Images Of Egypt:

Images of Egypt in Early Biblical Literature Stephen C. Russell, 2009 This book suggests a regional paradigm for understanding the development of the traditions about Egypt and the exodus in the Hebrew Bible It offers fresh readings of the golden calf stories in 1 Kgs 12 25 33 and Exod 32 the Balaam oracles in Num 22 24 and the Song of the Sea in Exod 15 1b 18 and from these paints a picture of the differing traditions about Egypt that circulated in Cisjordan Israel Transjordan Israel and Judah in the 8th century B C E and earlier In the north an exodus from Egypt was celebrated in the Bethel calf cult as a journey of Israelites from Egypt to Cisjordan without a detour eastward to Sinai This exodus was envisioned in military terms as suggested by the nature of the polemic in Exod 32 and the attribution of the exodus to the warrior Yahweh Israel's own deity In the east a tradition of deliverance from Egypt was celebrated rather than the idea of a journey and it was credited to El In the south Egypt was recognized as a major enemy whom Yahweh had defeated but the traditions there were not formulated in terms of an exodus While acknowledging the reshaping of these traditions in response to the exile *Images of Egypt* argues that they originated in the pre exilic period and relate to Syro Palestinian history as it is otherwise known

Silent Images Zahi Hawass, 2009-04 This beautifully produced new paperback edition of *Silent Images* explores a puzzling contradiction Despite the multitude of artifacts and texts that have come to us from ancient Egypt much still remains obscure regarding the lives of women Women were from the historical perspective silent but how should this silence be interpreted What was the reality of women's lives behind the standardized images We know that their chief role in society as mothers and anchors of the family was honored and respected although it meant a degree of segregation and in most periods excluded them from public office Nevertheless in law they were the equals of men and they could and did own property which they administered and disposed of themselves Zahi Hawass's book searches for a more realistic picture of women's lives in ancient Egypt As well as reconsidering the evidence from tomb and temple the author draws on unpublished material from his excavations at the workers cemetery at Giza which sheds light on the womenfolk of the workmen who built and maintained the pyramids The text is complemented by lavish illustrations of places and objects many made especially for this book

Egypt as a Monster in the Book of Ezekiel Safwat Marzouk,2015-06-05 Appealing to Monster Theory and the ancient Near Eastern motif of Chaotkampf Safwat Marzouk argues that the paradoxical character of the category of the monster is what prompts the portrayal of Egypt as a monster in the book of Ezekiel While on the surface the monster seems to embody utter difference underlying its otherness there is a disturbing sameness Though the monster may be defeated and its body dismembered it is never completely annihilated Egypt is portrayed as a monster in the book of Ezekiel because Egypt represents the threat of religious assimilation Although initially the monstrosity of Egypt is constructed because of the shared elements of identity between Egypt and Israel the prophet flips this imagery of monster in order to embody Egypt as a monstrous Other In a combat myth YHWH defeats the monster and dismembers its body Despite its near annihilation Egypt in Ezekiel s rhetoric is not entirely obliterated Rather it is kept at bay hovering at the periphery questioning Israel s identity
