Jewish history none shines brighter than Maimonides 1138 1204 He was a rabbi jurist Talmudist philosopher physician astronomer and communal leader and produced a myriad of writings on halakhah theology medicine and philosophy that have attained near canonical status We have more source material from or about Maimonides than possibly any other Jewish figure in the medieval period and more has been written about him than perhaps any other Jew in history Epithets like the Great Eagle and the Western Light and the glorifying statement From Moses to Moses none arose like Moses reflect centuries of authority influence and fascination The Golden Path traces the impact and reception of Maimonides and his thought through a study of materiality specifically the production and dissemination of textual objects It consists of two sections a descriptive catalogue of an exceptional private collection of manuscripts and rare books and essays from leading scholars on aspects of Maimonides s cultural context influence and appropriation through disparate eras and geopolitical spheres Combining intellectual reception and book historical research the heavily illustrated volume explores his effects in assorted social and political circumstances across diverse intellectual and cultural environments **Piracy and**

**Dutch Golden Age** Helmer J. Helmers, Geert H. Janssen, 2018-08-23 An accessible introduction to the political economic literary and artistic heritage of the Dutch Republic in the seventeenth century Capitalism and Cartography in the Dutch

Golden Age Elizabeth A. Sutton, 2015-06-05 In *Capitalism and Cartography in the Dutch Golden Age* Elizabeth A. Sutton explores the fascinating but previously neglected history of corporate cartography during the Dutch Golden Age from ca 1600 to 1650. She examines how maps were used as propaganda tools for the Dutch West India Company in order to encourage the commodification of land and an overall capitalist agenda. Building her exploration around the central figure of Claes Jansz Vischer, an Amsterdam-based publisher closely tied to the Dutch West India Company, Sutton shows how printed maps of Dutch Atlantic territories helped rationalize the Dutch Republic's global expansion. Maps of land reclamation projects in the Netherlands as well as the Dutch territories of New Netherland (now New York) and New Holland (Dutch Brazil) reveal how print media were used both to increase investment and to project a common narrative of national unity. Maps of this era showed those boundaries, commodities, and topographical details that publishers and the Dutch West India Company, merchants, and governing Dutch elite deemed significant to their agenda. In the process, Sutton argues, they perpetuated and promoted modern state capitalism.

*The Public and Private in Dutch Culture of the Golden Age* Arthur K. Wheelock (Jr.), Arthur K. Wheelock, Adele F. Seeff, 2000 This volume of essays derives from a memorable interdisciplinary symposium. At issue were various fundamental questions about the nature of Dutch sixteenth and seventeenth-century society that fall under three broad categories: civic culture, art, and religion. The fourteen papers presented in this volume offer a number of fascinating insights into these and other questions that taken together greatly enrich our perception and understanding of this rich and varied society.

**Reading the Book of Nature in the Dutch Golden Age, 1575-1715** Eric Jorink, 2010-10-25 Traditionally, Dutch scientific culture of the Golden Age is regarded as rational, pragmatic, and utilitarian. The role of Christiaan Huygens, Johannes Swammerdam, and Antoni van Leeuwenhoek in the so-called Scientific Revolution was recognised long ago, as was the fact that the revolutionary philosophy of René Descartes made its first impact in the Netherlands. This book challenges the traditional picture. First, it shows how nature was regarded as a second book of God, next to the Bible. For many, contemplating, investigating, representing, and collecting natural objects was a religious activity. Secondly, this book demonstrates that the deconstruction of the old view of nature was partly caused by the pioneering exegetical research conducted in the Dutch Republic, more specifically the emergence of radical biblical criticism.

**Picturing Men and Women in the Dutch Golden Age** Muizelaar Klaske, Klaske Muizelaar, Derek L.

Phillips, 2003-01-01 Taking as their premiss the subjective experience of art, the authors look at how paintings by Rembrandt, Vermeer, and other masters were displayed and comprehended in the 17th century.

*The Story of Joseph in Spanish Golden Age Drama* Michael D. McGaha, 1998 This book includes critical studies and English translations of six different dramatic versions of the biblical story of Joseph and his brothers, written during the century and a half from about 1535 to 1685, that is, from the

earliest attempts at full length drama to the end of the classical period which is usually dated around the year of Calderon de la Barca's death in 1681 Three of the plays are full length dramas while the rest belong to the peculiarly Spanish genre of one act religious plays known as autos sacramentales Comparison of these six variations on a theme enhances our understanding of the gradual evolution of both the auto and the comedia full length genres during the Golden Age In addition to the biblical story Spanish playwrights drew upon a rich tradition of retellings of the Joseph story written during the Middle Ages by Muslim Jewish and Christian Spaniards Each of these ethnic and religious groups developed new interpretations of the story dictated by the historical circumstances of a particular time and place yet each was influenced by the versions created by the others Ultimately this grudging collaboration produced a uniquely multicultural version of the story

**Calvinists and Catholics during Holland's Golden Age** Christine Kooi, 2012-04-30 This book examines the social political and religious relationships between Calvinists and Catholics during Holland's Golden Age Although Holland the largest province of the Dutch Republic was officially Calvinist its population was one of the most religiously heterogeneous in early modern Europe The Catholic Church was officially disestablished in the 1570s yet by the 1620s Catholicism underwent a revival flourishing in a semi clandestine private sphere The book focuses on how Reformed Protestants dealt with this revived Catholicism arguing that confessional coexistence between Calvinists and Catholics operated within a number of contiguous and overlapping social political and cultural spaces The result was a paradox a society that was at once Calvinist and pluralist Christine Kooi maps the daily interactions between people of different faiths and examines how religious boundaries were negotiated during an era of tumultuous religious change *Humour in Dutch Culture of the Golden Age* R. Dekker, 2001-04-03 The humorous side of Dutch culture of the seventeenth century is obscured by a change that took place around 1670 Religious treatises and books of manners warning against laughter contributed to a new image that of the humourless Calvinist Dutch Mainly based on a manuscript with some two thousand jokes the lost laughter of the Golden Age is reconstructed and analyzed Most jokes are crude and obscene and they throw new light on attitudes towards sexuality religion and other aspects of life

**State Communication and Public Politics in the Dutch Golden Age** Arthur der Weduwen, 2024-07-19 State Communication and Public Politics in the Dutch Golden Age describes the political communication practices of the authorities in the early modern Netherlands Der Weduwen provides an in depth study of early modern state communication the manner in which government sought to inform its citizens publicise its laws and engage publicly in quarrels with political opponents These communication strategies including proclamations the use of town criers and the printing and affixing of hundreds of thousands of edicts underpinned the political stability of the seventeenth century Dutch Republic Based on systematic research in thirty two Dutch archives this book demonstrates for the first time how the wealthiest most literate and most politically participatory state of early modern Europe was shaped by the communication of political information It makes a decisive case for the importance of communication to the relationship

between rulers and ruled and the extent to which early modern authorities relied on the active consent of their subjects to legitimise their government

**Rembrandt's Faith: Church and Temple in the Dutch Golden Age**, Nicolaes Witsen and Shipbuilding in the Dutch Golden Age A. J. Hoving, Diederick Wildeman, 2012-03-29 In 1671 Dutch diplomat and scientist Nicolaes Witsen published a book that served among other things as an encyclopedia for the shell first method of ship construction In the centuries since Witsen's rather convoluted text has also become a valuable source for insights into historical shipbuilding methods and philosophies during the Golden Age of Dutch maritime trade However as Andr Wegener Sleeswyk's foreword notes Witsen's work is difficult to access not only for its seventeenth century Dutch language but also for the vagaries of its author's presentation Fortunately for scholars and students of nautical archaeology and shipbuilding this important but chaotic work has now been reorganized and elucidated by A J Hoving and translated into English by Alan Lemmers In Nicolaes Witsen and Shipbuilding in the Dutch Golden Age Hoving master model builder for the Rijksmuseum in Amsterdam sorts out the steps in Witsen's method for building a seventeenth century pinas by following them and building a model of the vessel Experimenting with techniques and materials conducting research in other publications of the time and rewriting as needed to clarify and correct some vital omissions in the sequence Hoving makes Witsen's work easier to use and understand Nicolaes Witsen and Shipbuilding in the Dutch Golden Age is an indispensable guide to Witsen's work and the world of his topic the almost forgotten basics of a craftsmanship that has been credited with the flourishing of the Dutch Republic in the seventeenth century To view a sample of Ab Hoving's ship model drawings please visit <http://nautarch.tamu.edu/shiplab/AbHoving.htm>

*The Golden Mean of Languages* Alisa van de Haar, 2019-09-02 In *The Golden Mean of Languages* Alisa van de Haar sheds new light on the debates regarding the form and status of the vernacular in the early modern Low Countries where both Dutch and French were local tongues The fascination with the history grammar spelling and vocabulary of Dutch and French has been studied mainly from monolingual perspectives tracing the development towards modern Dutch or French Van de Haar shows that the discussions on these languages were rooted in multilingual environments in particular in French schools Calvinist churches printing houses and chambers of rhetoric The proposals that were formulated there to forge Dutch and French into useful forms were not directed solely at uniformization but were much more diverse
