[The Bir Messaouda Basilica](#) Richard Miles, Simon Greenslade, 2019-12-31 This volume charts the radical transformation of an inner city neighbourhood in late antique Carthage which was excavated over a

five year period by a team from the University of Cambridge Bordering the main thoroughfare leading from the Brysa Hill to the ports the neighbourhood remained primarily a residential one from the second century until 530s AD when a substantial basilica was constructed over the eastern half of the insula Further extensive modifications were made to the basilica half a century later when the structures on the western half of the insula were demolished and the basilica greatly enlarged with the addition of a new east west aisles a large monumental baptistery and a crypt By carefully reconstructing the complex architectural plan of this innovative building this study shows how the re modelled Bir Messaouda basilica was transformed into a major pilgrimage centre overturning established tradition that located such complexes outside the city walls The Bir Messaouda basilica provides important insights into the transition between Vandal and Byzantine control of the city the development of a new Christian inter mural urban landscape in the sixth century AD and the significance of the pilgrimage in reinforcing ecclesiastical authority in post Justinianic North Africa *Symphosius The Aenigmata* Caelius Firmianus Symphosius,T.J. article or section **Stories in Stone** Aïcha Ben Abed Ben Khader, 2006 Between the second and the sixth centuries of the common era elaborate mosaics were designed and created to pave the floors of town homes and rural estates of the Roman settlements in North Africa These stunning mosaics were especially widespread in the colony of Africa Proconsularis modern day Tunisia and covered a wide range of subject matter from scenes of daily life and classical mythology to abstract floral and geometric designs of rare vibrancy and complexity A distinctive African style emerged whose influence would extend throughout the Mediterranean basin and beyond This catalogue is being published to coincide with an exhibition at the J Paul Getty Museum at the Getty Villa from October 26 2006 to April 30 2007 the first major exhibition in the United States solely devoted to ancient mosaics The twenty seven mosaics in the exhibition come from Tunisia's leading museums including the Bardo Museum in Tunis the Sousse Museum and the El Jem Museum *Stories in Stone* is structured around four principal themes Nature Theater and Spectacle Myths and Gods and Technique and includes extensive material on mosaic conservation In addition to color plates of all objects in the exhibit this catalogue includes nine richly illustrated essays that illuminate the historical background of mosaic art trace the development of principal themes and examine the conservation of mosaics both in the museum setting and in situ Contributors include Taher Ghalia director of the Bardo Museum Mongi Ennaifer minister of cultural affairs Tunisia Thomas Roby senior project specialist Getty Conservation Institute and Jerry Podany head of antiquities conservation J Paul Getty Museum **Crafting Presence** Britta Dümpelmann, 2025-08-20 The contributions to this volume analyse material and visual effects that are artistically produced in different often seemingly poorer media As an alternative to the notions of mimesis and imitation this volume uses the term evocation a concept that avoids the interpretation of lifelike mimesis as representational goal and instead values specific and intrinsic dynamisms that afford objects and materials to assume aesthetic presence The individual chapters show how distinct cross media perspectives such as media permeability semantic openness and aesthetic blurring are consciously employed as media specific strengths that can transcend the boundaries between materials crafts and genres thus allowing medieval makers to create a unique aesthetic of presence The texts collected here are the result of a series of on site workshops and have benefited from the intensive dialogue between art historians curators conservators and restorers in the context of the Research Network Presence and Evocation Fictitious Materials and Techniques in the Early and High Middle Ages which ran between 2017 and 2020 and was financed by the German Research Foundation DFG Funded by the Deutsche Forschungsgemeinschaft project number 338069669 **Roman Domestic Art and Early House Churches** David L.
