

The image features a deep space background filled with stars and nebulae. Two large, glowing rings are positioned horizontally, overlapping each other. The left ring has a blue-to-purple gradient, while the right ring has a red-to-orange gradient. Both rings have a grainy, textured appearance. The word "ETERNITY" is centered across the rings in a bold, sans-serif font. The letters are white with a slight blue tint on the left side and a yellowish-gold tint on the right side, matching the colors of the rings. The overall composition is symmetrical and evokes a sense of infinity and cosmic time.

Moving Images of Eternity William F. Pinar, 2019-03-26 William F. Pinar presents a comprehensive and original study that demonstrates the significance and pertinence of the scholarship of George Grant for teaching today. While there are studies of Grant's political philosophy, there has been no sustained study of his teaching. Pinar not only draws upon the collected works, he has also consulted Grant's PhD thesis at Oxford as well as the philosopher's biography, collected letters, and the vast secondary literature. What emerges is a treatise that reveals Grant's timeliness and his prescience in identifying and critiquing key educational issues nearly half a century ago, from academic vocationalism and educational technology to privatization and the ascendancy of research issues that are eminently relevant today. Beyond the classroom, Grant's concerns extended to the impact of economic globalization, which he feared would erase distinctive national histories and cultures. As such, Grant foresaw the current issues of right-wing populism, notably in the UK and the US, as reactions against these historical tendencies. This volume is destined to become an indispensable reference work for students of Grant, in particular, and for students of education in general. This book is published in English. S'il existe des études portant sur la philosophie politique et la théologie de George Grant, il n'y avait jusqu'maintenant aucune étude soutenue sur son enseignement et plus précisément sur la relation de son approche pédagogique. Celles-ci. Aucune étude ne pouvait de façon aussi poussée l'œuvre complète y compris ses présentations aux enseignants et sa thèse doctorale d'Oxford en philosophie ou sa biographie, sa correspondance et la vaste littérature secondaire. Comme livre de référence pour les adeptes de Grant, de même que comme un manuel pour les étudiants en éducation, cet ouvrage arrive point nommé. Pinar souligne la prescience de Grant, qui identifiait et critiquait il y a déjà cinquante ans des questions d'ordre éducationnel, vocation académique, technologie pédagogique, privatisation de l'enseignement, ascendance de la recherche sur l'enseignement, qui sont d'actualité. Grant était aussi préoccupé par le destin de ce qu'il appelait la particularité au Canada et l'étranger et s'inquiétait que la mondialisation économique effacerait les histoires et cultures nationales distinctives. Un état mondial universel et homogène les remplacerait, ce qui représenterait la pire tyrannie infligée à l'humanité. Grant avait vu venir le populisme de droite que l'on voit actuellement prendre prise, notamment au Royaume-Uni et aux États-Unis, comme réaction à ces tendances historiques. Ce livre est publié en anglais.

Images of Eternity Keith Ward, 1987. In this book, the author considers the doctrine of ultimate reality, God, within five world religions: Hinduism, Buddhism, Islam, Judaism, and Christianity. By closely studying an orthodox writer in each tradition, the author builds up pictures of God and uncovers a common core of belief.

Eternity and Time's Flow Robert C. Neville, 1993-01-01. Neville returns eternity to the center of consideration by analyzing the obsessive culture that attempts to get along denying it, and he analyzes the nature of time's flow itself, the nature of divine eternity, and the subtle problems of personal immortality. He argues that time and eternity constitute one topic and that therefore time itself is beyond understanding, beyond personal grasp, and beyond civilized orientation without a proper comprehension of eternity.

Schelling Now Jason M. Wirth, 2005 Previously considered a way station on the road to Hegel F W J von Schelling is today enjoying a renaissance among Continental philosophers and others These 14 essays bring Schelling in tune with such luminaries as Heidegger Derrida Bataille Foucault Deleuze Levinas and Irigaray and situate him squarely in the centre of current themes

Time and the Image Carolyn Bailey Gill, 2000 This fascinating and innovative study explores the lives of people living in early modern Ireland through the books and printed ephemera which they bought borrowed or stole from others While the importance of books and printing in influencing the outlook of early modern people is well known recent years have seen significant changes in our understanding of how writing and print shaped lives and was in turn shaped by those who appropriated the written word The author finds that a set of revolutions took place which transformed the lives of the Irish in unexpected ways and that the rise of writing and the spread of print were central to an understanding of those changes which have previously only been understood to have been the result of conquest and colonisation This is a book which will be read not only by those interested in the Irish past but by all those who are concerned with the impact of communications media on social change

Theology and the Films of Terrence Malick Christopher B. Barnett, Clark J. Elliston, 2016-08-12 Terrence Malick is one of the most important and controversial filmmakers of the last few decades Yet his renown does not stem from box office receipts but rather from his inimitable cinematic vision that mixes luminous shots of nature dreamlike voiceovers and plots centered on enduring existential questions Although scholars have thoroughly examined Malick's background in philosophy they have been slower to respond to his theological concerns This volume is the first to focus on the ways in which Malick integrates theological inquiries and motifs into his films The book begins with an exploration of Malick's career as a filmmaker and shows how his Heideggerian interests relate to theology Further essays from established and up and coming scholars analyze seven of Malick's most prominent films *Badlands* 1973 *Days of Heaven* 1978 *The Thin Red Line* 1998 *The New World* 2005 *The Tree of Life* 2011 *To the Wonder* 2012 and *Knight of Cups* 2015 to show how his cinematic techniques point toward and overlap with principles of Christian theology A thorough study of an iconic filmmaker this book is an essential resource for students and scholars in the emerging field of religion and film

Moving Images Krista Lynes, Tyler Morgenstern, Ian Alan Paul, 2020-05-07 In recent years spectacular images of ruined boats makeshift border camps and beaches littered with life vests have done much to consolidate the politics of movement in Europe Indeed the mediation of migration as a crisis has worked to shore up various forms of militarized surveillance humanitarian response legislative action and affective investment Bridging academic inquiry and artistic and activist practice the essays documents and artworks gathered in *Moving Images* interrogate the mediation of migration and refugeeism in the contemporary European conjuncture asking how images discourses and data are involved in shaping the visions and experience of migration in increasingly global contexts

Light and Images Adrienne von Speyr, 2012-04-02 One of Adrienne von Speyr's most cherished concerns was to rekindle Christians desire for contemplation and thus to renew the

Church's prayer *Light and Images* is one of the most important of her works on the subject. She sets forth the deepest theological foundations of contemplative prayer according to the reciprocal relationship between light and images. Like the simple images that open up infinite depths to the eye of faith, this little book contains an overwhelming wealth of insight into contemplation. One comes away from it with a vastly transformed understanding of the nature of prayer and an appreciation for its irreplaceable role in Christian life. With its disarmingly simple language, *Light and Images* is immediately accessible and yet the new perspectives it offers on prayer surprise and challenge at every turn. The book is therefore both an incomparable introduction for those who wish to learn what it means to pray and excellent spiritual reading for those seeking to draw more deeply from the Church's great treasury of prayer.

Theory of the Image Thomas Nail, 2019. We live in an age of the mobile image. The world today is absolutely saturated with images of all kinds circulating around the world at an incredible rate. The movement of the image has never been more extraordinary than it is today. This recent kinetic revolution of the image has enormous consequences not only for the way we think about contemporary art and aesthetics but also for art history as well. Responding to this historical moment, *Theory of the Image* offers a fresh new theory and history of art from the perspective of this epoch defining mobility. The image has been understood in many ways but it is rarely understood to be fundamentally in motion. The original and materialist approach is what defines *Theory of the Image* and what allows it to offer the first kinetic history of the Western art tradition. In this book, Thomas Nail further develops his larger philosophy of movement into a comprehensive kinesthetic of the moving image from prehistory to the present. The book concludes with a vivid analysis of the contemporary digital image and its hybridity, ultimately outlining new territory for research and exploration across aesthetics, art history, cultural theory, and media studies.

The New Nietzsche David B. Allison, 1985. The fifteen essays written by such eminent scholars as Derrida, Heidegger, Deleuze, Klossowski, and Blanchot focus on the Nietzschean concepts of the Will to Power, the Übermensch, and the Eternal Return, discuss Nietzsche's style, and deal with the religious implications of his ideas. Taken together, they provide an indispensable foil to the interpretations available in most current American writing.

Icons in Time, Persons in Eternity C.A. Tsakiridou, 2016-05-13. *Icons in Time, Persons in Eternity* presents a critical interdisciplinary examination of contemporary theological and philosophical studies of the Christian image and redefines this within the Orthodox tradition by exploring the ontological and aesthetic implications of Orthodox ascetic and mystical theology. It finds Modernist interest in the aesthetic peculiarity of icons significant and essential for re-evaluating their relationship to non-representational art. Drawing on classical Greek art criticism, Byzantine ekphrasis and hymnography, and the theologies of St. Maximus the Confessor, St. Symeon the New Theologian, and St. Gregory Palamas, the author argues that the ancient Greek concept of *enargeia* best conveys the expression of theophany and theosis in art. The qualities that define *enargeia*—inherent liveliness, expressive autonomy, and self-subsisting form—are identified in exemplary Greek and Russian icons and considered in the context of the hesychastic theology that lies at the heart of

Orthodox Christianity An Orthodox aesthetics is thus outlined that recognizes the transcendent being of art and is open to dialogue with diverse pictorial and iconographic traditions An examination of Chinese Zen art theory and a comparison of icons with paintings by Wassily Kandinsky Pablo Picasso Mark Rothko and Marc Chagall and by Japanese artists influenced by Zen Buddhism reveal intriguing points of convergence and difference The reader will find in these pages reasons to reconcile Modernism with the Christian image and Orthodox tradition with creative form in art Eternity's Handmaiden R. Within and Without Eternity Jules van Lieshout, 2022-05-20 William Blake s literary works are characterized by a ceaseless dynamics constituted in the fierce interactions of the language thought and narrative of his myth Highlighting the critical problems facing the linear approach

that the study of Blake has adopted from the traditional methodology of Newtonian science Jules van Lieshout argues that nonlinearity is the key to understanding Blake's prophecies Throughout his discussions Van Lieshout focuses on the relation of Blake's Generation and Eternity which he identifies as Bakhtinian world views In Generation existence is finalized as a hierarchy of geometric dark globes each assuming the character of universal whole to the exclusion of all others Eternity on the other hand is Blake's fractal human form of existence that is continuously organized and reorganized in the dynamic interaction of whole and parts Blake represents these world views as interinvolved Their dynamic interaction reflects and refracts his conceptual thought mythological narrative and poetic language Hence his visionary epic self organizes into a self similar complex system whose patterns of behaviour are not merely remarkably like those that modern applications of nonlinear dynamics are revealing in the physical world but are indeed inherent in the processes of writing and reading his individual works
