Unity, 1905 *Human Dignity* George Kateb, 2011-01-03 We often speak of the dignity owed to a person And dignity is a word that regularly appears in political speeches Charters are promulgated in its name and appeals to it are made when people all over the world struggle to achieve their rights But what exactly is dignity When one person physically assaults another we feel the wrong demands immediate condemnation and legal sanction Whereas when one person humiliates or thoughtlessly makes use of another we recognize the wrong and hope for a remedy but the social response is less clear The injury itself may be hard to quantify Given our concern with human dignity it is odd that it has received comparatively little scrutiny Here George Kateb asks what human dignity is and why it matters for the claim to rights He proposes that dignity is an existential value that pertains to the identity of a person as a human being To injure or even to try to efface someone's dignity is to treat that person as not human or less than human as a thing or instrument or subhuman creature Kateb does not limit the notion of dignity to individuals but extends it to the human species The dignity of the human species rests on our uniqueness among all other species In the book's concluding section he argues that despite the ravages we have inflicted on it nature would be worse off without humanity The supremely fitting task of humanity can be seen as a stewardship of nature This secular defense of human dignity the first book length attempt of its kind crowns the career of a distinguished political thinker
