Images of Desire

Jaqueline Lapa Sussman, 2003-12 Most of us suffer from images implying that we must look and act like movie stars to be sensuous. Movie television magazines as well as our personal histories shape these images and sensuality. But each of us is born with a natural sensuality that is still locked within us. Eidetic Imaging removes those layers of false images and unlocks our lush natural sensuality. *Images of Desire* Jaqueline Lapa Sussman, 2001

Richard Aldington, 2017-12-26 Excerpt from *Images of Desire* Even that beauty I have loved too well That I might love you better Alas how poor the gifts that lovers give I can but give you of my flesh and strength I can but give you these few passing days And passionate words that since our speech began All lovers whisper in all women's ears About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. On Desire Bernd Kracke, Marc Ries, 2018-07-15 Desire indicates phenomena that are implicated in a productive ambiguity. These phenomena associate basic elements of human coexistence while also referencing complex social processes and institutions. With today's new media we experience an assemblage of desire that maps out new relationships to the social body to sexuality and gender questions to ownership and to the production, perception and appropriation of moving images. This book brings together a broad spectrum of international positions relating to the time-based immersive arts presented at the third B3 the Biennial of the Moving Image Frankfurt/Main 2017 which focuses on desire in the contemporary world. An extensive essay by Marc Ries develops a theoretical framework relating the moving image to desire. Contributions by Candice Breitz, Douglas Gordon, Johan Grimonprez, Jonas Mekas, Larissa Sansour, Igor Simic and Frederico Solmi. *Desire Begehren* benennt Phänomene die in eine produktive Ambivalenz eingeschrieben sind. Sie assoziieren Grundelemente menschlichen Zusammenlebens, verweisen aber zugleich auf komplexe gesellschaftliche Prozesse und Institutionen. Mit den gegenwärtigen Medien erleben und erfahren wir ein Gefüge des Begehrens, das neue Verhältnisse zum sozialen Körper, zur Sexualität und Geschlechterfrage, zum Eigentum und auch zur Produktion, Wahrnehmung und Aneignung von Bewegungsbildern entwirft. Der Band versammelt ein Spektrum an internationalen Positionen zeitbasierter und immersiver Kunst der dritten B3 Biennale des Bewegten Bildes Frankfurt/Main 2017 zum Begehren in der Gegenwart. Ein umfassender Essay von Marc Ries entwickelt einen theoretischen Rahmen der Beziehung des bewegten Bildes zum Begehren. Beiträge von Candice Breitz, Douglas Gordon, Johan Grimonprez, Jonas Mekas, Larissa Sansour, Igor Simic und Frederico Solmi. Image and Presence Natalie

Carnes, 2017-12-12 Images increasingly saturate our world making present to us what is distant or obscure Yet the power of images also arises from what they do not make present from a type of absence they do not dispel Joining a growing multidisciplinary conversation that rejects an understanding of images as lifeless objects this book offers a theological meditation on the ways images convey presence into our world Just as Christ negates himself in order to manifest the invisible God images Natalie Carnes contends negate themselves to give more than they literally or materially are Her Christological reflections bring iconoclasm and iconophilia into productive relation suggesting that they need not oppose one another Investigating such images as the biblical golden calf and paintings of the Virgin Mary Carnes explores how to distinguish between iconoclasm that maintain fidelity to their theological intentions and those that lead to visual temptation Offering ecumenical reflections on issues that have long divided Protestant Catholic and Orthodox traditions Image and Presence provokes a fundamental reconsideration of images and of the global image crises of our time **Images of Desire**

Anthroposophical Understanding of the Soul F. W. Zeylmans van Emmichoven, 1983-03 A new psychology of the human soul Use of the word soul to denote the inner world of human experience has not been fashionable in the psychology of recent times However as Zeylmans van Emmichoven stresses in this groundbreaking study human inner life is always active as a whole entity which calls for recognition of the soul as a significant aspect of the human entity Drawing on the works of Goethe Franz Brentano Edmund Husserl Max Scheler and Rudolf Steiner this original approach to psychology uses the soul's

own self perception as the method of clarifying the mysteries of the inner life The soul as an inner world participates in two worlds an external world and a still deeper interior world The soul is revealed as a mediator between the outer physical world including the body and the inner core of the human being the I or true self Through its intentional relationship to these two worlds an ever shifting stream of dynamic polarities courses continuously through the soul love hate joy sorrow pleasure displeasure desire satisfaction laughing weeping life consciousness Many soul processes are explored in this context including doubt will mental images perceiving judgment and decision time and space experience and sexual identity as well as how the soul expresses itself in the language of dreams in everyday speech in posture in temperament and in character In addition Van Emmichoven proposes yet another dimension of the human soul through the idea of the soul's drive for development which unfolds through the Goethean laws of polarity enhancement and metamorphosis He paints a profound picture of the higher aim of human life the soul's gradual liberation from physical bonds to become an organ for the I yet always balanced by the soul's inclination to become an organ for the body Along this unfinished journey toward a full human existence he describes the roles played by love by wisdom and by inner death and resurrection As van Emmichoven points out with this understanding of the soul it is clear that there is an area where psychology and a philosophy of life overlap and indeed cannot be entirely separated If we were to define how the understanding of the soul represented in this book is related to contemporary schools of thought there are three thinkers Herder Goethe and Steiner whose spiritual outlook has had a decisive influence The fact that none of these thinkers became particularly well known in this field is not so surprising if we take into account the comprehensive wisdom and spiritual depth which distinguish their works from the introduction This book is a translation from Dutch of *De Menselijke Ziel* 1946

What Do Pictures Want? W. J. T. Mitchell, 2013-12-23

Why do we have such extraordinarily powerful responses toward the images and pictures we see in everyday life Why do we behave as if pictures were alive possessing the power to influence us to demand things from us to persuade us seduce us or even lead us astray According to W J T Mitchell we need to reckon with images not just as inert objects that convey meaning but as animated beings with desires needs appetites demands and drives of their own What Do Pictures Want explores this idea and highlights Mitchell's innovative and profoundly influential thinking on picture theory and the lives and loves of images Ranging across the visual arts literature and mass media Mitchell applies characteristically brilliant and wry analyses to Byzantine icons and cyberpunk films racial stereotypes and public monuments ancient idols and modern clones offensive images and found objects American photography and aboriginal painting Opening new vistas in iconology and the emergent field of visual culture he also considers the importance of Dolly the Sheep who as a clone fulfills the ancient dream of creating a living image and the destruction of the World Trade Center on 9/11 which among other things signifies a new and virulent form of iconoclasm What Do Pictures Want offers an immensely rich and suggestive account of the interplay between the visible and the readable A work by one of our leading theorists of visual representation it will be a touchstone for art

historians literary critics anthropologists and philosophers alike A treasury of episodes generally overlooked by art history and visual studies that turn on images that walk by themselves and exert their own power over the living Norman Bryson

Artforum *Journal of Anatomy and Physiology* ,1886 **The Journal of Anatomy and Physiology, Normal and Pathological** ,1886 **Deficits and Desires** Michael Tratner,2002-03-01 This book examines the effects on literary works of a little noted economic development in the early twentieth century individuals and governments alike began to regard going into debt as a normal and even valuable part of life The author also shows surprisingly that the economic changes normalizing debt paralleled and intersected with changes in sexual discourse In Victorian novels sex and debt are considered dangerous activities that the young should avoid in order to save and invest toward eventual marriage and a home In twentieth century texts however it often seems acceptable to go into debt and engage in sex before marriage These literary representations followed social transformations as both economic and sexual discourse moved from the logic of saving and production to the logic of circulation In Keynesian economics and consumerism governments and individuals were actually encouraged to borrow and to spend more in order to increase demand and keep money circulating In twentieth century sexual treatises people were similarly encouraged to indulge their desires as pent up states were considered as deleterious to the physical body as they were to the economic In this book the author traces these social transformations by examining twentieth century literary works and films that are structured around contrasts between repressive and expansive forms of economics and sexuality He studies a range of authors including James Joyce F Scott Fitzgerald Virginia Woolf Ezra Pound Zora Neale Hurston and Frank Capra The book ends with the 1960s because after that decade deficits no longer seemed the cure for anything and the advocacy of sexual indulgence dwindled For half a century however the intersections of sexual and economic discourses created a sense that society was on the verge of a vast transformation The artists studied in this book were fascinated by such a prospect but remained ambivalent as it seemed that their dreams of escaping dull bourgeois life and ending repression were becoming true because of the influence of the crassest economic policies Body Work Sylvia K. Blood,2004-03-01 Are scientific facts about body image enough to define conceptions of normality Reassessing Experimental Psychology from a critical perspective Sylvia Blood demonstrates how its research into Body Image can be misused and prone to misuse Classifying women who experience distress and anxiety with food eating and body size as suffering body image disturbance or body image dissatisfaction it can reproduce dominant assumptions about language meaning and subjectivity Experimental psychology s discourse about body image has recently become more widely influential becoming popularised through domains such as women s magazines in which psychological experts provide facts about women s body image problems and offer advice and psychological treatments With acute cross disciplinary awareness Body Work The Social Construction of Women s Body Image exposes the assumptions at work in the methods and status of experimental approaches Penetrating beyond the usual dichotomy between experimental and popular psychology this book

illuminates some of the ways in which women's magazines have embraced experimental psychology's treatment of the issue. Drawing on her experience in Clinical Psychology, Sylvia Blood highlights the damaging effects of uncritically experimental views of body image. She goes on to elaborate not only an alternative model of discursive construction but also the implications of such a theory for clinical practice. Merging theory and clinical experience, Sylvia Blood exposes the fallacies about women's bodies that underpin experimental psychology's body image research. She demonstrates the dangerous consequences of these fallacies being accepted as truths in popular texts and in the talk of everyday women. *Recognition and Perception of Images* Iftikhar B. Abbasov, 2021-03-23 This book is dedicated to the unique interdisciplinary research of imagery processing, recognition and perception. The contents of this book are based on the concepts of mathematical processing, compositional analysis applied in the art and design, and psychological factors of the information perception process. The conduction of compositional analysis carried out in the course of images processing and recognition, creation of the image project, solution and modeling of the conceptual space structures are considered together with the mechanism of their perception. Edited and written by a group of international experts, the practical applications for industry are covered, including the influence of internet memes on social networks and face recognition technology, subject to interferences. The algorithms of perception and improving of accuracy necessary for satellite imagery recognition and complex reflection from the object are represented with the use of artificial neural networks. Not just a study in how humans recognize and perceive images, this outstanding new volume delves into how these processes are used in technology for continuously evolving industrial applications. Whether for the veteran scientist or engineer or for the student, this is a must have for any library.

Reading Simulacra M. W. Smith, 2001-09-06 Reading Simulacra analyzes the ways in which our culture has become fatally immersed in simulation. Television, the Internet, virtual reality, and other advancements in technology and information processing have brought about an order in which simulations and digital images permeate our experiences of the world so deeply that their distinctions from reality appear seamless. Through a careful study of some of the most important postmodern theorists, particularly Jean Baudrillard and Deleuze and Guattari, this book puts forth two different communication strategies: seduction and rupture for a world where the difference between what is real and what is simulated has disappeared. In an attempt to discern meaning from this contemporary situation, M. W. Smith examines a range of contemporary texts that have in the past resisted traditional analysis. These include the O. J. Simpson trial, Oliver Stone's *Natural Born Killers*, Reese Williams's *A Pair of Eyes*, Kathy Acker's *Blood and Guts in High School*, and Don Quixote, Clarence Major's *My Amputations*, and Baudrillard's *America*, all of which represent the obscenity of hypersignified existence. *Lucifer*, 1895
