Cyprus Neolithic animal butchery rubs shoulders with regional assessments of the end of the Mycenaean era Hellenistic sculptors and lamps life in Byzantine monasteries and the politics behind modern museum exhibitions
