Im Dysfunctional Youre Dysfunctional The Recovery Movement And Other Self Help Fashions:

I Am Dysfunctional, You are Dysfunctional Wendy Kaminer, 2004-01-01 [I'm Dysfunctional, You're Dysfunctional](#)
Wendy Kaminer, 1993 A strong critique of today's Recovery Movement and of the entire self help tradition shows how America's obsession with self help lowers our intellectual standards and undermines our capacity for political action from Jacket of the Addison Wesley edition **Drunks** Christopher Finan, 2017-06-27 Reveals the history of our struggle with alcoholism and the emergence of a search for sobriety that is as old as our nation In *Drunks* Christopher Finan introduces us to a colorful cast of characters who were integral in America's moral journey to understanding alcoholism There's the remarkable Iroquois leader named Handsome Lake a drunk who stopped drinking and dedicated his life to helping his people achieve sobriety In the early nineteenth century the idealistic and energetic Washingtonians a group of reformed alcoholics led the first national movement to save men like themselves After the Civil War doctors began to recognize that chronic drunkenness is an illness and Dr Leslie Keeley invented a gold cure that was dispensed at more than a hundred clinics around the country But most Americans rejected a scientific explanation of alcoholism A century after the ignominious death of Charles Adams came Carrie Nation The wife of a drunk she destroyed bars with a hatchet in her fury over what alcohol had done to her family Prohibition became the law of the land but nothing could stop the drinking Finan also tells the dramatic story of Bill Wilson and Dr Bob Smith who helped each other stay sober and then created AA which survived its tumultuous early years and finally proved that alcoholics could stay sober for a lifetime This is narrative history at its best entertaining and authoritative an important portrait of one of America's great liberation movements and essential reading for anyone involved in the addiction community *The Cult of True Victimhood* Alyson Manda Cole, 2007 Demonstrates how the campaign against victim politics and the victim mentality has profoundly altered Americans understanding of victimhood and investigates the consequences of this change in politics law culture and the war against terror *What You Can Change... and What You Can't* Martin Seligman, 2011-02-22 If you believe that dieting down to your ideal weight will prolong your life that reliving childhood trauma can undo adult personality problems that alcoholics have addictive personalities or that psychoanalysis helps cure anxiety then get ready for a shock In the climate of self improvement that has reigned for the last twenty years misinformation about treatments for everything from alcohol abuse to sexual dysfunction has flourished Those of us trying to change these conditions are often frustrated by failure mixed success or success followed by a relapse But have you ever asked yourself can my condition really be changed And if so am I going about it in the most effective way Grounding his conclusions in the most recent and most authoritative scientific studies Seligman pinpoints the techniques and therapies that work best for each condition explains why they work and discusses how you can use them to change your life Inside you'll discover the four natural healing factors for recovering from alcoholism the vital difference between overeating and being overweight and why dieters always gain back the pounds they lost the four therapies that work for depression and

how you can dispute your way to optimistic thinking the pros and cons of anger and the steps to take to understand it and much more

The Trouble with Nature Roger N. Lancaster, 2003-05-01 Roger N Lancaster provides the definitive rebuttal of evolutionary just so stories about men women and the nature of desire in this spirited expos of the heterosexual fables that pervade popular culture from prime time sitcoms to scientific theories about the so called gay gene Lancaster links the recent resurgence of biological explanations for gender norms sexual desires and human nature in general with the current pitched battles over sexual politics Ideas about a hardwired and immutable human nature are circulating at a pivotal moment in human history he argues one in which dramatic changes in gender roles and an unprecedented normalization of lesbian and gay relationships are challenging received notions and commonly held convictions on every front The Trouble with Nature takes on major media sources the New York Times Newsweek and widely ballyhooed scientific studies and ideas to show how journalists scientists and others invoke the rhetoric of science to support political positions in the absence of any real evidence Lancaster also provides a novel and dramatic analysis of the social historical and political backdrop for changing discourses on nature including an incisive critique of the failures of queer theory to understand the social conflicts of the moment By showing how reductionist explanations for sexual orientation lean on essentialist ideas about gender Lancaster invites us to think more deeply and creatively about human acts and social relations

The Money Shot Laura Grindstaff, 2008-11-07 He leaped from his chair ripped off his microphone and lunged at his ex wife Security guards rushed to intercept him The audience screamed then cheered Were producers concerned Not at all They were getting what they wanted the money shot From classy shows like Oprah to trashy shows like Jerry Springer the key to a talk show s success is what Laura Grindstaff calls the money shot moments when guests lose control and express joy sorrow rage or remorse on camera In this new work Grindstaff takes us behind the scenes of daytime television talk shows a genre focused on real stories told by ordinary people Drawing on extensive interviews with producers and guests her own attendance of dozens of live tapings around the country and more than a year s experience working on two nationally televised shows Grindstaff shows us how producers elicit dramatic performances from guests why guests agree to participate and the supporting roles played by studio audiences and experts Grindstaff traces the career of the money shot examining how producers make stars and experts out of ordinary people in the process reproducing old forms of cultural hierarchy and class inequality even while seeming to challenge them She argues that the daytime talk show does give voice to people normally excluded from the media spotlight but it lets them speak only in certain ways and under certain rules and conditions Working to understand the genre from the inside rather than pass judgment on it from the outside Grindstaff asks not just what talk shows can tell us about mass media but also what they reveal about American culture more generally

Encyclopedia Neurotica Jon Winokur, 2013-12-17 From the author of The Portable Curmudgeon a delicious witty irreverent A to Z guide to the tics twitches and safety valves that characterize our twisted neurotic modern world We live in an Age of Anxiety The events of

modern life have overwhelmed the average homo sapiens until getting from Point A to Point B without being overcome by neuroses is a practical impossibility Enter the comic safety valve Jon Winokur's Encyclopedia Neurotica is a delightful garden of the ills that beset modern man Entries include excerpts from both popular and arcane published works as well as original definitions essential terms and the occasional cutting edge concept such as celebriphilia the pathological desire to sleep with a celebrity suffered chiefly by groupies Some samples from Encyclopedia Neurotica Abyss the yawning unfathomable chasm of existential terror Acquired Situational Narcissism a condition characterized by grandiosity lack of empathy rage isolation and substance abuse mainly afflicts celebrities who tend to be surrounded by enablers Denial unconscious defense mechanism that numbs anxiety by refusing to acknowledge unpleasant realities Manic Run prolonged state of optimism excitement and hyperactivity experienced as part of bipolar disorder

The River of History Peter Farrugia, 2005 The articles in this collection are dedicated to the proposition that human beings make history not just in the sense of being agents of change in the here and now but in the sense that we interpret appropriate and make use of the past for our own purposes in the future Covering topics that range from teaching history to the concept of property rights and the discipline of history in the television age these essays will radically alter the notion of how we make history It will show that we are never fully able to bend history to our will and that as we attempt to do so we are often shocked at the turns it takes despite our best efforts to shape it for future generations

Happiness and the Limits of Satisfaction Deal Wyatt Hudson, 1996 In classical and medieval times happiness was defined as well being a notion that included moral goodness Today happiness is most often defined as well feeling and identified with subjective states such as satisfaction and peace of mind Deal Hudson argues that the prevailing view is dangerous in politics as well as ethics creating individuals with no other sense of obligation than finding personal satisfaction regardless of the moral and spiritual cost to themselves and others Hudson calls for a return to the classical tradition no one should be called happy who cannot also be called morally good However a contemporary version of happiness should also go beyond the classical notion by making room in the happy life for suffering and passion Using the history of the idea of happiness as a backdrop to a critique of contemporary views Hudson examines happiness from philosophical religious psychological sociological literary and political points of view for example he shows how the tension between the two definitions of happiness is at the heart of the Declaration of Independence The result is an excellent overview of the history of an idea as well as a compelling argument for moral and political change in our time

Race Experts Elisabeth Lasch-Quinn, 2002-12-17 Controversial and strikingly original Race Experts looks at how we capsized racial progress in the quest for self esteem Now available in paperback it uncovers the hidden trajectory and terms of our thinking about race relations since the 1960s Since segregation's dismantling intense anxiety has surrounded interracial encounters and a movement has arisen to engineer social relations through the specification of elaborate codes of conduct Diversity Training in business multicultural education in schools and cross cultural psychotherapy have created a

world of prescriptions Elisabeth Lasch Quinn carefully examines the teachings of these self appointed experts and offers a bold and searching analysis of the origins of their ideas in the human potential movement and the radical milieu of the 1960s Casting race primarily as an issue of etiquette or therapy rather than of justice or equality has had dire consequences for American life diverting attention from the deeper problems of poverty violence and continued inequality and discrimination In this sobering analysis *Race Experts* illuminates how far away we are from the issues that deserve our attention

Diseases of the Will Mariana Valverde, 1998-10-28 While associated with comfort and pleasure alcohol has been and is a problem substance both for medical and political authorities and for many drinkers In this broad ranging and innovative historical sociological investigation Valverde explores the ways in which both authorities and individual consumers have defined and managed the pleasures and dangers of alcoholic beverages The author explores the question of free will versus determinism and how it has been challenged by ideas about addiction morality and psychology during the last 150 years The book draws on sources from the US UK Canada and elsewhere and covers topics including nineteenth century dipsomania the history of inebriate homes Alcoholics Anonymous fetal alcohol education and liquor control It will appeal to readers in legal studies criminology sociology psychology social theory and the history of medicine **Shook Over Hell** Eric T. Dean, 1997 Vietnam still haunts the American conscience Not only did nearly 58 000 Americans die there but by some estimates 1 5 million veterans returned with war induced Post Traumatic Stress Disorder PTSD This psychological syndrome responsible for anxiety depression and a wide array of social pathologies has never before been placed in historical context Eric Dean does just that as he relates the psychological problems of veterans of the Vietnam War to the mental and readjustment problems experienced by veterans of the Civil War Employing a multidisciplinary approach that merges military medical and social history Dean draws on individual case analyses and quantitative methods to trace the reactions of Civil War veterans to combat and death He seeks to determine whether exuberant parades in the North and sectional adulation in the South helped to wash away memories of violence for the Civil War veteran His extensive study reveals that Civil War veterans experienced severe persistent psychological problems such as depression anxiety and flashbacks with resulting behaviors such as suicide alcoholism and domestic violence By comparing Civil War and Vietnam veterans Dean demonstrates that Vietnam vets did not suffer exceptionally in the number and degree of their psychiatric illnesses The politics and culture of the times Dean argues were responsible for the claims of singularity for the suffering Vietnam veterans as well as for the development of the modern concept of PTSD This remarkable and moving book uncovers a hidden chapter of Civil War history and gives new meaning to the Vietnam War **Writing Students** Marguerite H. Helmers, 1994-01-01 This is a book about the usual teacher student relationship in composition courses It disrupts and rewrites the commonplace conception of the relationship by revealing the uneven ways in which power is deployed in and around the classroom And it offers a responsible alternative The author not only offers teachers a way of learning about power relations at their own

specific sites but also works towards a more equitable redistribution Drawing from testimonials about teaching practice published in the journal *College Composition and Communication* Helmers explores conventions in this form of writing that portray students in a negative light and show the teacher to be powerfully triumphant in his or her creative pedagogy Several prevalent modes of representation are discussed in the book all of which define the students as distinctly different from the teachers in other words as an other The texture of the work is rich because Helmers takes an enormous amount of post structuralist theory and recasts it in the sphere of the teacher student relationship itself an underexplored realm
