contributors offers possible evidence of ancient immigrants lost technologies and places of power in ancient America long before the voyages of Christopher Columbus While digging out basements near Los Angeles homeowners unearth a 3 000 year old Phoenician altar A treasure hunter in Ohio finds more than he expected when his metal detector locates an eastern Mediterranean pendant from 1000 BCE Two caches of coins minted in Imperial Rome surface along the Ohio River These are just a few of the examples that illustrate theories that there were foreign influences shaping the prehistory of the Americas

Advanced Civilizations of Prehistoric America Frank Joseph, 2009-12-21 The examination of four great civilizations that existed before Columbus's arrival in North America offers evidence of sustained contact between the Old and New Worlds Describes the cultural splendor political might and incredibly advanced technology of these precursors to our modern age Shows that North America's first civilization the Adena was sparked by ancient Kelts from Western Europe and explores links between Hopewell Mound Builders and prehistoric Japanese seafarers Before Rome ruled the Classical World gleaming stone pyramids stood amid smoking iron foundries from North America's Atlantic seaboard to the Mississippi River On its east bank across from today's St Louis Missouri flourished a walled city more populous than London was one thousand years ago with a pyramid larger at its base than Egypt's Great Pyramid During the 12th century hydraulic engineers laid out a massive irrigation network spanning the American Southwest that if laid end to end would stretch from Phoenix Arizona to the Canadian border On a scale to match they built a five mile wide dam from ten million cubic yards of rock While Europe stumbled through the Dark Ages a metropolis of weirdly shaped multistory superstructures precisely aligned to the sun and moon sprawled across the New Mexico Desert Who was responsible for such colossal achievements Where did their mysterious builders come from and what became of them These are some of the questions investigated by Frank Joseph in his examination of ancient influences at work on our continent He reveals that modern civilization is not the first to arise in North America but was preceded instead by four high cultures that rose and fell over the past three thousand years the Adena Hopewell Mississippian and Anasazi Hohokam How they achieved greatness and why they vanished so completely are the intriguing enigmas explored by this unconventional prehistory of our country *Advanced Civilizations of Prehistoric America*
