*Defining the Family* Janet L. Dolgin, 1999-08 Defining the Family Law Technology and Reproduction in an Uneasy Age provides a sweeping portrait of the family in American law from the nineteenth century to the present The family today has come to be defined by individuality and choice Pre nuptial agreements non marital cohabitation gay and lesbian marriages have all profoundly altered our ideas about marriage and family In the last few years reproductive technology and surrogacy have accelerated this process of change at a breathtaking rate Once simple questions have taken on a dizzying complexity Who are the real parents of a child What are the relationships and responsibilities between a child the woman who carried it to term and the egg donor Between viable sperm and the wife of a dead donor The courts and the law have been wildly inconsistent and indecisive when grappling with these questions Should these cases be decided in light of laws governing contracts and property Or it is more appropriate to act in the best interests of the child even if that child is

unborn or even unconceived No longer merely settling disputes among family members the law is now seeing its own role expand to the point where it is asked to regulate situations unprecedented in human history Janet L Dolgin charts the response of the law to modern reproductive technology both as it transforms our image of the family and is itself transformed by the tide of social forces *Distinguished Family's Marriage Plot* Yi Bu,2020-07-29 To a woman marrying was the same as reincarnating a second time However what if she misconceived it She was at the bottom of the ravine and he had sent her to heaven She was lost and he had led her to new life She thought he loved her But when she fell in love with him and gave everything for him she found that everything was a mystery Flowers and killings love and hatred they all had their own reasons *LECTURE NOTES IN SOCIAL SCIENCES AND HUMANITIES: FRONTIER RESEARCH* Marcus Stück,Shukran Abdul Rahman,Sonny Andrianto,Bambang Sumintono,Muwaga Musa,2022-10-03 This e book presents selected papers from social sciences and humanities research area The aim of this lecture notes is to provide a platform to the researchers and practitioners from both academia as well as industry to meet and share cutting edge development in the field This e book will serve as a valuable reference resource for academics and researchers across the globe

**Behind Ghetto Walls** Michael Novak,2017-09-08 This book is about the family lives of some 10 000 children and adults who live in an all Negro public housing project in St Louis The Pruitt Igoe project is only one of the many environments in which urban Negro Americans lived in the 1960s but the character of the family life there shares much with the family life of lower class Negroes as it has been described by other investigators in other cities and at other times in Harlem Chicago New Orleans or Washington D C This book is primarily concerned with private life as it is lived from day to day in a federally built and supported slum The questions which are

treated here have to do with the kinds of interpersonal relationships that develop in nuclear families the socialization processes that operate in families as children grow up in a slum environment the informal relationships of children and adolescents and adults with each other and finally the world views the existential framework arising from the life experiences of the Pruitt Igoeans and the ways they make use of this framework to order their experiences and make sense out of them The lives of these persons are examined in terms of life cycles Each child there is born into a constricted world the world of lower class Negro existence and as he grows he is shaped and directed by that existence through the day to day experiences and relationships available to him The crucial transition from child of a family to progenitor of a new family begins in adolescence and for this reason the book pays particular attention to how each new generation of parents expresses the cultural and social structural forces that formed it and continue to constrain its behavior This book in short is about intimate personal life in a particular ghetto setting It does not analyze the larger institutional social structural and ideological forces that provide the social economic and political context in which lower class Negro life is lived These larger macro sociological forces are treated in another volume based on research in the Pruitt Igoe community However this book does draw on the large body of literature on the structural position of Negroes in American society as background for its analysis of Pruitt Igoe private life

Child, Adolescent and Family Development Phillip T.
