Democracy in Chile Silvia Nagy-Zekmi, Fernando Leiva, 2013-03-01 In the 1990s Latin America emerged from the horror of massive human rights violations as it returned to civilian elected regimes This volume aims to explore the lasting legacy of the transformations brought about by the oppressive regimes of the 70s and 80s as they are experienced in the cultural social and intellectual life of the region **Chineseness in Chile** Maria Montt Strabucchi, Carol Chan, María Elvira

Ríos, 2021-12-15 This book explores the role of Chineseness or lo chino in the production of Chilean national identity It does so by discussing the many voices images and intentions of diverse actors who contribute to stereotyping or problematizing Chineseness in Chile The authors argue that in general representing and perceiving China or Chineseness as the Other is part of a broader cultural and political strategy for various stakeholders to articulate Chile as either a Western country or one that is becoming Western The authors trace the evolution of the symbolic role that China and Chineseness play in defining racial gendered and class aspects of Chilean national social imaginary In doing so they challenge a common idea that Chineseness is a stable signifier and the simplistic perception of the ethnic Chinese as the unassimilable foreigner within the nation In response the authors call for a postmigrant approach to understanding identities and Chilean society beyond stubborn Orient Occident and us them dichotomies Images and Intervention Martha L. Cottam, 1994-04-15 Cottam

explains the patterns of U S intervention in Latin America by focusing on the cognitive images that have dominated policy makers world views influenced the procession of information and informed strategies and tactics She employs a number of case studies of intervention and analyzes decision making patterns from the early years of the cold war in Guatemala and Cuba to the post cold war policies in Panama and the war on drugs in Peru Using two particular images the enemy and the dependent Cottam explores why U S policy makers have been predisposed to intervene in Latin America when they have perceived an enemy the Soviet Union interacting with a dependent a Latin American country and why these images led to perceptions that continued to dominate policy into the post cold war era **Chile** United States. Committee on International Relations. Subcommittee on International Organizations, 1976 **We Are All Chile** Katherine Karr-Cornejo, 2025-04-15 A study of the relationship between literature and the current conditions of national life We Are All Chile explores how artistic expression reflects lived experience The book travels through figures symbols and events in Chilean history from the sixteenth to the end of the nineteenth centuries as represented through historical fiction of the late twentieth and early twenty first centuries an oeuvre that uses historical stories to reflect upon the challenges of Chilean society post dictatorship Contrasting the use of these stories with previous understanding highlights the power of legacies of the dictatorial authoritarian state particularly as they shape possibilities for the full flourishing of people without regard for their minoritized or disadvantaged identities such as their sex sexual orientation ethnicity or race This treatment of Chilean history and culture brings together literature and historiography to offer powerful interpretations of cultural narratives The

focus on varied dimensions of difference illustrates both overlapping representations and distinctive features of each within narratives imagining a more inclusive community Throughout We Are All Chile historical narratives and their source material are connected to support the creation of imaginative space for a better and more expansive future The stories studied highlight the relationships between gender empire and the body performances of race and gender that evoke a utopian dream of coexistence symbols and systems of the nation as reflections of authoritarian practices the legibility of the claims of indigenous communities the role of violence in community building and the strategies of lament inherent in the repeated stories of dreams for a more inclusive future shattered on the structures of exclusion These historical narratives alone cannot change the material conditions in which people live but they can awaken hope for the future that can inspire change And it is this very process of defending questioning challenging and changing historical stories that opens the door to possibility

The Mobile Image Emily C. Floyd, 2025-06-24 A study of the production and movement of prints in colonial South America Printed images have had a central place in art historical studies of colonial Spanish America but scholars have typically focused on imported prints designed and produced in Europe The Mobile Image focuses instead on works printed in colonial Lima generating there a distinctive print culture that served local and regional needs while also appealing to European print consumers Inexpensive easily transportable and numerous Lima's prints traversed the varied geographies of the Viceroyalty of Peru both as loose sheets and within the protective covers of printed books In the process lime o devotional prints encouraged the development of shared regional imaginaries about the sacred Andean landscape a space marked by miracle working Virgins potential saints and powerful images of Christ These same prints traveled abroad where they promoted iconographies developed in Lima and influenced European conceptions of the Andes Simultaneously the visual language of lime o prints often challenges conventional approaches to interpreting colonial depictions of race In analyzing lime o prints and the identities of their makers patrons and consumers The Mobile Image demonstrates that race is harder to recognize in colonial images than we might think Unearthing hundreds of forgotten prints Emily C Floyd provides a fresh resource for interpreting colonial artworks troubling established understandings of their aesthetics and compelling us to reexamine colonial South American material cultures
